Statement on the use of child-friendly fixed-dose combinations for the treatment of TB in children

In December 2010, the World Health Organization (WHO) and the United Alliance for TB Drug Development (UATDD), with support from UNICEF, launched child-friendly fixed dose combinations (FDCs) for the treatment of drug-susceptible tuberculosis (TB) in children weighing less than 35 kg.

The recommended regimen set is as follows:

- For the intensive phase of treatment, 1 FDC (isoniazid 75 mg + rifampicin 50 mg + pyrazinamide 150 mg).
- For the continuation phase of treatment, 2 FDC (isoniazid 75 mg + rifampicin 50 mg).

The child-friendly FDCs were developed in line with the intent aiming to optimize the appropriate therapeutic levels, which was published in the WHO Guidelines for updated tuberculosis programmes on the management of tuberculosis in children, second edition (2010) (see table below).

Medicine	Range (mg/kg)
Isoniazid	10-15
Rifampicin	10-20
Pyrazinamide	15-40
Co-trimoxazole	10-20

approach to body weight of 35 kg, adult dosages can be used.

FDCs are water-dispersible tablets, which have a pleasant taste. They offer the simplicity and improve treatment for children around the world and are also for enhanced adherence and completion of treatment, as well as to prevent development of drug resistance.

Use of the new FDCs does not alter the basic principles, regimen or duration of TB treatment.

Further information and details can be found in the [WHO website](http://www.who.int/tb/publications) (see <http://www.who.int/tb/publications>).

Buildings, Faith, and Worship Nigel Yates,2000 This is the first major study for over forty years of the liturgical arrangement of Anglican churches in the period between the Reformation and the Oxford Movement The study is based both on surviving buildings and on a wide range of archival sources such as seating plans which are used to document internal changes and to suggest reasons behind them In the course of the book Nigel Yates challenges many widely held assumptions about the liturgical outlook of the Pre Tractarian period and about the impact of

ecclesiology on the Church of England In particular he emphasizes the existence hitherto disregarded of a Church of England movement for liturgical renewal between 1780 and 1840 which to a degree anticipated some of the ideas previously attributed solely to the ecclesiologists The discussion is firmly set within the context of European Protestantism and comparisons are drawn with the liturgical practices both of Calvinists and Lutherans

Altars Restored Kenneth Fincham, Nicholas Tyacke, 2007-11-29 Altars are powerful symbols fraught with meaning but during the early modern period they became a religious battleground Attacked by reformers in the mid sixteenth century because of their allegedly idolatrous associations with the Catholic sacrifice of the mass a hundred years later they served to divide Protestants due to their re introduction by Archbishop Laud and his associates as part of a counter reforming programme Moreover having subsequently been removed by the victorious puritans they gradually came back after the restoration of the monarchy in 1660 This book explores these developments over a 150 year period and recaptures the experience of the ordinary parishioner in this crucial period of religious change Far from being the passive recipients of changes imposed from above the laity are revealed as actively engaged from the early days of the Reformation as zealous iconoclasts or their Catholic opponents a division later translated into competing protestant views Altars Restored integrates the worlds of theological debate church politics and government and parish practice and belief which are often studied in isolation from one another It draws from hitherto largely untapped sources notably the surviving artefactual evidence comprising communion tables and rails fonts images in stained glass paintings and plates and examines the riches of local parish records especially churchwardens accounts The result is a richly textured study of religious change at both local and national level
