Lopez's Of Wolves and Men* Everest Media, 2022-07-24T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The wolf's movement through the woods is effortless His body appears to float over the long almost spindly legs and the flicker of wrists a bicycling drift through the trees He is three years old and a male 2 The wolf was now late in the afternoon He had stopped traveling and had lain down to sleep under a rock outcropping He began to waken He rolled on his back and lay motionless with his front legs pointed toward the sky but folded like wilted flowers his back legs splayed 3 The wolf is a species that has been studied by biologists enough to produce this picture of them They were found in Europe eastern Europe the Near and Middle East and northern India They were also found in Afghanistan and northern India 4 The red wolf a species of wolf found only in America has been exterminated across its former range in the southeastern United States A small population of perhaps one hundred survives in the swamp thickets of extreme southeastern Texas and adjacent Cameron Parish Louisiana **Of Wolves and Men** Sheehan Eileen (author), 1901 *Of Wolves and Men*, 2004 Describes the wolf and its mythology *Vicious* Jon T. Coleman, 2008-10-01 Over a continent and three centuries American livestock owners destroyed wolves to protect the beasts that supplied them with food clothing mobility and wealth The brutality of the campaign soon exceeded wolves' misdeeds Wolves menaced property not people but storytellers often depicted the animals as ravenous threats to human safety Subjects of nightmares and legends wolves fell prey not only to Americans' thirst for land and resources but also to their

deeper anxieties about the untamed frontier Now Americans study and protect wolves and jail hunters who shoot them without authorization Wolves have become the poster beasts of the great American wilderness and the federal government has paid millions of dollars to reintroduce them to scenic habitats like Yellowstone National Park Why did Americans hate wolves for centuries And given the ferocity of this loathing why are Americans now so protective of the animals In this ambitious history of wolves in America and of the humans who have hated and then loved them Jon Coleman investigates a fraught relationship between two species and uncovers striking similarities deadly differences and all too frequently tragic misunderstanding
