Oeuvres complètes de Beaumarchais précédées d'une notice sur sa vie et ses ouvrages par m. Saint-Marc Girardin Pierre Augustin : Caron Beaumarchais (de),1837 **Human Nature, Cultural Diversity, and the French Enlightenment** Henry Vyverberg,1989-08-17 In this work Henry Vyverberg traces the evolution and consequences of a crucial idea in French Enlightenment thought the idea of human nature Human nature was commonly seen as a broadly universal unchanging entity though perhaps modifiable by geographical social and historical factors Enlightenment empiricism suggested a degree of cultural diversity that has often been underestimated in studies of the age Evidence here is drawn from Diderot s celebrated Encyclopedia and from a vast range of writing by such Enlightenment notables as Voltaire Rousseau and d Holbach Vyverberg explains not only the age s undoubted fascination with uniformity in human nature but also its acknowledgment of significant limitations on that uniformity He shows that although the Enlightenment s historical sense was often blinkered by its notions of a uniform human nature there were also cracks in this concept that developed during the Enlightenment itself **Histoire Du Théâtre Français** Charles Guillaume Etienne,Alphonse Martainville,1802

Ethics in Congress Dennis F. Thompson,2000-07-26 More members of Congress have been investigated and sanctioned

for ethical misconduct in the past decade and a half than in the entire previous history of the institution But individual members are probably less corrupt than they once were Stricter ethics codes and closer scrutiny by the press and public have imposed standards no previous representatives have had to face Dennis Thompson shows how the institution itself is posing new ethical challenges how the complexity of the environment in which members work creates new occasions for corruption and invites more calls for accountability Instead of the individual corruption that has long been the center of attention Thompson focuses on institutional corruption which refers to conduct that under certain conditions is an acceptable part of the job of a representative Members are required to solicit campaign contributions and they are expected to help constituents with their problems with government but some ways of doing these jobs give rise to institutional corruption The author moves the discussion beyond bribery extortion and simple personal gain to delve into implicit understandings ambiguous favors and political advantage Thompson examines many major ethics cases of recent years Among them the case of David Durenberger accused of supplementing his income through book promotions the case of the Keating Five accused of using undue influence with the Federal Home Loan Bank Board on behalf of Lincoln Savings and Loan owner Charles Keating and the case of House Speaker James Wright accused of several offenses Thompson shows why neither the electoral process nor the judicial process is sufficient and argues for stronger ethics committees and the creation of a new quasi independent body to take over some of the enforcement process He offers more than a dozen recommendations for changes in the procedures and practices of ethics in Congress The book features a listing of ethics charges classified by type of corruption considered by Congress from 1789 to 1992 Selected by Choice as an Outstanding Book of 1995

Dictionnaire historique, critique et bibliographique, suivi d'un Dictionnaire abrégé des mythologies, et d'un Tableau chronologique, par une société de gens de lettres [a revised ed. of the Nouveau dictionnaire historique of L.M. Chaudon. Ed. by J.D. Goigoux]. Louis Maïeul Chaudon, 1823 **Beyond Art: A Third Culture** Peter Weibel, 2005-05-17 A new theory of culture presented with a new method achieved by comparing closely the art and science in 20th century Austria and Hungary Major achievements that have influenced the world like psychoanalysis abstract art quantum physics Gestalt psychology formal languages vision theories and the game theory etc originated from these countries and influence the world still today as a result of exile nurtured in the US A source book with numerous photographs images and diagrams it opens up a nearly infinite horizon of knowledge that helps one to understand what is going on in today's worlds of art and science Liberalism Domenico Losurdo, 2014-02-04 In this definitive historical investigation Italian author and philosopher Domenico Losurdo argues that from the outset liberalism as a philosophical position and ideology has been bound up with the most illiberal of policies slavery colonialism genocide racism and snobbery Narrating an intellectual history running from the eighteenth through to the twentieth centuries Losurdo examines the thought of preeminent liberal writers such as Locke Burke Tocqueville Constant Bentham and Sieys revealing the inner contradictions of an intellectual position that has

exercised a formative influence on today's politics. Among the dominant strains of liberalism he discerns the counter currents of more radical positions lost in the constitution of the modern world order. **Novum Testamentum graece et latine**, 1842

Women, Equality, and the French Revolution Candice E. Proctor, 1990-10-24 This volume represents the first book length study of attitudes toward women in revolutionary France. Based on extensive research in the libraries and archives of Paris the book examines the impact of the Revolution's ideology of liberty and equality. When the men of 1789 wrote the Declaration of the Rights of Man they were thinking in terms of man the male not man the species. But there were some men and women who interpreted it in terms of all humanity. The outrage of these individuals over what they perceived as a discrepancy between the principles and the practice of the Revolution motivated them to produce some of the most unhesitating declarations of sexual equality that had ever been seen in history. Dr. Proctor demonstrates however these claims of equality were not simply ignored they were categorically rejected by the mainstream revolutionaries. The book examines the typical 18th century concept of women as alien and in some ways inferior beings and traces the striking continuity between pre Revolutionary and Revolutionary thought on the subject. Against this background Proctor addresses a number of important questions: How widespread was the support for a movement in favor of sexual equality? What was the response of the Revolution itself to demands for equal rights for women? How did the men of the French Revolution justify the contradiction between their suppression of women and the ideologies for which they claimed to be fighting? To arrive at the answers an abundance of material produced in France in the 18th century is identified and analyzed and cited in an extensive bibliography of original sources. What finally emerges is not only a clearer picture of the French Revolution and its attitude toward women but a deeper understanding of the ambivalent attitudes toward women that still affect our society today. This book will be an important resource for courses in European history the French Revolution and women's studies as well as a valuable reference for college university and public libraries.

Paris on the thought and culture of the eighteenth century would be difficult to overstate They were both intellectual powerhouses and also assemblies where the latest and most extreme fashion was displayed Young gallants wearing silk waistcoats embroidered with Chinese pagodas making love to ladies reclining negligently against the cushions or accepting small cups of chocolate from the hands of Negro pages thus Harold Nicolson describes the drawings of the time in his book The Age of Reason These meeting places for the vanguard of society were presided over by a succession of brilliantly clever women the salonieres and the most brilliant and clever of all of them was Madame de Stael Although she died at the age of 51 she filled her life to the brim and enjoyed a hugely influential role among the great names of the day Born Germaine Necker in Paris on 22 April 1766 her father was a powerful banker and her mother a Swiss pastor's daughter who never got over her good fortune in marrying a rich man In 1786 Germaine was married to a secretary in the Swedish embassy called de Stael but although she thought him a perfect gentleman she also found him dull and clumsy She began to take lovers the Vicomte de Narbonne and possibly Talleyrand and then Benjamin Constant in whom she at last met her intellectual equal In 1806 her novel Delphine was published It was an instant success and praised by Goethe and Byron among others Her salon thronged with glittering visitors including The Tsar Talleyrand and Wellington Maria Fairweather gives an entrancing account of this vanished world so merciless to outsiders but for those of the inner circle incomparably glamorous and exciting
