The Historic Indian Tribes of Louisiana Fred B. Kniffen, Hiram F. Gregory, George A. Stokes, 1994-09-01 Although many specialized studies have been written about Louisiana's Indian tribes no complete account has appeared regarding their long varied history The Historic Indian Tribes of Louisiana From 1542 to the Present is a highly informative study that reconstructs the history and cultural evolution of these people This study identifies tribal groups charts their migrations within the state and discusses their languages and customs According to the authors the first descriptions of Louisiana Indians are contained in accounts kept by members of Hernando de Soto's expedition In the 1540s The next recorders of Indian life were the French in the 1700s European influences irrevocably marked the Indians' lives The natives lost tribal lands to the new settlers and replaced many of their weapons and tools with those of the Europeans Diseases apparently introduced by the Spaniards decimated entire tribes and caused the disappearance of certain tribal languages that had never

been recorded However much of Indian material culture has survived even to the present including the dugout canoe or pirogue and the beautiful cane basketry of the Chitimacha tribe According to the authors current figures show that Louisiana has the third largest native American population in the eastern United States Several of Louisiana s present day Indian tribes such as the Tunica Biloxi Choctaw and Koasati entered the state in the second half of the eighteenth century They gradually established settlements throughout the state at times displacing the native tribes Today many of Louisiana s Indians work in business and industry and as farmers and loggers The Historic Indian Tribes of Louisiana is a valuable contribution to the literature on Louisiana History It will be of interest to anthropologists geographers historians and anyone wanting to know more about these important members of Louisiana s population **Bulletin** ,1943 *French and Spanish Records of Louisiana* Henry Putney Beers,2002-03-01 Representing years of extensive research this authoritative and comprehensive guide to the records generated in the Louisiana Territory during the French and Spanish colonial periods is a major reference work Henry Putney Beers has painstakingly traced all types of documents including land military and ecclesiastical records registers of births marriages and burials and private papers Far more than a mere bibliographical listing the book provides a complete history and description of these records and their past as well as current locations When microfilms or other copies of particular bodies of documents exist Beers describes the circumstances of reproduction and lists the locations of the copies In the first part of the book Beers presents a concise account of history and government in Louisiana concentrating on the formation of a record keeping bureaucracy His detailed discussion includes information on available archival reproductions documentary publications and the nature and size of holdings in pertinent manuscript collections Beers s examination of parish land and ecclesiastical records will serve as a vital resource In the remainder of the book he provides a similarly comprehensive treatment of the records of what are now Mississippi Alabama Missouri and Arkansas Beers traces repositories for these documents far beyond regional confines locating some in Europe Canada and Cuba For the early migrants to the region the Acadians for example he describes source materials at the migrants points of origin He also provides information on documents that have been lost or destroyed an important service that will save researchers much time French and Spanish Records of Louisiana will prove to be of enormous value to a wide range of people professional historians local history buffs genealogists lawyers archivists and librarians **Catalogue of the Louisiana State Library, 1877** Louisiana. Law Library, New Orleans,1877 *The Big Muddy* Christopher Morris,2012-08-21 In *The Big Muddy* the first long term environmental history of the Mississippi Christopher Morris offers a brilliant tour across five centuries as he illuminates the interaction between people and the landscape from early hunter gatherer bands to present day industrial and post industrial society Morris shows that when Hernando de Soto arrived at the lower Mississippi Valley he found an incredibly vast wetland forty thousand square miles of some of the richest wettest land in North America deposited there by the big muddy river that ran through it But since then much has changed for the river and for the

surrounding valley Indeed by the 1890s the valley was rapidly drying Morris shows how centuries of increasingly intensified human meddling including deforestation swamp drainage and levee construction led to drought disease and severe flooding He outlines the damage done by the introduction of foreign species such as the Argentine nutria which escaped into the wild and are now busy eating up Louisiana's wetlands And he critiques the most monumental change in the lower Mississippi Valley the reconstruction of the river itself largely under the direction of the Army Corps of Engineers Valley residents have been paying the price for these human interventions most visibly with the disaster that followed Hurricane Katrina Morris also describes how valley residents have been struggling to reinvigorate the valley environment in recent years such as with the burgeoning catfish and crawfish industries so that they may once again live off its natural abundance Morris concludes that the problem with Katrina is the problem with the Amazon Rainforest drought and famine in Africa and fires and mudslides in California it is the end result of the ill considered bending of natural environments to human purposes

