Leo Tolstoy and the Alibi of Narrative Justin Weir,2011-01-25 One hundred years after his death Tolstoy still inspires controversy with his notoriously complex narrative strategies This original book explores how and why Tolstoy has mystified interpreters and offers a new look at his most famous works of fiction

Tolstoi and the Evolution of His Artistic World ,2021-08-09 Joe Andrew and Robert Reid assemble thirteen analytical discussions of Tolstoi s key works written by leading scholars from around the world The works studied cover almost the entire length of Tolstoi s creative career from some of his earliest stories of the 1850s The Sevastopol Stories to those of his last period including posthumous publications The Kreutzer Sonata and Father Sergius Particular attention is paid to his two masterpieces War and Peace and Anna Karenina All the studies are based on the most recent developments in cultural theory The reader of this work will gain new and unique insights into this unparalleled genius of world literature especially into the methods used to create the works that retain immense importance for us today Contributors Joe Andrew Eric de Haard Rose France Helena Goscilo Jane Gary Harris Katalin Kro Irina Makoveeva Deborah Martinsen Robin Feuer Miller Robin Milner Gulland Audun M rch Donna Tussing Orwin Olga Sobolev Diane Oenning Thompson

Narrative and Anti-narrative Structures in Lev Tolstoj's Early Works Eric Alexander Haard,1989 *Narrative, Space and Gender in Russian Fiction: 1846-1903* Joe Andrew,2007-01-01 The present volume has as its primary aim readings from a feminist perspective of a number of works from Russian literature published over the period in which the woman question rose to the fore and reached its peak All the works considered here were produced in or hark back to a fairly narrowly defined period of not quite 20 years 1846 1864 in which issues of gender

of male and female roles were discussed much more keenly than in perhaps any other period in Russian literature. The overall project is summed up by the three key words of this book's title: narrative space and gender and especially the interconnections between them. That is what do the way these stories were told tell us about gender identities in mid nineteenth century Russia. Which spaces were central to these fictional worlds? Which spaces suggested which gender identities? The discussions therefore focus on issues of narrative and space and how they acted as technologies of gender. This volume will be of interest to all interested in nineteenth century Russian literature as well as students of gender and of the semiotics of narrative space.

Childhood, Boyhood, and Youth Leo Tolstoy, 1991-10-15. Leo Tolstoy's earliest published work, the trilogy *Childhood, Boyhood, and Youth*, was written when he was in his twenties, offering a tantalizing first glimpse of the literary talents that would come to fruition in his later masterpieces. Chronicling the experiences of a wealthy landowner's son as he grows up and becomes aware of the world and his place in it, these three short novels were only loosely inspired by Tolstoy's own memories. In old age he condemned the work as an awkward mixture of fact and fiction, but the imaginative powers that enabled him to capture so vividly the universal emotions and sensations of childhood have enthralled generations of readers. We are blessed to have alongside the mature writer of *Anna Karenina* and *War and Peace* and the revolutionary mystic of the later years, the young Tolstoy who wrote these elegiac tales. In their sensitivity to nature and their evocations of fugitive feelings, they reveal his genius in all its untroubled early splendor.
