Sleuths in Skirts Frances A. DellaCava, Madeline H. Engel, 2002 This volume is a comprehensive collection of critical essays on *The Taming of the Shrew* and includes extensive discussions of the play's various printed versions and its theatrical productions Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play The issues discussed include gender authority female autonomy and unruliness courtship and marriage language and speech and performance and theatricality

Mystery Women, Volume Three (Revised) Colleen Barnett, 2010-12-31 Like other fictional characters female sleuths may live in the past or the future They may represent current times with some level of reality or shape their settings to suit an agenda There are audiences for both realism and escapism in the mystery novel It is interesting however to compare the fictional world of the mystery sleuth with the world in which readers live Of course mystery readers do not share one simplistic world They live in urban suburban and rural areas as do the female heroines in the books they read They may choose a book because it has a familiar background or because it takes them to places they long to visit Readers may be rich or poor young or old conservative or liberal So are the heroines What incredible choices there are today in mystery series This three volume encyclopedia of women characters in the mystery novel is like a gigantic menu Like a menu the descriptions of the items that are provided are subjective Volume 3 of *Mystery Women* as currently updated adds an additional 42 sleuths to the 500 plus who were covered in the initial Volume 3 These are more recently discovered sleuths who were introduced during the period from January 1 1990 to December 31 1999 This more than doubles the number of sleuths introduced in the 1980s 298 of whom were covered in Volume 2 and easily exceeded the 347 series and some outstanding individuals described in Volume 1 which covered a 130 year period from 1860 1979 It also includes updates on those individuals covered in the first edition changes in status short reviews of books published since the first edition through December 31 2008

Forrest,2021-11-15 Valumetrics is an elaboration of Robert S Hartman s innovative development in the application of an abstract system to the study of ethical problems The system used for this purpose is a branch of logic called set theory Set theory fulfills this role because goodness the fundamental phenomenon of ethics is defined axiomatically in terms of sets The similarity of structure between certain elements of set theory and the various types

and degrees of goodness makes mathematical accounting of goodness phenomena possible In the valuometrics context value judgments are considered as an assessment of the goodness of something Therefore the mathematical system for the accounting of goodness serves as a tool for objectively making many kinds of value judgments and possible attendant ethical decisions One of the results of this conception attributable to Hartman is the birth of the science of ethics The first half of the book elucidates the theory terminology and mathematical system used in valuometrics known as Hartmanean algebra The second half is devoted to the application of this system to the measurement and development of a person's value vision and the solution of various problems in ethics using the case study technique Hartmanean algebra will resolve several types of problems such as the determination of right and wrong good and bad determining how to redress and amend instances of wrongs and badness and how to determine when if ever wrongs and badness are justified Vanity Will Get You Somewhere

Joseph Cotten, 2000-03-24 Joseph Cotten's story begins in Tidewater Virginia moves on to an episode as a Miami potato salad tycoon and then brings us to his first big break as an actor in the New York theatre Cotten describes how he met the flamboyant Orson Welles at a radio audition at which Welles set a wastepaper basket on fire and their involvement with the Mercury theatre This led to Cotten's first film role as Orson's co star in *Citizen Kane* quickly followed by parts in *The Magnificent Ambersons* and *The Third Man* Orson perhaps the only man to use Churchill as a stooge while trying to set up a film deal was a lifelong friend of Cotten's and this autobiography was one of the last works he read before his untimely death in 1985 Cotten takes us behind the scenes of his stage plays and films recalling amusing and intimate stories of his adventures with Ingrid Bergman Marilyn Monroe Katharine Hepburn David Niven David O Selznick Alfred Hitchcock and many others Sensitive to his own motivations frank about his marriages and warmly revealing about himself and his friends Cotten has written much more than the usual film star biography His skills as an actor have made him a master of character and dramatic momentum and he brings the same talents to his writing *Vanity Will get You Somewhere* is a generous loving and humorous portrait of a man without a shred of vanity in his nature and of his friends and colleagues in the larger than life world of show business **Obituaries in the Performing Arts, 2018** Harris M. Lentz III, 2019-05-30 The

entertainment world lost many notable talents in 2018 including movie icon Burt Reynolds Queen of Soul Aretha Franklin celebrity chef and food critic Anthony Bourdain bestselling novelist Anita Shreve and influential Chicago blues artist Otis Rush Obituaries of actors filmmakers musicians producers dancers composers writers animals and others associated with the performing arts who died in 2018 are included Date place and cause of death are provided for each along with a career recap and a photograph Filmographies are given for film and television performers *Reshaping Philosophy: Michael Boylan's Narrative Fiction* Wanda Teays, 2022-05-25 This volume offers original essays exploring what fictive narrative philosophy might mean in the research and teaching of philosophy The first part of the book presents theoretical essays that examine Boylan's recent books *Teaching Ethics with Three Philosophical Novels* and *Fictive Narrative Philosophy* How Literature can

Act as Philosophy The second and third part offer essays on how Boylan executes his theory in the practice within his novels from his two series De Anima and Arch The book clearly shows the unique aspects of the fictive narrative philosophy approach First it makes story telling accessible to wide audiences Second story telling techniques invoke devices that can set out complicated existential problems to the reader that offer an additional approach to thorny problems through the presentation of lived experience Third the discussion of these devices is a way to explore philosophical problems in a way that many can profit from The book concludes with an essay in which Boylan responds to the critical challenges set out in Part One and the practical criticism set out in Parts Two and Three Boylan addresses the key claims made by his objectors and defends his position He engages with the authors in the way his theory is matched against his actual novels This is useful reading for both philosophers and professors of literature teaching introductory as well as upper level courses in the fields of philosophy literature and criticism
