Schwartz,2002 This book discusses the challenges facing humanity and the Jewish teaching related to these challenges in order to Galvanize Jews to help repair the world as required by Jewish law *Divine Service?* Stuart A. Cohen,2016-05-13 Religion now plays an increasingly prominent role in the discourse on international security Within that context attention largely focuses on the impact exerted by teachings rooted in Christianity and Islam By comparison the linkages between Judaism and the resort to armed force are invariably overlooked This book offers a corrective Comprising a series of essays written over the past two decades by one of Israel s most distinguished military sociologists its point of departure is that the establishment of the state of Israel in 1948 quite apart from revolutionizing Jewish political activity also triggered a transformation in Jewish military perceptions and conduct Soldiering which for almost two millennia was almost entirely foreign to Jewish thought and practice has by virtue of universal conscription for women as well as men become a rite of passage to citizenship in the Jewish state For practicing orthodox Jews in Israel that change generates dilemmas that are intellectual as well as behavioural and has necessitated both doctrinal and institutional adaptations At the same time the responses thus evoked are forcing Israel s decision makers to reconsider the traditional role of the Israel Defence Force IDF as their country s most evocative symbol of national unity *Jewish Choices, Jewish Voices* Elliot N. Dorff,Danya Ruttenberg,Louis E Newman,2010 Is it morally acceptable to use surveillance and profiling to protect national security Should war only be used in self defense Is torture in times of war morally acceptable Contributors include scholar Noam Chomsky Lt Col Seth Milstein and political philosopher Michael Walzer *Jews & Christians in Pursuit of Social Justice* Randall M. Falk,Walter J. Harrelson,1996 In this book a rabbi and a Christian scholar examine moral and ethical issues of our day in the light of their respective traditions In turn the authors explore marriage and family values religious liberty racial tension and civil rights war and peace Islam

and economic justice and ecology Randall Falk and Walter Harrelson bring to these issues the collective wisdom of more than 2 800 years of the quest for understanding how we can respond to the challenge of the prophet Micah What does the Lord require of you but to do justice and to love kindness and to walk humbly with your God Mic 6 8 NRSV The Routledge Handbook of Religion and Security Chris Seiple, Dennis Hoover, Pauletta Otis, 2013 This Handbook offers analyses of how nine different world religions have related to issues of war and peace theologically and practically overviews of how scholars and practitioners in nine different topical areas of security studies have or have not dealt with the relationship between religion and security and five case studies of particular countries in which the religion security nexus is vividly illustrated Nigeria India Israel the former Yugoslavia and Iraq **Collateral Damage** Sahr Conway-Lanz, 2013-01-11 Collateral damage is a military term for the inadvertent casualties and destruction inflicted on civilians in the course of military operations In *Collateral Damage* Americans Noncombatant Immunity and Atrocity after World War II Sahr Conway Lanz chronicles the history of America's attempt to reconcile the ideal of sparing civilians with the reality that modern warfare results in the killing of innocent people Drawing on policymakers response to the issues raised by the atrocities of World War II and the use of the atomic bomb as well as the ongoing debate by the American public and the media as the Korean War developed Conway Lanz provides a comprehensive examination of modern American discourse on the topic of civilian casualties and provides a fascinating look at the development of what is now commonly known as collateral damage **Reader's Guide to Judaism** Michael Terry, 2013-12-02 The Reader's Guide to Judaism is a survey of English language translations of the most important primary texts in the Jewish tradition The field is assessed in some 470 essays discussing individuals Martin Buber Gluckel of Hameln literature Genesis Ladino Literature thought and beliefs Holiness Bioethics practice Dietary Laws Passover history Venice Baghdadi Jews of India and arts and material culture Synagogue Architecture Costume The emphasis is on Judaism rather than on Jewish studies more broadly **Living Traditions and Universal Conviviality** Roland Faber, Santiago Slabodsky, 2016-03-03 The World Parliament of Religions adopted the view that there will not be peace in this world without including peace among religions Yet even with the unified force of the world's religions and wisdom traditions this cannot be accomplished without justice among people In one way or another unity among religions as based on justice and the will to accept the other's religions and even irreligiosity as means of justice will not prevail without an internal and external spiritual theological philosophical and practical investigation into the very reasons for religious strife and fanaticism as well as the resources that people cultures religions and wisdom traditions might provide to disentangle them from the injustices of their host regimes and to seek the balance that leads to a measure of universal fairness among the multiplicity of religious and non religious expressions of humanity Conviviality expresses the depth and breadth of living together which itself can be understood as a translation of a central term of Whitehead's philosophy and the process tradition concrescence growing together becoming concrete as it is recently and increasingly used in different discourses to name the concrete

community of difference of individuals cultures and religions in appreciation of the mutual inclusiveness of their lives This book seeks to bring together experts from different religious and non religious traditions and spiritual persuasions to suggest ways in which the living wisdom traditions might contribute to and transform themselves into a universal conviviality among the people cultures and religions of this world for a common future It wishes to test the resources that we can contribute to this concurrent and urgent matter aware of Whitehead s call for a radical transformation of power and violence in thought and action as perhaps the ultimate theory of conflict resolution *Passing Life's Tests* Bradley Shavit Artson,2013 Among stories so terrible they rend our hearts so profound they touch the depths of our souls and so exalted they reach to heaven none is more poignant than the Bible story of Abraham s sacrifice of his son Isaac A story revered by Jews Christians and Muslims and turned over and over by great secular thinkers searching for meaning this gripping tale shocks us into complete attention then takes us in nineteen short verses on a roller coaster ride of emotion challenge and hope **Historical**