Mississippi's American Indians James F. Barnett Jr., 2012-04-04 At the beginning of the eighteenth century over twenty different American Indian tribal groups inhabited present day Mississippi Today Mississippi is home to only one tribe the Mississippi Band of Choctaw Indians In *Mississippi's American Indians* author James F Barnett Jr explores the historical forces and processes that led to this sweeping change in the diversity of the state's native peoples The book begins with a chapter on Mississippi's approximately 12 000 year prehistory from early hunter gatherer societies through the powerful mound building civilizations encountered by the first European expeditions With the coming of the Spanish French and English to the New World native societies in the Mississippi region connected with the Atlantic market economy a source for guns blankets and many other trade items Europeans offered these trade materials in exchange for Indian slaves and deerskins currencies that radically altered the relationships between tribal groups Smallpox and other diseases followed along the trading paths Colonial competition between the French and English helped to spark the Natchez rebellion the Chickasaw French wars the Choctaw civil war and a half century of client warfare between the Choctaws and Chickasaws The Treaty of Paris in 1763 forced Mississippi's pro French tribes to move west of the Mississippi River The Diaspora included the Tunicas Houmas Pascagoulas Biloxis and a portion of the Choctaw confederacy In the early nineteenth century Mississippi's remaining Choctaws and Chickasaws faced a series of treaties with the United States government that ended in destitution and removal Despite the intense pressures of European invasion the Mississippi tribes survived by adapting and contributing to their rapidly evolving world

Sickly Vapors Thomas Helling, 2024-10-23 The southern climate with its heat oppressive humidity and stagnant marshland accentuated disease and suffering for inhabitants of the Old South from its early settling through the Civil War and Reconstruction Vicious illnesses from malaria and yellow fever to dysentery cholera typhoid fever typhus and smallpox beleaguered those dwelling in the South and were blamed on the particular combination of air earth and water characteristic of those southern territories As the rhetoric of southern sectionalism blossomed in the

early nineteenth century so did a growing feeling of southern distinctiveness in health issues Sickly Vapors Disease and Doctoring in the Old South is an examination of the unique circumstances of health and disease that shaped southern living and culture before during and after the Civil War Through archival records contemporary anecdotes and scientific literature Thomas Helling MD explores the intricacies of health and healthcare for an agrarian population that by virtue of its location was inordinately vulnerable to sicknesses and epidemics With the influx of enslaved Africans a new set of healthcare issues were introduced Given the region's peculiar climate ethnic makeup and customs southern doctors adopted an attitude of distinctiveness themselves As a result southern medical progress became increasingly isolated from northern colleagues The destructiveness of the Civil War finally provided the impetus for true integration with northern practices in the rapidly changing science of medicine and surgery Yet with the regeneration of a medical elitism in postbellum years southern doctors clung to nostalgic notions of southern culture and southern medical distinctiveness In this compelling volume Helling explains how the predominant mindset of southern particularity guided regional interpretation of illness therapeutic decisions and medical education foreboding a healthcare system embedded still with institutional racism

Histoire de la Louisiane française Marcel Giraud, 2012-05-01 Il s'agit de l'enquête scientifique la plus minutieuse sur l'expérience française dans la basse vallée du Mississippi au moment où la croissance de La Nouvelle-Orléans la guerre des Natchez et la fin de la concession de la Compagnie des Indes peuvent laisser croire un développement de la colonie

Indian Notes and Monographs, 1922

A History of French Louisiana Marcel Giraud, 1993-04-01 The death of Louis XIV in 1715 and the accession of his more progressive younger brother as Regent of France might have brought some hopeful changes to Louisiana France's tiny struggling outpost on the Gulf of Mexico However the continuation of the debilitating regime of the merchant Antoine Crozat and the extreme impoverishment of the French Treasury Following the disastrous wars of Louis XIV meant that no radical changes were possible Instead these few years at the beginning of the Regency represented a period of transition for the colony when the need for a new administrative regime for Louisiana was met in France by a growing awareness of the strategic and economic potential of the Mississippi settlements All of these conditions prepared the way for the appearance on the scene of the Company of the West in 1717 In his detailed survey of this brief but crucial period of Louisiana's history Marcel Giraud assesses the new mood and conditions in France the personnel and objectives of the Council of the Navy which oversaw the colony's administration the advances in scientific opinion and their impact on Louisiana and the political fiscal and economic conditions that created a new appreciation of the colony of official circles while describing actual conditions in the colony Giraud portrays the Louisiana of 1715 as a few clusters of squalid buildings scattered along the Gulf Coast from Alabama to Natchitoches inhabited by largely dispirited settlers and soldiers who for the most part lacked the barest necessities of life Crozat's essentially self-serving regime made this a period of virtual stagnation Rivalries among the colony's administrative personnel especially between the governors and the Le Moyne family and their

supporters impeded development as did the inadequacy of the priests sent to minister to the colony the paucity of women farmers and skilled workers and the infertile soil around the sites chosen for the forts and settlements Relations with the indigenous populations were hindered by the lack of acceptable trade goods as were efforts by the French colonists to establish commercial relations with the neighboring Spanish colonies At the same time Louisiana bore the encroachments of better supplied British traders who were moving into Alabama and the Illinois country and developing regular trade with Indian tribes whom the French claimed as their own clients With his customary thoroughness and scrupulous attention to documentary details Marcel Giraud provides a vivid description of a struggling colony hovering between extinction and the spark of growth that would in years to come establish it as a viable French outpost in North America Despite the obstacles facing Louisiana during these difficult years of transition the colony survived to experience new expansion and development under the Company of the West

