**Corridors of Migration** Rodolfo F. Acuña, 2008-08-21 A Choice Outstanding Academic Title In the San Joaquin Valley Cotton Strike of 1933 frenzied cotton farmers murdered three strikers intentionally starved at least nine infants wounded dozens of people and arrested more While the story of this incident has been recounted from the perspective of both the farmers and more recently the Mexican workers this is the first book to trace the origins of the Mexican workers activism through their common experience of migrating to the United States Rodolfo F. Acuña documents the history of Mexican workers and their families from seventeenth century Chihuahua to twentieth century California following their patterns of migration and describing the establishment of communities in mining and agricultural regions He shows the combined influences of racism transborder dynamics and events such as the industrialization of the Southwest the Mexican Revolution and World War I in shaping the collective experience of these people as they helped to form the economic political and social landscapes of the American Southwest in their interactions with agribusiness and absentee copper barons Acuña follows the steps of one of the murdered strikers Pedro Subia reconstructing the times and places in which his wave of migrants lived By balancing the social and geographic trends in the Mexican population with the story of individual protest participants Acuña shows how the strikes were in fact driven by choices beyond the Mexican workers control Their struggle to form communities graphically retells how these workers were continuously uprooted and their organizations destroyed by capital Corridors of Migration thus documents twentieth century Mexican American labor activism from its earliest roots through the mines of Arizona and the Great San Joaquin Valley cotton strike From a founding scholar of Chicano studies and the author of fifteen books comes the culmination of three decades of dedicated research into the causes and effects of migration and labor activism The narrative documents how Mexican workers formed communities against all odds      *Prophets of Love* Matthew R. Anderson, 2023-09-15 Leonard Cohen and the Apostle Paul might be imagined as brothers with wildly different characters but a strong family resemblance Paul the elder sibling was awkward abrasive and zealous Leonard the successful younger brother was a smooth talking romantic prone to addiction and depression Paul died a martyr not knowing his words would have any effect on the world Leonard could see his canonization within his lifetime Yet each became a prophet in his own time and a poet for the ages In *Prophets of Love* Matthew Anderson traces surprising connections between two Jewish thinkers separated by millennia He explores Leonard's and Paul's mysticism their Judaism their fascination with Jesus their countercultural perspectives on sex their ideas about love and how they each embodied being men Anderson considers their ambiguous relationships with women on whom they depended and from whom they often profited as well as how their

legacies continue to evolve and be re interpreted This book emphasizes that Paul was first and foremost a Jew and never rejected his Judaism At the same time it sheds new light on the biblical worldviews and language underlying and inspiring every line of Cohen s poetry Prophets of Love alters our views of both Leonard Cohen and the Apostle Paul re introducing us to two poetic prophets of divine and human love Gymnasium ,1969 Irredentism Thomas Ambrosio,2001-09-30 The idea of national unification has long been a powerful mobilizing force for nationalist thinkers and ethnic entrepreneurs since the rise of nationalist ideology in the late 1700s This phenomenon came to be known as irredentism During the Cold War irredentist projects were largely subordinated to the ideological struggle between East and West After the Cold War however the international system has witnessed a proliferation of such conflicts throughout Europe and Asia Ambrosio integrates both domestic and international factors to explain both the initiation and settlement of irredentist conflicts His central argument is that irredentist states confront two potentially contradictory forces domestic nationalism and pressure from the international community Irredentist leaders are forced to reconcile their nationalist policies with pressures from the international plane At the same time irredentist leaders exploit perceived windows of opportunity in pursuit of their nationalist goals Ambrosio examines in depth the past present and possible irredentist projects of Serbia Croatia Hungary and Armenia within a theoretical and comparative framework His conclusions yield significant theoretical findings and important policy implications for both scholars of ethnic conflicts nationalism and international relations and policy makers **United States Political Science Documents** ,1988 Publishers' Circular and General Record of British and Foreign Literature, and Booksellers' Record ,1871 *The Publishers' Circular and General Record of British and Foreign Literature* ,1871 **Publishers' circular and booksellers' record** ,1871 *Greater China* Mark Lewis,Chris Rowley,2014-03-18 A critical analysis of the reasons underlying the emergence of the Asia Pacific as an economic superpower and the need for judicious evaluation of the likely shape and character of the region s future development The aim of this collection is to illuminate key areas of debate concerning the People s Republic of China Hong Kong and Taiwan here collectively referred to as Greater China in the belief that the destiny of the Pacific Rim as a whole will be decisively influenced by economic and political developments in this particular region **Il fallait se défendre** Maxime Aurélien,Ted Rutland,2023-05-10T00:00:00-04:00 Il fallait se d fendre raconte l histoire des B langer le premier gang ha tien Montr al T moignage de Maxime Aur lien premier chef de gang ha tien sur les ann es 1980 Montr al et l invention des gangs criminalis s crit avec l universitaire et activiste Ted Rutland Il fallait se d fendre remet en question les compr hensions et les r ponses du grand public l gard des jeunes racis s Plut t qu une bande de d linquants violents le gang tait une r ponse la violence des autres le racisme anti Noir normalis dans la ville et la brutalit polici re The Publishers' Circular ,1871 **Agricultural News** ,1907 *Joyce and Ibsen* Bjørn J. Tysdahl,1968 Chicano-Chicana Americana Anthony Macías,2023-02-07 Chicano Chicana Americana is a cultural history of Mexican Americans in film television and theater Through biographical sketches of performers such as Anthony Quinn Katy Jurado

