harmonious natural calendar that will repair the damages caused by the irregular tempo of technospheric time Our last best chance to adopt this natural time and step into the bright new future promised by the galactic shift of 2012 is the Great Calendar Change of 2004 a new discovery based on the author's mathematical research into the Mayan calendar first begun in his landmark work *The Mayan Factor In Time and the Technosphere* Argelles reveals the clear distinction between third dimensional astronomical time and the fourth dimensional synchronic order of the Law of Time which holds enormous potential for the future of humanity Legislative Calendar United States.
