Off Our Rockers And Into Trouble The Raging Grannies:

Off Our Rockers and Into Trouble Alison Acker, Betty Brightwell, 2004 When the Raging Grannies sprang up in 1987 in Victoria B C they didn't realise they would be starting a worldwide movement But that is what happened They just wanted to protest but in a different way And they do Their weapons Satire and song Wearing outrageous hats and warbling witty lyrics they poke fun at the powerful people who are wreaking havoc with their grandchildren's world But in spite of their lighthearted approach their purpose is extremely serious The Grannies have challenged nuclear armed ships forestry companies arms manufacturers multinational corporations pharmaceutical giants manufacturers of war toys the World Trade Organization and every level of government from municipal councils to the American presidency For their messages of peace and justice Grannies have been arrested jailed pepper sprayed and even hosed by the U S navy They have also been praised by Ralph Nader Peter Gzowski David Suzuki and Pete Seeger invited to perform far and wide and hailed as role models This is an amusing book showing how groups of older women around the world take on the powers that be win the occasional battle and have a wonderful time doing it

A Song to Save the Salish Sea Mark Pedelty, 2016-10-03 On the coast of Washington and British Columbia sit the misty forests and towering mountains of Cascadia With archipelagos surrounding its shores and tidal surges of the Salish Sea trundling through the interior this bioregion has long attracted loggers fishing fleets and land developers each generation seeking successively harder to reach resources as old growth stands salmon stocks and other natural endowments are depleted Alongside encroaching developers and industrialists is the presence of a rich environmental movement that has historically built community through musical activism From the Wobblies Little Red Songbook 1909 to Woody Guthrie's Columbia River Songs 1941 on through to the Raging Grannies formation in 1987 Cascadia's ecology has inspired legions of songwriters and musicians to advocate for preservation through music In this book Mark Pedelty explores Cascadia's vibrant eco musical community in order to understand how environmentalist music imagines and perhaps even creates a more sustainable conception of place Highlighting the music and environmental work of such various groups as Dana Lyons the Raging Grannies Idle No More Towers and Trees and Irthlingz among others Pedelty examines the divergent strategies musical organizational and technological used by each musical group to reach different audiences and to mobilize action He concludes with a discussion of applied ecomusicology considering ways this book might be of use to activists and musicians at the community level

Storying Later Life Gary Kenyon, Ernst Bohlmeijer, William L. Randall, 2010-12-20 In its brief but vigorous history gerontology has spawned a broadening range of specializations One of the newest of such specializations is narrative gerontology so named for its emphasis on the biographical or inside dimensions of the experience of aging Telling stories about our world our relationships and ourselves is fundamental to how we make meaning Everything from our history to our religion and our memories to our emotions is linked to the tales we tell ourselves and others about where we have come from and where we are going They are central to who we are The

biographical side of human life is every bit as critical to fathom as the biological side if we seek a more balanced positive and optimistic perspective on what aging is about if we would honor the dignity and complexity the humanity and uniqueness of the lives of older persons no matter what their health or economic standing In this respect a narrative approach is particularly suited to the exploration of such topics as meaning spirituality and wisdom and the connections they share This volume reflects a selection of new directions and insights and constitutes a general broadening and deepening of narrative gerontology exploring its implications for theory and research in the field of aging and for the quality of life of older adults themselves Such deepening indicates a greater refinement of thought method and intervention The evolution of narrative gerontology is also evidenced by a significant increase in the number of faculty and graduate students engaged in research in this area as well as by increasing collaboration among researchers practitioners and administrators in applying narrative insights to contexts such as long term care indeed healthcare in general These initiatives have given rise to the phrase narrative care as core care

The Changing Nature of Eco/Feminism Niamh Moore, 2015-04-15 In the summer of 1993 activists set up a peace camp blocking a logging road into an extensive area of temperate rainforest in Clayoquot Sound that was slated for clear cutting Twenty odd years later Clayoquot holds a prominent place in environmental discourse yet it is not generally associated with feminist or eco feminist movements The Changing Nature of Eco Feminism argues that Clayoquot offers a potent site for examining a whole range of feminist issues Through a careful study of eco feminist activism against clear cut logging practices in British Columbia the book explores how a transnational eco feminist practice insisted on an account of logging situated in histories of colonialism holding the Canadian state to account for its deforestation practices Moore demonstrates that the sheer vitality of eco feminist politics at the Peace Camp in the summer of 1993 confounded dominant narratives of contemporary feminism and has re imagined eco feminist politics for new times *Fair Share* Gary Alan Fine, 2023-01-23 If you've ever been to a protest or been involved in a political group you have likely experienced a distinct cultural niche one with its own slogans lingo and social dynamics Though one might immediately think of a cohort of relatively young organizers with bullhorns when imagining protest culture this ethnography from sociologist Gary Alan Fine explores the social world of senior citizens on the front lines of progressive protests specifically those involved in Chicago Seniors Together an activist group founded in the 1970s While seniors are a notoriously important and historically conservative political cohort Chicago Seniors Together is a decidedly leftist organization The group has advocated for social issues such as affordable housing and healthcare that affect all sectors of society but take on a particular meaning and urgency in the lives of seniors Seniors thus connect and mobilize over a distinct experience but in service of concerns that extend beyond themselves Not only do these seniors experience social issues in a unique capacity they are also able to use their age as an effective tool in advocating for political issues Fine not only takes us into an overlooked political group he describes how what he calls a tiny public mobilizes their group's concerns toward broad social change More specifically he