Robert Beltran and Lupe Ontiveros this work asserts Mexican Americans proper place in the national narratives of our collective imaginary Conveying a multicentered polycultural America this book shows us intriguing performers in bit parts who steal the scene and redefine what it means to be American Each biographical chapter analyzes an underappreciated actor revealing their artistic contributions to U S common culture Their long shot careers tell a tale of players taking action with agency and fighting for screen time and equal opportunity despite disadvantages and differential treatment in Hollywood These dynamic and complex individuals altered cinematic representations and audience expectations by surpassing stereotypes The book explores American national character by showing how ethnic Mexicans attained social and cultural status through fair open competition without a radical realignment of political or economic structures Their creative achievements demanded dignity and earned respect Anthony Mac as argues that these performances demonstrated a pop culture pluralism that subtly changed mainstream America transforming it from the mythological past of the Wild West to the speculative future of science fiction

Developing Ambient Intelligence Carsten Rudolph, 2008-04-12 At the time of the introduction of the Ambient Intelligence AmI concept many scenarios were considered to be visionary or even science fiction Enabled by current technology many aspects of these scenarios are slowly but inexorably becoming true However we are still facing important challenges that need further investments in research and industrialization Current software engineering techniques and tools are not prepared to deal with the development of applications for what we could call AmI ecosystems lacking a fixed architecture controlled limits and even owners The comfortable boundaries of static architectures and well defined limits and owners are not existent in these AmI ecosystems In its second year AmI d again shows the heterogeneity of research challenges related to Ambient Intelligence Many disciplines are involved and have to co ordinate their efforts in resolving the strongly related research issues

*America's Addiction to Automobiles* Chad Frederick, 2017-09-21 A provocative look at our nation s dependency on the automobile and how its potential impact on urban design will either make or break our health economy and quality of life In this thought provoking work author and urban planning expert Chad Frederick scrutinizes the use of automobiles in cities investigating its role in exacerbating urban inequalities and thwarting sustainability of modern society Through a comprehensive thoughtful discussion Frederick illustrates how the automobile is fundamentally at odds with the very nature of cities He shows how cars impose huge burdens on our health equity environment local and national economy and quality of life Most of all he shows how automobile dependency has put our entire society at risk The book delves into the monumental role of automobiles in the development of cities after the Great Depression impacting the American identity and affecting the way we produce and manage urban spaces Frederick provides compelling evidence that cities with more diverse modes of transportation are greener healthier more prosperous and even more enjoyable places to live than automobile dependent cities He identifies one institution responsible for our inability to improve our cities the social

sciences and examines the root cause of our inability to make progress toward more multi modal cities In conclusion the author offers a radical solution for moving beyond the underlying logic that forces us to create automobile dependent cities
