Odyssey In Prime Time:

Radio Utopia Matthew C. Ehrlich, 2011-04-15 As World War II drew to a close and radio news was popularized through overseas broadcasting journalists and dramatists began to build upon the unprecedented success of war reporting on the radio by creating audio documentaries Focusing particularly on the work of radio luminaries such as Edward R Murrow Fred Friendly Norman Corwin and Erik Barnouw *Radio Utopia Postwar Audio Documentary in the Public Interest* traces this crucial phase in American radio history significant not only for its timing immediately before television but also because it bridges the gap between the end of the World Wars and the beginning of the Cold War Matthew C Ehrlich closely examines the production of audio documentaries disseminated by major American commercial broadcast networks CBS NBC and ABC from 1945 to 1951 Audio documentary programs educated Americans about juvenile delinquency slums race relations venereal disease atomic energy arms control and other issues of public interest but they typically stopped short of calling for radical change Drawing on rare recordings and scripts Ehrlich traces a crucial phase in the evolution of news documentary as docudramas featuring actors were supplanted by reality based programs that took advantage of new recording technology Paralleling that shift from drama to realism was a shift in liberal thought from dreams of world peace to uneasy adjustments to a cold war mentality Influenced by corporate competition and government regulations radio programming reflected shifts in a range of political thought that included pacifism liberalism and McCarthyism In showing how programming highlighted contradictions within journalism and documentary *Radio Utopia* reveals radio's response to the political economic and cultural upheaval of the post war era

upsetting advertisers leading to television news dramas and sitcoms that uphold conservative values at the expense of controversial opinions The result is a system that stifles debate isolates viewers and favors right wing agendas To make the system serve a true democracy Green proposes ending the private monopoly of public airspace and making the television market a true free market

Ambush Rose Mary Sheldon,2012-10-24 A historian of military intelligence presents a revelatory account of ancient Greek battle tactics including the use of espionage and irregular warfare There are two images of warfare that dominate Greek history The better known is that of Achilles the Homeric hero skilled in face to face combat and outraged by deception on the battlefield The alternative model also taken from Homeric epic is Odysseus the man of twists and turns who saw no shame in winning by stealth surprise or deceit It is common for popular writers to assume that the hoplite phalanx was the only mode of warfare used by the Greeks The fact is however that the use of spies intelligence gathering ambush and surprise attacks at dawn or at night were also a part of Greek warfare While such tactics were not the supreme method of defeating an enemy they were routinely employed when the opportunity presented itself
