Sources for Forging the Modern World James Carter, Richard A. Warren, 2018-09 In *Forging the Modern World: A History* authors James Carter and Richard Warren offer an accessible explanation of key transformations in global economic, political, and ideological relationships since the sixteenth century. The book is distinct from most world history texts in three important ways. First, it explores the ways in which historians use and produce information. Each chapter delves deeply into one or two specific issues of historical inquiry related to the chapter theme, showing how new primary sources, methodologies, or intellectual trends have changed how we engage with the past. Second, it clearly explains the political, economic, and ideological concepts that students need to understand in order to compare events and trends across time and space. Finally, the chapters are organized around global historical themes which are explored through an array of conceptual and comparative lenses. While the book's chapters proceed chronologically, each chapter is written with some chronological overlap, linking it to preceding and subsequent chapters. This strategy emphasizes the interconnectedness between the events and themes of one chapter and those of surrounding chapters. A companion sourcebook follows the main book's organization and includes approximately 6-7 primary sources with two questions following each source.

Modernism, Middlebrow and the Literary Canon Lise Jaillant, 2015-10-06 In the 1920s and 1930s, the Modern Library series began to bring out cheap editions of modernist works. Jaillant provides a thorough analysis of the series' mix of highbrow and popular literature and argues that the availability and low cost of modernist works helped to expand modernism's influence as a literary movement.

The Economic Theory of Modern Society Michio Morishima, 1976-10-07 Professor Morishima explores different types of societies and economies with a focus on the Japanese economy.

Cruising Modernism Michael Trask, 2018-05-31 *Modern Society* Michael Trask argues in this incisive and original book chose to couch class difference in terms of illicit sexuality. Trask demonstrates how sexual science's concept of erotic perversion mediated the writing of both literary figures and social theorists when it came to the innovative and unsettling social arrangements of the early twentieth century. Trask focuses on the James brothers in a critique of pragmatism and anti-immigrant sentiment, shows the influence of behavioral psychology on Gertrude Stein's work, uncovers a sustained reflection on casual labor in Hart Crane's lyric poetry, and traces the identification of working-class Catholics with deviant passions in Willa Cather's fiction. Finally, Trask examines how literary leftists borrowed the antiprostitution rhetoric of Progressive era reformers to protest the ascendance of consumerism in the 1920s. Viewing class as a restless and unstable category, Trask contends American modernist writers appropriated sexology's concept of evasive, unmoored desire to account for the seismic shift in social relations during the Progressive era and beyond. Looking closely at the fraught ideological space between real and perceived class differences, *Cruising Modernism* discloses there a pervasive representation of sexuality as
