Northrop Frye Vision New World:

The Reception of Northrop Frye ,2021-08-31 The widespread opinion is that Northrop Frye's influence reached its zenith in the 1960s and 1970s after which point he became obsolete his work buried in obscurity This almost universal opinion is summed up in Terry Eagleton's 1983 rhetorical question Who now reads Frye In *The Reception of Northrop Frye* Robert D Denham catalogues what has been written about Frye books articles translations dissertations and theses and reviews in order to demonstrate that the attention Frye's work has received from the beginning has progressed at a geomantic rate Denham also explores what we can discover once we have a fairly complete record of Frye's reception in front of us such as Hayden White's theory of emplotments applied to historical writing and Byron Almén's theory of musical narrative The sheer quantity of what has been written about Frye reveals that the only valid response to Eagleton's rhetorical question is a very large and growing number the growth being not incremental but exponential Marshall McLuhan and Northrop Frye B.W. Powe,2014-01-01 Marshall McLuhan and Northrop Frye are two of Canada's central cultural figures colleagues and rivals whose careers unfolded in curious harmony even as their intellectual engagement was antagonistic Poet novelist essayist and philosopher B W Powe who studied with both of these formidable and influential intellectuals presents an exploration of their lives and work in *Marshall McLuhan and Northrop Frye Apocalypse and Alchemy* Powe considers the existence of a unique visionary tradition of Canadian humanism and argues that McLuhan and Frye represent fraught but complementary approaches to the study of literature and to the broader engagement with culture Examining their eloquent but often acid responses to each other Powe exposes the scholarly controversies and personal conflicts that erupted between them and notably the great commonalities in their writing and biographies Using interviews letters notebooks and their published texts Powe offers a new alchemy of their thought in which he combines the philosophical hallmarks of McLuhan's *The medium is the message* and Frye's *the great code* **Northrop Frye** International Symposium on Northrop Frye Studies,2003-01-01 Drawn from papers given at an international symposium on Northrop Frye in Hohhot Inner Mongolia this volume offers insights into Frye's theoretical approaches and the new context provided by cross cultural questions Northrop Frye David Cook,1985 **Northrop Frye's Canadian Literary Criticism and Its Influence** Branko Gorjup,2009-01-01 Northrop Frye's Canadian Literary Criticism examines the impact of Frye's criticism on Canadian literary scholarship as well as the response of Frye's peers to his articulation of a Canadian criticism **Northrop Frye** Jonathan Hart,2005-09-29 An indispensable introduction to one of the great critics of the twentieth century whose work on ideology aesthetics and social criticism has ensured his place at the centre of cultural studies and contemporary theoretical debates **Revolving around the Bible: A Study of Northrop Frye** János Kenyeres,2003 Northrop Frye David Cook,David Bruce Cook,1985-01-01 **The Northrop Frye Quote Book** Northrop Frye,2014-02-24 Here is a specialized dictionary of quotations based on the thoughts and writings of a single person It is evidence that there is a Canadian writer of

whom it may be said that we as his readers can grow up inside his work without ever being aware of a circumference

Northrop Frye Ian Balfour, 1988 **Twentieth-Century Humanist Critics** William Calin, 2007-01-01 The Twentieth Century Humanist Critics revisits the work and place of eight scholars roughly contemporary with Anglo American New Criticism Leo Spitzer Ernst Robert Curtius Erich Auerbach Albert B Guin Jean Rousset C S Lewis F O Matthiessen and Northrop Frye William Calin first considers the achievements of each critic examining his methodology and basic presuppositions as well as the critiques marshalled against him Calin explores their relation to history to canon formation and to our current theoretical debates He then goes on to show how all eight form a current in the history of criticism related to both humanism and modernism Underscoring the international cosmopolitan aspects of literary scholarship in the twentieth century The Twentieth Century Humanist Critics brings together humanist critical traditions from Europe the United Kingdom and North America and reveals the surprising extent to which in various languages and academic systems critics were posing similar questions and offering a gamut of similar responses *Northrop Frye and American Fiction* Claude Le Fustec, 2015-01-15 Northrop Frye and American Fiction challenges recent interpretations of American fiction as a secular pursuit that long ago abandoned religious faith and the idea of transcendent experiences Inspired by recent philosophical thinking on post secularism and by Northrop Frye's theorizing on the connections between the Bible and the development of Western literature Claude Le Fustec presents insightful readings of the presence of transcendence and biblical imagination in canonical novels by American writers ranging from Nathaniel Hawthorne to Toni Morrison Examining these novels through the lens of Frye's ambitious account of literature's transcendent or kerygmatic power Le Fustec argues that American fiction has always contained the seeds of a rejection of radical skepticism and a return to spiritual experience Beyond an insightful analysis of Frye's ideas Northrop Frye and American Fiction is powerful testimony of their continued interpretive potential **Northrop Frye's Writings on Shakespeare and the Renaissance** Northrop Frye, 2018-08-08 This collection of Northrop Frye's writings on Shakespeare and the Renaissance spans forty years of his career as a university teacher public critic and major theorist of literature and its cultural functions Extensive annotations and an in depth critical introduction demonstrate Frye's wide ranging knowledge of Renaissance culture the pivotal place of the Renaissance in his oeuvre his impact on Renaissance criticism and on the Stratford Festival and his continuing importance as a literary theorist This volume brings together Frye's extensive writings on Shakespeare and other Renaissance writers excluding Milton who is featured in other volumes and includes major articles introductions public lectures and four previously published books on Shakespeare Frye's insightful analyses offer not just a formidable knowledge of Renaissance culture but also a transformative experience moving the reader imaginatively towards an experience of created reality

