David to Delacroix Dorothy Johnson, 2011-02-14 In this beautifully illustrated study of intellectual and art history Dorothy Johnson explores the representation of classical myths by renowned French artists in the late eighteenth and early nineteenth centuries demonstrating the extraordinary influence of the natural sciences and psychology on artistic depiction of myth Highlighting the work of major painters such as David Girodet Gerard Ingres and Delacroix and sculptors such as Houdon and Pajou David to Delacroix reveals how these artists offered innovative reinterpretations of myth while incorporating contemporaneous and revolutionary discoveries in the disciplines of anatomy biology physiology psychology and medicine The interplay among these disciplines Johnson argues led to a reexamination by visual artists of the historical and intellectual structures of myth its social and psychological dimensions and its construction as a vital means of understanding the self and the individual's role in society This confluence is studied in depth for the first time here and each chapter includes rich examples chosen from the vast number of mythological representations of the period While focused on mythical subjects French Romantic artists Johnson argues were creating increasingly modern modes of interpreting and meditating on culture and the human condition **The Mobile Image from Watteau to Boucher** David

Pullins, 2024-08-13 Reframing long held assumptions about what distinguishes fine from decorative art this innovative study explores a mode of making seeing and thinking that slices across eighteenth century visual culture This book provides a new way of thinking about eighteenth century French art and visual culture by prioritizing production over reception Abandoning the ideologically driven discourse that distinguished fine from decorative art between the 1690s and 1770s *The Mobile Image* reveals how the two have been inextricably bound from the earliest stages of artistic instruction through the daily life of painters workshops In this study author David Pullins defines artisanal and artistic means of learning seeing and making through a system of mobile images motifs that were effectively engineered for mobility and designed never to be definitive always awaiting replication and circulation He examines the careers of Antoine Watteau Jean Baptiste Oudry and Francois Boucher situating them against a much broader cast of actors such as printmakers publishers anonymous studio assistants and architects among others to place eighteenth century painting within a wider context of media and making **The Age of Watteau, Chardin, and Fragonard** Musée des beaux-arts du Canada (Ottawa), Colin B. Bailey, Thomas Gaehtgens, Philip Conisbee, Thomas W. Decorative Games Jean-François Bédard,Gilles-Marie Oppenord,2011 This book features an extraordinary album of ornament designs by the French architect Gilles Marie Oppenord 1672 1742 For the first time this publication reproduces in their initial state the embellishments Oppenord drew over the first French edition of Cesare Ripa s *Iconologia* In lieu of a haphazard succession of sketches it reveals Oppenord s fascinating interplay between text engraved and drawn images one patterned on the art of conversation and the linguistic games cultivated in elite Parisian circles *The Expression of the Passions* Jennifer Montagu,Charles Le Brun,1994-01-01 In 1688 Charles Le Brun a French academician delivered a lecture on expression that was so popular it was published in sixty three separate editions and influenced all discussion of the subject throughout Europe for over a century This book reconstructs and translates the text of the lecture badly garbled in all previous versions explores the context in which it was conceived delivered received and finally rejected and reproduces the images that accompanied the lecture **The Learned Draftsman** Édouard Kopp,2017-01-10 The celebrated French artist Edme Bouchardon 1698 1762 is primarily known as a sculptor today but his contemporaries widely lauded him as a draftsman as well Talented highly innovative and deeply invested in the medium Bouchardon made an important contribution to the European art and culture of his time and in particular to the history of drawing Around two thousand of his drawings survive most of which bear no relation conceptual or practical to his sculpture yet remarkably little scholarly attention has been paid to this aspect of his oeuvre This is the first book length work devoted to the artist s draftsmanship since 1910 Ambitious in scope this volume offers a compelling narrative that effectively covers four decades of Bouchardon s activity as a draftsman from his departure for Rome in 1723 as an aspiring student to his death in Paris in 1762 by which time he was one of the most renowned artists in Europe His accomplished and dynamic style is analyzed and copiously illustrated in a series of five interrelated chapters that serve as case studies each of which focuses on a coherent group of drawings from a particular period of Bouchardon s career