shows that senior citizen activists are particularly savvy about using age to their advantage in social movements What could be more attention grabbing than a group of passionate older people determinedly shuffling through snowy streets to demand healthcare equity risking their own health in the process Everybody Wants to Change the World Tony Campolo, Gordon Aeschliman, 2006-09-05 Everybody Wants to Change the World is for those who want to make a practical difference in people's lives in their own communities As Jesus taught on reaching out to the poor the widowed the sick and many others so are we to bring the tangible love of Christ into the world Tony Campolo and Gordon Aeschliman offer readers a broad range of ideas and resources for serving people and sharing the gospel from people who work to serve others every day **Feminisms**

Matter Victoria L. Bromley, 2012-01-01 Feminisms Matter confronts the major reasons people offer for not being feminists by breaking apart stereotypes of feminists unraveling myths about women's history and challenging assumptions about feminists and feminisms *Religious, Feminist, Activist* Laurel Zwissler, 2018-04-01 In Religious Feminist Activist Laurel Zwissler investigates the political and religious identities of women who understand their social justice activism as religiously motivated Placing these women in historical context as faith based activists for social change this book discusses what their activities reveal about the public significance of religion in the pluralistic context of North America and in our increasingly globalized world Zwissler's ethnographic interviews with feminist Catholics Pagans and United Church Protestants reveal radically different views of religious and political expression and illuminate how individual women and their communities negotiate issues of personal identity spirituality and political responsibility Political activists of faith recount adventurous tales of run ins with police agonizing moments of fear and powerlessness in the face of global inequality touching moments of community support and successful projects that improve the lives of others Religious Feminist Activist combines religion politics and globalization subjects frequently discussed in macro terms with individual personalities and intimate stories to provide a fresh perspective on what it means to be religiously and politically engaged Zwissler also provides an insightful investigation into how religion and politics intersect for women on the political left Canada's Rights Revolution

Dominique Clément, 2009-01-01 In the first major study of postwar social movement organizations in Canada Dominique Clément provides a history of the human rights movement as seen through the eyes of two generations of activists Drawing on newly acquired archival sources extensive interviews and materials released through access to information applications Clément explores the history of four organizations that emerged in the sixties and evolved into powerful lobbies for human rights despite bitter internal disputes and intense rivalries This book offers a unique perspective on infamous human rights controversies and argues that the idea of human rights has historically been highly statist while grassroots activism has been at the heart of the most profound human rights advances **Gender and Women's Studies, Second Edition** Margaret Hobbs, Carla Rice, 2018-05-03 Now in its second edition Gender and Women's Studies Critical Terrain provides students with an essential introduction to key issues approaches and concerns of the field This comprehensive anthology celebrates a

diversity of influential feminist thought on a broad range of topics using analyses sensitive to the intersections of gender race class ability age and sexuality Featuring both contemporary and classic pieces the carefully selected and edited readings centre Indigenous racialized disabled and queer voices With over sixty percent new content this thoroughly updated second edition contains infographics original activist artwork and a new section on gender migration and citizenship The editors have also added chapters on issues surrounding sex work as labour the politics of veiling trans and queer identities Indigenous sovereignty decolonization masculinity online activism and contemporary social justice movements including Black Lives Matter and Idle No More The multidisciplinary focus and the unique combination of scholarly articles interviews fact sheets reports blog posts poetry artwork and personal narratives reflect the vitality of the field and keep the collection engaging and varied Concerned with the past present and future of gender identity gendered representation feminism and activism this anthology is an indispensable resource for students in gender and women s studies classrooms across Canada and the United States *Nature Canada* ,2005 *B C L A Reporter* British Columbia Library Association,2003
