A Changing United Nations W. Knight, 2000-10-19 The United Nations is at a critical juncture It is faced with two distinct choices to remain a decision frozen in time or to develop a long term adaptation agenda and strategy that would allow it to be a relevant institution of global governance for the twenty first century Reform and reflexive institutional adjustments have failed to address underlying problems facing this organization After fifty five years of existence it is still considered an inefficient and ineffective world body Worse yet its relevance is being questioned This study offers a critique of existing UN change processes and then shifts focus to considerations of institutional learning strategies that would allow the UN to maintain relevance amidst the evolution of global governance arrangements

The United Nations in the Twenty-First Century Marcus Franda, 2006-06-02. This book analyzes the significance of the many forces and events affecting the UN's efforts at reform. Twentieth Century International Relations: Whatever happened to the Pacific century? Michael Cox, 2006. This book offers an important chronological perspective on the evolution of multilateralism within Europe and beyond. It provides a critical reconstruction of the history of the idea and praxis of peaceful global governance, a comparative analysis of regional multilateral organisations, and a discussion about concrete trends and perspectives of a new multilateralism against the challenging context of the current multipolar power politics. Focusing on the changing European interplay with multilateralism from Eurocentric cradle of civilian cooperation among sovereign imperial states to political dwarf after the two world wars and decolonisation, and to potential co-leader of a multilayered and multi-actor cooperation within the current multipolar order, it addresses a theoretical gap by fuelling the long recognised idealism v realism debate over international cooperation and institutionalisation with both historical and new empirical insights. This book will be of key interest to scholars and students of European studies, global governance, multilateralism, international organisations, and more broadly international relations.
