Low Level Mission Wings Of War:

The Navigator, 1963 **Adventures of a Cold War Fast-Jet Navigator** David Herriot, 2017-10-30 An RAF navigator's lively candid memoir of flying low and living fast during the Cold War years David Herriot served almost forty years in the Royal Air Force as a navigator first on the Buccaneer S2 and subsequently on the Tornado GR1 This volume recounts his early career operating the Buccaneer on three operational flying tours plus a tour as an instructor on the Operational Conversion Unit With almost 2500 hours on an aircraft that was operated at high speed in all weathers and at ultra low level his task in the rear seat was a demanding one But Herriot was more than just the guy in the back of a Buccaneer he was quite routinely and often to the exasperation of his seniors the life and soul of any party that was taking place either at home base or when overseas defending the flanks of NATO This is an epic adventure for the aviation enthusiast particularly those with affection for the Blackburn Buccaneer and it provides a great deal more than the usual introduction to a specific aircraft type and the people who flew it Here you'll find an absolute insight into life on a fast jet squadron at work and mischievous play during the Cold War and you'll also be introduced to some of the modern RAF's greatest characters **Scars of War** Marilyn Swinson, 2011-08-04 War is not romantic It is bleeding and dying and holding a lifeless comrade in your arms It is storming a beach through a hail of bullets It is fighter planes spiraling from the sky and Americans being taken captive In Scars of War author Marilyn Swinson tells true and often horrifying stories of war Based on one on one interviews with more than forty veterans all members of the Combat Airmen Joshuas Troops of Mayodan North Carolina Swinson brings the narratives to life as the soldiers relay a variety of war experiences a soldier aboard a ship moored at Pearl Harbor on that fateful December morning when Japanese bombs rained fire from the sky and a seventeen year old young man forced to endure the horrors of the Bataan Death March only to face three and a half years of torture and deprivation in Japanese concentration camps A pilot lives to fly again after his plane hits the ground traveling three hundred miles per hour igniting sixteen thousand pounds of jet fuel A battle weary Marine finally sees Old Glory raised on Iwo Jima Scars of War provides a firsthand account of the pathos and pageantry of war from those who survived **The Secret War in the Balkans** Richard H. Kraemer, 2010-07-27 World War II was the most important event of the twentieth century Sixty three nations took part engaging more than 100 million soldiers sailors and airmen All of the major campaigns of that war have been thoroughly covered in print and film with one exception the secret war in the Balkans While raids by bombers and fighter attacks were routinely reported by both military and civilian news media the nocturnal activities of the 60th Troop Carrier Group supplying the Balkan guerrillas remained Top Secret Beginning in March 1944 the 60th carried 7 000 tons of weapons and equipment to secret drop and landing zones in Axis held territory in the Balkans With this equipment the guerrillas tied down half a million Axis troops prior to the D Day landings in Normandy on June 6 1944 What if the 60th Troop Carrier Group or the guerrillas had not done their job Adolf Hitler would have been able to move eight or ten divisions to western France prior

to D Day No one can say with certainty but this writer's judgment is that the landings may well have failed At the very least the war would have been much longer and much more destructive The importance of the Balkan supply drops to Allied victory in Europe has never been adequately recognized The Secret War in the Balkans provides this heretofore missing chapter in the story of World War II *100 Missions North* Ken Bell, 2000-12 A harrowing personal account of the extraordinary dangerous missions the author and his comrades flew over North Vietnam in 1966-1967 At that time American airmen were faced with unprecedented defenses and the highest pilot loss rate exceeding 25% since the early days of the US strategic bombing of Europe during World War II This thrilling book tells what it was like to muster the courage to climb into the cockpit day after day as you watched your comrades fall one by one and how the pilots fought back *Secret War* Billy G. Webb, 2010-09-13 If war really is an extension of politics by other means as Carl von Clausewitz declared back in 1827 then few wars have served as better examples than the Secret War in Laos from 1961-1975 A clandestine conflict fought in parallel with the Vietnam War the Laotian Secret War ostensibly set the United States Thailand and various Laotian factions against Ho Chi Minh's North Vietnamese Army NVA In practice the conflict was as much a civil war as an invasion and ultimately it devolved into a slow motion act of suicide on the part of the Lao nation itself The US military and its Laotian Hmong allies led by the resourceful General Vang Pao made a disciplined effort to prosecute the war though from beginning to end that effort was steeped in self-serving politics and hamstrung by factional infighting irrational decision making and self-imposed constraints that ultimately hurt more than they helped Micromanagement by officers and clueless politicians far from the front was bad enough far worse was the corruption of the head-butting Lao factions who seemed unable to see beyond their own immediate needs and certainly had no vision for a strong united Laos The so-called Rightists Leftists and Neutralist factions simply could not wrap their heads around the concept that their only hope of survival lay in coming together against the relentless well-equipped NVA In fact one faction the Pathet Lao repeatedly allied with the NVA against their own countrymen But the Americans and Vang Pao's Hmong those who repeatedly found themselves on the sharp end of the spear in the face of waffling lack of discipline and occasionally sheer cowardice on the part of their allies refused to give up until finally their political leadership turned their backs on them This is the story of those brave men and the civilians who helped them fight an increasingly painful and mismanaged war It was a war in which the political leaders involved proved conclusively that they had learned nothing from history or simply didn't care Through ineptitude and back-room politicking the leadership of both Laos and the United States eventually gave Laos to the Communists who proceeded to crush the Lao people into the dust in the name of a morally bankrupt ideology that they themselves neither practiced nor truly believed in Billy G Webb lays out their story with both great precision and compassion in this lively well-researched book outlining the events that led us into the morass of the Secret War and then detailing each bloody campaign of each bloody year In addition to following the key characters on the US Laotian side especially the charismatic Vang Pao he peppers the story with tales of

