English Romantic Poetry Albert S. Gerard,2023-11-15 *English Romantic Poetry Ethos Structure and Symbol* in Coleridge Wordsworth Shelley and Keats delves into the profound complexities and intellectual struggles of four seminal English Romantic poets The book emphasizes the importance of reading their poetry in context recognizing that great poetry transcends abstract statements and embodies deeper truths about nature knowledge and art The author argues that understanding these poets requires more than just analyzing their works for abstract generalizations rather it calls for a close dissection of the poetry itself which reflects the poets desire to express a unified intuition of the world By focusing on structure symbol and the interplay of elements in their poems the study examines how the organization of a poem reveals the poet s worldview at the time of writing The analysis is organized into two main groups of poems poems of perplexity and poems of reconciliation The first group includes works that reflect the poets existential struggles and disillusionment as they grapple with the tension between youthful idealism and harsh reality These poems written in the early years of the poets lives embody a sense of personal and philosophical turmoil In contrast the second group comprises poems of reconciliation which reflect how these poets eventually synthesized their inner conflicts into a positive and reconciled vision The book aims to show how despite their apparent rebellion against classical traditions these poets contribute to a broader Western philosophical tradition seeking clarity acceptance and creative resolution Through this deep and thoughtful analysis the book offers new insights into the essence of Romantic poetry and its enduring relevance This title is part of UC Press s *Voices Revived* program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1968 **Style** Bennison Gray,2020-05-18 No detailed description available for Style **The Reader's Art** Mark Goldman,2015-06-03 No

detailed description available for The Reader's Art *Transfiguration* Frank Burch Brown, 2018-06-15 Brown proposes a theory of poetic metaphor that attempts to account for literature's complex role in the discovery and creation of significant patterns within both language and life. He shows that while poetic and conceptual modes of discovery are different, they are nevertheless mutually interdependent. In particular, Brown offers a new view of the way in which theological and metaphysical concepts grow out of and are transfigured by metaphoric expression. This view is expressed in a detailed and original analysis of the structure and dynamics of T. S. Eliot's *Four Quartets* that lies at the heart of the study. Originally published in 1983, A UNC Press Enduring Edition. UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original and are presented in affordable paperback formats, bringing readers both historical and cultural value.

Professing Literature Gerald Graff, 2024-05-31 Widely considered the standard history of the profession of literary studies, *Professing Literature* unearths the long forgotten ideas and debates that created the literature department as we know it today. In a readable and often amusing narrative, Gerald Graff shows that the heated conflicts of our recent culture wars echo and often recycle controversies over how literature should be taught that began more than a century ago. Updated with a new preface by the author that addresses many of the provocative arguments raised by its initial publication, *Professing Literature* remains an essential history of literary pedagogy and a critical classic. Graff's history is a pathbreaking investigation showing how our institutions shape literary thought and proposing how they might be changed. *The Norton Anthology of Theory and Criticism* **The Critical Twilight (Routledge Revivals)** John Fekete, 2014-08-07 First published in 1977, this book was the first to map extensively the ideological typography of the Anglo-American tradition of literary theory. It interrogates comprehensively and in detail the assumptions and categorical development within critical ideas from I. A. Richards and T. S. Eliot through John Crowe Ransom and the New Criticism to Northrop Frye and Marshall McLuhan. This analysis reveals the Anglo-American tradition of literary cultural theory is most properly intelligible within the overall field of social consciousness as an ideology of progressive cultural rationalization. Against a background of ideological development since nineteenth-century Romanticism, John Fekete illuminates the boundaries of literary ideology in relation to the shapes and changes of modern culture and society. **Words and The Word** Stephen Prickett, 1986 First published in 1986, Stephen Prickett's *Words and the Word* has had a major impact among scholars of literature and literary theory as well as among theologians and biblical critics. In this highly acclaimed book, Prickett pursues the question of the relationship between religion and poetics and, in particular, the nature of religious language, investigating the hermeneutic, epistemological, and linguistic reverberations of eighteenth, nineteenth, and twentieth-century theories of biblical interpretation.
