Triumph and Trauma of Images Jacques Picard, 2025-03-31 What humankind consider to be truths does not enter our world naked Rather it was and is expressed in symbols images archetypes and role models As an ingredient of emotions of religious cultic or collective orders art and artists in particular played an important role in the transformation of our world To be tainted by the stigma of cult and idolatry or to enable life and works of art through the incarnation of ideas and visions such contradictions continue to this day in the dispute over the power of images Their triumph as a mark of sovereignty goes hand in hand with the trauma they trigger in both individuals and communities They evoke the horror and the sacred and banish both at the same time They are attributed a cultic aura and likewise suspected of being a false fetish in a world of globally traded commodities From antiquity to modernity these facets and tensions are critically explored in Judaism Christianity and Islam as well as in philosophical discourses and secular ways of life Our cultural history refers the viewer to the democratic or authoritarian present Images of hope and resurrection the fall into hell of war and the abyss of the Holocaust are significant for human memory in art and media today and they require our reflection Look inside Images of the authentic and betrayal through images art image controversy and cult prohibition in cultures since antiquity Weighing souls the Last Judgement and the Resurrection Jewish Christian profane and critical arguments Hopes and the plunge into hell in modernity Crises catastrophes and the Holocaust in the commemorative cultures of modernity , **British Museum**

Schmitz, 2015-08-31 One of the big myths and metaphors of the postmodern age is the Cyborg which includes a large amount of different meanings The Cyborg often expresses the transformation and extension of the body and exemplifies a postmodern range of technical determinism and human comprehension In this perspective the Cyborg is no longer a concept of science fiction technical apocalypse or cyberpunk but more a construct that highlights the relation of modern media technologies within our every day culture as well as the body and mind of spectators and users of these media systems We are connected with a variety of poly sensual media systems and we use its potential for communication multiplying knowledge spatial and temporal orientation or aesthetic experience Therefore we are a kind of Cyborgs connected to media by complex multimodal interfaces This volume monitors and discusses the relation of postmodern humans and media technologies and therefore refers to Cyborgs interfaces and apparatuses within the perspective of an autonomous image science *PONS Lektüre in Bildern Spanisch - La rana de la suerte* Sonsoles Gómez Cabornero, Iván

Journey Through the Old Testament, 2015-06-15

Whoever starts on a Journey should be prepared for surprises The Old Testament offers a wealth of wonderful stories The stories talk about people who are on a quest for God with all their heart and soul About skeptics unhappy people and enthusiasts About people just like you and me About life as it is With all its worries anxieties and unfairness But also about God who makes His face shine upon us Who does not abandon us We should not deprive our children of this hope If we read these stories with them we can awaken their longing for God We may perhaps also arouse their curiosity And touch their heart and move their mind with pictures from two thousand years of art Thus igniting a life long journey in search of God With easy to understand picture explanations for children and textual commentaries for adults A read aloud book for children ages 5 and up a book to be read on one's own for children ages 8 and up and a book to lose yourself in for adults of all ages
