Images of Desire Jaqueline Lapa Sussman, 2003-12 Most of us suffer from images implying that we must look and act like movie stars to be sensuous Movie television magazines as well as our personal histories shape these images and sensuality But each of us is born with a natural sensuality that is still locked within us Eidetic Imaging removes those layers of false images and unlocks our lush natural sensuality

The Internet Unconscious Sandy Baldwin, 2016-08-25 Winner of the N Katherine Hayles Award for Criticism of Electronic Literature from the Electronic Literature Organization There is electronic literature that consists of works and the authors and communities and practices around such works This is not a book about that electronic literature It is not a book that charts histories or genres of this emerging field not a book setting out methods of reading and understanding **The Internet Unconscious** is a book on the poetics of net writing or more precisely on the subject of writing the net By writing the net Sandy Baldwin proposes three ways of analysis 1 an understanding of the net as a loosely linked collocation of inscriptions of writing practices and materials ranging from fundamental TCP IP protocols to CAPTCHA and Facebook 2 as a discursive field that codifies and

organizes these practices and materials into text and into textual practices of reading archiving etc and into an aesthetic institution of electronic literature and 3 as a project engaged by a subject a commitment of the writers body to the work of the net The Internet Unconscious describes the poetics of the net s becoming literary by employing concepts that are both technically specific and poetically charged providing a coherent and persuasive theory The incorporation and projection of sites and technical protocols produces an uncanny displacement of the writer s body onto diverse part objects and in turn to an intense and real inhabitation of the net through writing The fundamental poetic situation of net writing is the phenomenology of as if Net writing involves construal of the world through the imaginary

Irigaray Rachel Jones, 2013-05-03 The work of French Philosopher Luce Irigaray has exerted a profound influence on feminist thinking of recent decades and provides a far reaching challenge to western philosophy s entrenched patriarchal norms This book guides the reader through Irigaray s critical and creative transformation of western thought Through detailed analysis of her most important text *Speculum of the Other Woman* Rachel Jones carefully examines Irigaray s transformative readings of such icons of the western tradition as Plato Descartes Kant and Hegel She shows that these readings underpin Irigaray s claim that western philosophy has been dependent on the forgetting of both sexual difference and of our singular beginnings in birth In response Irigaray seeks to recover a positive account of sexual difference which would release woman from her traditional position as the other of the subject and allow her to speak as a subject in her own right In a sensitive reading of Irigaray s work Jones shows why this distinctively feminist project necessarily involves the transformation of the fundamental terms of western metaphysics By foregrounding Irigaray s approach to questions of otherness and alterity she concludes that for Irigaray cultivating an ethics of sexuate difference is the condition of ethical relations in general Lucidly and persuasively written this book will be an invaluable resource for students and scholars seeking to understand Irigaray s original contribution to philosophical and feminist thought

and its behaviors Ultimately this dynamic book considers what it means to possess a body *The Disabled Anthropologist* Sumi Colligan, Anna Jaysane-Darr, 2025-03-31 This book brings much needed attention to disabled anthropologists making clear that disabled and anthropologist belong together The disabled anthropologists who contribute to this volume and on which these chapters focus have refused erasure from a profession that would ignore their critiques and creativity Applying autoethnographic photographic and poetic venues the contributors assess the drawbacks of their anthropology training programs the limitations of accessibility practices in the academy and how their own embodiments and the contingencies of their research and research settings have facilitated the discovery of novel methodologies and insights Collectively this volume s contributors demonstrate a shared concern for the wellbeing of disabled ethnographers and interlocutors whether working with Colombian refugees in Ecuador or those living with chronic pain in Michigan The Disabled Anthropologist is essential reading for students and scholars working in cultural and medical anthropology **Body Language For**
