Harris,Giovanni Ruffini,2021-10-01 As one of the greatest cities of antiquity Alexandria has always been a severe challenge to its historians all the more so because the surviving evidence material and textual is so disparate New archaeological and literary discoveries and the startling diversity of ancient Alexandria so reminiscent of some modern cities add to the interest The present volume contains the papers given at a conference at Columbia University in 2002 which attempted to lay some of the foundations for a new history of Alexandria by considering in particular its position between the traditions and life of Egypt on the one hand and on the other the immigrants who came there from Greece and elsewhere in the wake of the founder Alexander of Macedon **John Chrysostom, Theologian of the Eucharist** Kenneth J. Howell,2024-06 Despite the fact that John Chrysostom wrote more on the Eucharist than any other Greek Church Father there has never been a full treatment of his doctrine in English In this book Kenneth Howell brings together a wide array of sources from which he develops a many sided portrait of Chrysostom s eucharistic thought While the Antiochene preacher assumed the real presence and the sacrificial nature of the Eucharist he

focused more on the moral and spiritual implications of communion At the root of his theology lies the conviction that the Eucharist with its home in the liturgy is the extension of Christ's incarnate life through space and time All that Christ accomplished in his life death and resurrection is present and available to the communing Christian who stands in union with the angelic hosts in the liturgy of the church John's preaching at times reaches encomiastic proportions as he never tires of praising the benefits and power of the Eucharist and he deftly applies the sacrament to the struggle of virtue and vice as he explores both the invitation and the obstacles to communion Among the moral implications of the Eucharist John seems to distinguish well between sins arising from human weakness versus malicious dispositions freely chosen He is especially keen to exhort his hearers to lay aside the remembrance of evil *mnēsikakia* done to them in their past lives Humility and forbearance are two essential virtues in arriving at forgiveness of past injuries And lack of forgiveness is like greed in that both constitute a turn in on oneself The Eucharist demands love of neighbor and active ministry to the less fortunate of the world For John God is interested in golden souls more than golden chalices
