Alabama Expeditions of Clarence Bloomfield Moore Clarence Bloomfield Moore, 2001-04-09 The works by Clarence B Moore reproduced in this volume were published originally in 1899 1901 1903 1904 1905 1907 and 1918 [The Tennessee, Green, and Lower Ohio Rivers Expeditions of Clarence Bloomfield Moore](#) Clarence Bloomfield Moore, 2002-07-17 This oversized reprint volume presents original materials from Moore's northernmost expeditions conducted in the early 1900s as he surveyed areas of potential archaeological interest in the southeastern United States. Some of the sites he found were later targeted for major excavations during the days of the WPA CCC. Many National Register Historic Sites are today located along the rivers he explored in this work. In many cases, however, Moore's report documents sites since destroyed by river action or by lake impoundments behind hydroelectric dams or by looters. As with all of Moore's other in [The East Florida Expeditions of Clarence Bloomfield Moore](#) Clarence Bloomfield Moore, 1999-04-27 Clarence B Moore 1852-1936 a wealthy Philadelphia socialite, paper company heir and photographer made the archaeology of the Southeast his passion beginning in the 1870s. This volume collects 17 of Moore's publications on East Florida works originally published between 1892 and 1903. These invaluable and copiously illustrated works amply document the results of Moore's numerous archaeological expeditions along Florida's eastern Coastline from the Georgia border to Lake Okeechobee between 1891 and 1895 and focus primarily on sites along the St. Johns River and its tributaries.

Mound Sites of the Ancient South Eric E. Bowne, 2013-06-01 From approximately AD 900 to 1600, ancient Mississippian culture dominated today's southeastern United States. These Native American societies, known more popularly as moundbuilders, had populations that numbered in the thousands, produced vast surpluses of food, engaged in long-distance trading, and were ruled by powerful leaders who raised large armies. Mississippian chiefdoms built fortified towns with massive earthen structures used as astrological monuments and burial grounds. The remnants of these cities, scattered throughout the Southeast from Florida north to Wisconsin and as far west as Texas, are still visible and awe-inspiring today. This heavily illustrated guide brings these settlements to life with maps, artists' reconstructions, photos of artifacts, and historic and modern photos of sites, connecting our archaeological knowledge with what is visible when visiting the sites today. Anthropologist Eric E. Bowne discusses specific structures at each location and highlights noteworthy museums, artifacts, and cultural features. He also provides an introduction to Mississippian culture, offering background on subsistence and settlement practices, political and social organization, warfare, and belief systems that will help readers better understand these complex and remarkable places. Sites include Cahokia, Moundville, Etowah, and many more. A Friends Fund Publication.
