Ludwig Wittgenstein Wilhelm Vossenkuhl, 2003 Ludwig Wittgenstein ist einer der gro ßen europ äischen Philosophen und einer der wichtigsten dieses Jahrhunderts Wenige Denker interessieren und faszinieren so wie er nicht nur Philosophen Seine Werke gehen ber den Textbestand der Philosophie hinaus zur Weltliteratur Sie beeinflu ßen Literaten K ünstler Psychologen und Sozialwissenschaftler Dabei sind seine Schriften alles andere als popul ä r geschrieben Wittgenstein ging weder in seinem Leben noch in seinem Schreiben Kompromisse ein Er war f ü r das Einfache aber nicht f ü r Vereinfachungen Die Reinheit und Klarheit seines Denkens bannt seine Leser vereinnahmt sie aber nicht Er bleibt auf Distanz und fordert

dazu auf selbst nachzudenken Nichts was aber durch die eigene Arbeit an seinen Texten rasch verstndlich Manches erscheint leicht und klar erweist sich aber als schwer Aus beiden Grnden knnen wir von seinen Bchern mehr lernen als aus den meisten Lehrbchern der Philosophie Wilhelm Vossenkuhl fhrt in das gesamte Denken Wittgensteins ein und macht sich dabei auch bisher nur teilweise verffentlichte Manuskripte zunutze Ghostwriting Richard T. Gray,2017-11-16

Ghostwriting provides the first comprehensive analysis of the fictional prose narratives of one of contemporary Germany's most recognized authors the migr writer W G Sebald Examining Sebald's well known published texts in the context of largely unknown unpublished works and informed by documents and information from Sebald's literary estate this book offers a detailed portrait of his characteristic literary techniques and how they emerged and matured out of the practices and attitudes he represented in his profession as a literary scholar The title Ghostwriting signals the convergence in Sebald's works of a set of diverse historical questions philosophical views and literary practices Many historical ghosts haunt Sebald's narratives on the level of story Moreover Sebald's narrator plays the role of a ghostwriter in the profound sense that his stories fictionally re-enact the histories of obscure but once living individuals whose lives they revitalize and whose fates are tied up with the most virulent historical conjunctures of the modern world This study thus seeks to comprehend the constitutive elements of Sebald's poetics of history his implementation of literary tools for effective historical memorializing

From Theory to Mysticism Andreas Georgallides,2018-11-27 This book focuses on the main constituent of the Bild theory of sentences in Wittgenstein's Tractatus the term object One of the things that attracts the reader of the Tractatus is that while there is use of the notion object the notion is not specified This book explains a why the term object in the Tractatus is unclear b what difficulties and problems result because of this lack of clarity in the Tractatus c why the term object might be left unclear on purpose and d how the paradoxical Tractatus continues functioning in a certain way Having in mind all of the above this book introduces the idea of a movement from a theory of language towards a kind of mysticism It will appeal to scholars interested in the philosophy of language and more specifically in Wittgenstein's Tractatus **The Philosophers :**

Wittgenstein's Vienna Allan Janik, Stephen Toulmin, 2023-11-14 This is a remarkable book about a man perhaps the most important and original philosopher of our age a society the corrupt Austro Hungarian Empire on the eve of dissolution and a city Vienna with its fin de si cle gaiety and corrosive melancholy The central figure in this study of a crumbling society that gave birth to the modern world is Wittgenstein the brilliant and gifted young thinker With others including Freud Viktor Adler and Arnold Schoenberg he forged his ideas in a classical revolt against the stuffy doomed and moralistic lives of the old regime As a portrait of Wittgenstein the book is superbly realized it is even better as a portrait of the age with dazzling and unusual parallels to our own confused society Allan Janik and Stephen Toulmin have acted on a striking premise an understanding of prewar Vienna Wittgenstein s native city will make it easier to comprehend both his work and our own problems This is an independent work containing much that is challenging new and useful New York Times Book Review

The Philosophers Ben-Ami Scharfstein, 1989 This highly readable volume offers a broad introduction to modern philosophy and philosophers Scharfstein contends that personal experience especially that of childhood affects philosophers sense of reality and hence the content of their philosophies Basing his argument on biographical studies of twenty great philosophers from Descartes to Sartre he provides the beginnings of a psychological history of philosophy

On the Trail to Wittgenstein's Hut Ivar Oxaal, 2017-09-08 One of the most influential philosophers of the twentieth century Ludwig Wittgenstein and the roots of his monumental Tractatus are explored in this imaginative work Oxaal picks up on themes developed in an earlier work of his on Jews Anti Semitism and Culture in Vienna adding to it special issues concerning Wittgenstein s experiences in Norway in 1913 14 where he worked on ideas that were completed during the war Oxaal situates the great philosopher in time place and attitude showing how his personal background came to bear on the writing of the Tractatus Wittgenstein has often been criticized for traces of solipsism and even mysticism and Oxaal also examines these issues in a volume that integrates ethnography nationality and cultural studies Oxaal sheds new light on the theme of Wittgenstein s Jewishness and develops a new appreciation of the Wittgenstein family and Wittgenstein s better known years in Vienna The author is unsparing in his observations about racism and pessimism in Berlin and Great Britain during the period in which Wittgenstein worked and studied at Cambridge The writing of the Tractatus spanned the First World War In the period immediately after its completion Wittgenstein found himself in The Hague where he was in discussions and disputes with Bertrand Russell Oxaal covers these problems sensitively and with an appreciation of ambiguities in the life of a great philosopher and the confusions caused by a post war change in fortunes personal and familial This work of an eminent social scientist and historian may not be the final statement on Wittgenstein but it most certainly must be considered in any serious assessments of an iconic figure of the twentieth century