Le province de Quebec André Beaulieu, W.F.E. Morley, Benôit Bernier, Agathe Garon, 1971-12-15 There is no doubt that local and regional history considered by many as a kind of minor historical study has a pressing need for a systematic inventory of its resources This collection shows the durability the vividness and the astonishing productivity of a sector of history which is the stronghold of the history lover rather than the professional historian The nature and content of each book determines its selection For each book included the compilers have weighed its contribution to local history and regional history rather than the style in which it is written narrative memoir descriptive study or novel It is this criterion of selection that has permitted the retention of several general histories of a varied nature Bouchette Charlevoix Nicholas Denys La Potherie Lescarbot Hanotaux Sulte etc where local and regional life takes on a major importance for reasons of order in history method or quite simply because local life is the principal object of the study itself The editors have also retained certain works those of George W Brown Arthur Buies George M Grant Blodwen Davies etc because they are primarily descriptive and contain numerous elements in which local history blends with the manners and customs of the inhabitants of certain regions This bibliography is designed primarily for historiographers who have until now paid little attention to local regional or parochial history It will also be invaluable for librarians who suffer from the numerous difficulties involved in the classification of such works Since 1950 all works published in Canada are by virtue of the book deposit law provided to the National Library of Canada and recorded in Canadiana

Plantations by the River Marcel Boyer, Jay Edwards, 2002-03-01 French priest Joseph M Paret 1807-1872 served in the missions of Louisiana from 1847 to 1869 as pastor of the Little Red Church located upstream from New Orleans on the east bank of the Mississippi River. During his somewhat lonely tenure Paret sketched landscapes architecture and interiors capturing everyday life in prosperous St Charles Parish. In 1987 fifty three watercolors were discovered still bound in their original sketchbook among his personal effects. *Plantations by the River* contains twenty eight of these paintings created in or about the year 1859. Paret's insightful artwork provides a visual social history of the antebellum creole culture of south Louisiana and documents properties in addition to structures and furnishings of the period. The book features full size reproductions of Paret's paintings which have been restored to their original vibrancy. The value of Paret's detailed folk art lies in the accuracy of his depiction of the region he lived in. He faithfully renders parishioners attending church men pulling driftwood from the Mississippi River and the edifices and flora gracing local plantations Ormond and Good Hope among many others. The text is presented in both English and French and as a supplement to the art an appendix of excerpts from *Mon Journal d'Amerique* a collection of correspondence between Paret and his family is included. The beautiful brightly colored paintings of *Plantations by the River* are a rare discovery and provide a unique view of rural Louisiana life before the onset of the Civil War. Jazz à la Creole Caroline Vézina, 2022-11-29 Winner of the 2023 Award for Excellence for Best Historical Research in Recorded Jazz from the Association for Recorded Sound Collections. During the formative years of jazz 1890-1917 the Creoles of Color as they were then called played a significant role in the development of jazz as teachers bandleaders instrumentalists singers and composers. Indeed music penetrated all aspects of the life of this tight knit community proud of its French heritage and language. They played and/or sang classical military and dance music as well as popular songs and cantiques that incorporated African European and Caribbean elements decades before early jazz appeared. In *Jazz la Creole French Creole Music and the Birth of Jazz* the author describes the music played by the Afro Creole community since the arrival of enslaved Africans in La Louisiane then a French colony at the beginning of the eighteenth century emphasizing the many cultural exchanges that led to the development of jazz. Caroline Vézina has compiled and analyzed a broad scope of primary sources found in diverse locations from New Orleans to Quebec City Washington DC New York City and Chicago. Two previously unpublished interviews add valuable insider knowledge about the music on French plantations and the danses Créoles held in Congo Square after the Civil War. Musical and textual analyses of cantiques provide new information about the process of their appropriation by the Creole Catholics as the French counterpart of the

Negro spirituals Finally a closer look at their musical practices indicates that the Creoles sang and improvised music and or lyrics of Creole songs and that some were part of their professional repertoire As such they belong to the Black American and the Franco American folk music traditions that reflect the rich cultural heritage of Louisiana **The American Antiquarian and Oriental Journal** J. O. Kinnaman, 1881