Criticism and Literary Theory 1890 to the Present Chris Baldick, 2014-06-11 Presents a coherent and accessible historical account of the major phases of British and American Twentieth century criticism from decadent aestheticism to

feminist deconstructionist and post colonial theories Special attention is given to new perspectives on Shakespearean criticism theories of the novel and models of the literary canon The book will help to define and account for the major developments in literary criticism during this century exploring the full diversity of critical work from major critics such as T S Eliot and F R Leavis to minor but fascinating figures and critical schools Unlike most guides to modern literary theory its focus is firmly on developments within the English speaking world

The Art of Living for A Technological Age Ashley John Moyse, Scott A. Kirkland, 2021-02-23 The Art of Living for A Technological Age sketches the crisis of our late modern age where persons are enamored by the promises of progress and disciplined to form by the power of technology the ontology of our age Yet it also offers a response attending to those performative activities educative and transformative social practices that might allow us to live humanly and bear witness to human being becoming for a technological age As such it is an exemplary example of the goals and outcomes of the Dispatches series the individual volumes of which draw on diverse theological resources in order to offer urgent responses to contemporary crises Authors in the series introduce succinct and provocative arguments intended to provoke dialogue and exchange of ideas while setting in relief the implications of theology for political and moral life

Canadian Intellectuals, the Tory Tradition, and the Challenge of Modernity, 1939-1970 Philip Massolin, 2015-05-27 In this well researched book Philip Massolin takes a fascinating look at the forces of modernization that swept through English Canada beginning at the turn of the twentieth century Victorian values agrarian religious and the adherence to a rigid set of philosophical and moral codes were being replaced with those intrinsic to the modern age industrial secular scientific and anti intellectual This work analyses the development of a modern consciousness through the eyes of the most fervent critics of modernity adherents to the moral and value systems associated with Canada's tory tradition The work and thought of social and moral critics Harold Innis Donald Creighton Vincent Massey Hilda Neatby George P Grant W L Morton Northrop Frye and Marshall McLuhan are considered for their views of modernization and for their strong opinions on the nature and implications of the modern age These scholars shared concerns over the dire effects of modernity and the need to attune Canadians to the realities of the modern age Whereas most Canadians were oblivious to the effects of modernization these critics perceived something ominous far from being a sign of true progress modernization was a blight on cultural development In spite of the efforts of these critics Canada emerged as a fully modern nation by the 1970s Because of the triumph of modernity the toryism that the critics advocated ceased to be a defining feature of the nation's life Modernization in short contributed to the passing of an intellectual tradition centuries in the making and rapidly led to the ideological underpinnings of today's modern Canada

Fables Of Abundance Jackson Lears, 1995-11-03 Fables of Abundance ranges from the traveling peddlers of early modern Europe to the twentieth century American corporation exploring the ways that advertising collaborated with other cultural institutions to produce the dominant aspirations and anxieties in the modern United States

Indigenous Perspectives of North America Judit Nagy, Enikő Sepsi, Miklós

Vassányi,2014-08-20 The present volume brings to North American Native Studies with its rich tradition and accumulated expertise in the Central European region the new complexities and challenges of contemporary Native reality The umbrella theme Indigenous perspectives brings together researchers from a great variety of disciplines focusing on issues such as democracy and human rights international law multiculturalism peace and security economic and scientific development sustainability literature and arts and culture as well as religion The thirty five topical and thought provoking articles written in English French and Spanish offer a solid platform for further critical investigations and a useful tool for classroom discussions in a wide variety of academic fields **Canadian Review of Comparative Literature** ,1992 **From Shakespeare to Obama** J. Hart,2013-12-17 From Shakespeare to Obama discusses language slavery and place from the Portuguese enslavement of African people through slavery in Shakespeare s plays to President Obama s 2012 speech on modern slavery Balancing close reading with context this expansive book offers new insight into questions of otherness rhetoric and stereotyping