courageous individuals who fell victim to the NVA and the Pathet Lao and occasionally the stupidity incompetence and gutlessness of people they trusted Some survived to fight again but many of these men military and otherwise paid the ultimate sacrifice in their fight to keep Laos free Webb takes special care to showcase two organizations the brave Forward Air Controllers who called themselves the Ravens and Air America a civilian company run by the CIA that supported the military effort and aided the Lao populace whenever they were called upon Few people have ever heard of the Ravens those USAF and Army airmen who risked life and limb in tiny Cessna aircraft to locate targets for bombers and fighters to strike Air America is more famous due to the 1990 movie of the same name a film that unfairly maligned Air America as a parcel service for Laotian powerbrokers moving drugs and gold out of the country Webb sets the record emphatically straight That is not to say that such things weren't happening in Laos they were In hindsight it's easy to condemn the CIA and the U S military leadership for allowing the corruption to spread but as Nietzsche has pointed out when you look long in One Hundred Years of Air Power and Aviation Robin Higham, 2003 In this precise interpretive and informative volume Higham looks at everything from the roots of strategic bombing and tactical air power to the lessons learned and unlearned during the invasion of Ethiopia the war in China and the Spanish Civil War He also considers the problems posed by jet aircraft in Korea and the use of Patriot missiles in the Persian Gulf He covers anti guerrilla operations doctrine industrial activities and equipment as well as the development of commercial airlines

The Americanized Luftwaffe by Billy Bieler Billy Bieler, 2016-04-11 The Americanized Luftwaffe by Billy Bieler The Luftwaffe a significant component of the late German Armed Forces Bundeswehr and arguably one of the major pillars of the Atlantic Alliance thanks to its size and positioning within NATO served as an influencer of change in the post Cold War and Reunification periods Although Luftwaffe was certainly influenced by old squads and their merits it accomplished much for the new democracy thereby contributing to the preservation of peace The Americanized Luftwaffe explores all aspects of the post war Luftwaffe from its weapon system effectiveness and fighter weapon systems characteristics to its significant partnership with the United States Air Force Through in depth analyses of Luftwaffe's aircraft performance deficiencies of the operational spectrum and the complexity of its weapons systems much of which were developed in the latter part of the last century The Americanized Luftwaffe demonstrates the extraordinary undertaking involved with both the reorganization and buildup and the tactical weight and importance of the Luftwaffe within the alliance

Mission to Tokyo Robert F. Dorr, 2012-09-15 From Hell Hawks author Bob Dorr Mission to Tokyo takes the reader on a World War II strategic bombing mission from an airfield on the western Pacific island of Tinian to Tokyo and back Told in the veterans words Mission to Tokyo is a narrative of every aspect of long range bombing including pilots and other aircrew groundcrew and escort fighters that accompanied the heavy bombers on their perilous mission Several thousand men on the small Mariana Islands of Guam Saipan and Tinian were trying to take the war to the Empire Imperial Japan in B 29 Superfortresses flying at 28 000 feet but the high altitude bombing wasn't very

accurate The decision was made to take the planes down to around 8 000 feet even as low as 5 000 feet Eliminating the long climb up would save fuel and allow the aircraft to take heavier bomb loads The lower altitude would also increase accuracy substantially The trade off was the increased danger of anti aircraft fire This was deemed worth the risk and the devastation brought to the industry and population of the capital city was catastrophic Unfortunately for all involved the bombing did not bring on the quick surrender some had hoped for That would take six more months of bombing culminating in the atomic bombs dropped on Hiroshima and Nagasaki As with Mission to Berlin Spring 2011 Mission to Tokyo focuses on a specific mission from spring 1945 and provides a history of the strategic air war against Japan in alternating chapters **B-29**

Superfortress Units of World War 2 Robert F Dorr, 2012-12-20 Featuring photography and colour profiles throughout a history of the bomber that shaped the Pacific War The ultimate piston engined heavy bomber of World War 2 the first production B 29s were delivered to the 58th Very Heavy Bomb Wing in the autumn of 1943 By the spring of 1944 the Superfortress was bombing targets in the Pacific and by war s end the aircraft had played as great a part as any weapon in ending the conflict with the Japanese Indeed the final dropping of two atomic bombs from the B 29 convinced the Japanese to sue for peace This book traces the wartime career of the B 29 as the aircraft went from strength to strength in the Pacific Theatre
