## Loving Wisdom:

**The Love of Eternal Wisdom** Saint Louis de Montfort, Aeterna Press, 2015-02-20 O divine Wisdom Lord of heaven and earth I humbly beg pardon for my audacity in attempting to speak of your perfections ignorant and sinful as I am I beg you not to consider the darkness of my mind or the uncleanness of my lips unless it be to take them away with a glance of your eyes and a breath of your mouth Aeterna Press

*Wisdom's Call* K A Ellis, 2023-09-05 Like all great building projects the world runs on the wisdom of its Architect The universe is a carefully ordered place designed for humanity's good and God's glory Too often however we attempt life based on our own understanding To become wise we must respond to Wisdom's call to dwell in Wisdom's house Scripture teaches that Christ Himself is our wisdom our way back to understanding how to build and live as the Architect intended Those who meditate on the wisdom of Christ will find themselves living in Wisdom's house once again You will be refreshed and able to bring life to those around you just like Christ who breathed life from its start K A Ellis shows us how to claim the asset of wisdom and invites us to experience Jesus Christ the Wisdom on which our world rests Ellis calls us to live as people who are wise

*The Path of Love* Ronald D. Cowen, 2015-02-05 The Buddha was a scientist Instead of using a microscope or a particle accelerator the Buddha used ESP He had several psychic powers that allowed him to perceive in detail the psychology of karma the evolution of consciousness and subatomic particles He discovered love and self love to be organizing principles that evolved early in the history of intelligent consciousness especially with regard to feelings and emotions Every person has the deepest need to love and be loved He solved the mind body problem by perceiving the physical basis of intelligent consciousness These psychic powers are acknowledged in Hindu and Buddhist scriptures but extremely few people have them This book is essentially a meditation report written by someone who has them While this sounds like an invitation to return this book to the shelf in a bookstore it also documents in depth another report by a physicist Stephen Phillips who relates in comprehensive detail the relationship between modern superstring theory and extrasensory observation of the elements of the periodic table by Annie Besant and Charles Leadbeater of the Theosophical Society This strong connection between modern physics and psychic powers of the Buddha is a real challenge to both the modern scientist and the modern Buddhist

*Loving Jesus* Mark Allan Powell, The essence of spirituality is loving God says Powell The Bible the Talmud and the Qu ran all direct their followers not merely to believe in God to trust God to obey God and to serve God but to love God But how does one do that Can we learn to love God In this biblical spirituality for today Powell s earnest plea is for Christians to revisit their faith not by blazing in religious enthusiasm but by harboring a steadier flame and deeper commitment Living at the poetic heart of faith he argues entails seeing the coordinates of religious life love understanding truth hope and especially devotion in a new way Powell espouses the old fashioned idea of piety Drawing on his wide knowledge of the Bible and Christian tradition as well as insights from his own journey he shows how simple religious practices move us beyond the old certitudes of a naove and youthful faith into the less certain but more bracing terrain of a second naovete a closer walk with Jesus

*Radical Axiology* Hugh P. McDonald, 2004 This book treats values as the basis for all of philosophy an approach distinct from critiquing theories of value and far rarer First Philosophy the effort to justify the foundations for a system of philosophy is one of the main issues that divide philosophers today McDonald s philosophy of values is a comprehensive attempt to replace philosophies of existence being experience the subject or language with a philosophy that locates value as most basic This transformation is a radical move within Western philosophy as a whole since it has never been done in such a thoroughgoing way Hugh P McDonald makes a comprehensive case against first philosophy as metaphysical by mounting a case against all metaphysical systems of philosophy *Radical Axiology A First Philosophy of Values* is a fresh start for a rebirth of philosophy While other movements debate the death of philosophy this book radically re evaluates the direction of philosophy by discovering values at the basis of all philosophy This reorientation addresses the question of what the love of wisdom can mean for us today
