Question in Modern China Vincent Goossaert, David A. Palmer, 2011-04-15 Recent events from strife in Tibet and the rapid growth of Christianity in China to the spectacular expansion of Chinese Buddhist organizations around the globe vividly demonstrate that one cannot understand the modern Chinese world without attending closely to the question of religion The Religious Question in Modern China highlights parallels and contrasts between historical events political regimes and cultural movements to explore how religion has challenged and responded to secular Chinese modernity from 1898 to the present Vincent Goossaert and David A Palmer piece together the puzzle of religion in China not by looking separately at different religions in different contexts but by writing a unified story of how religion has shaped and in turn been shaped by modern Chinese society From Chinese medicine and the martial arts to communal temple cults and revivalist redemptive societies the authors demonstrate that from the nineteenth century onward as the Chinese state shifted the religious landscape consistently resurfaced in a bewildering variety of old and new forms The Religious Question in Modern China integrates historical anthropological and sociological perspectives in a comprehensive overview of China's religious history that is certain to become an indispensable reference for specialists and students alike *The Oxford Handbook of Food*

A. Azfar Moin, Alan Strathern, 2022-05-10 Sacred kingship has been the core political form in small scale societies and in vast empires for much of world history This collaborative and interdisciplinary book recasts the relationship between religion and politics by exploring this institution in long term and

global comparative perspective Editors A Azfar Moin and Alan Strathern present a theoretical framework for understanding sacred kingship which leading scholars reflect on and respond to in a series of essays They distinguish between two separate but complementary religious tendencies immanentism and transcendentalism which mold kings into divinized or righteous rulers respectively Whereas immanence demands priestly and cosmic rites from kings to sustain the flourishing of life transcendence turns the focus to salvation and subordinates rulers to higher ethical objectives Secular modernity does not end the struggle between immanence and transcendence flourishing and righteousness but only displaces it from kings onto nations and individuals After an essay by Marshall Sahlins that ranges from the Pacific to the Arctic the book contains chapters on religion and kingship in settings as far flung as ancient Egypt classical Greece medieval Islam Mughal India modern European drama and ISIS Sacred Kingship in World History sheds new light on how religion has constructed rulership with implications spanning global history religious studies political theory and anthropology
