The Language of Flowers Beverly Seaton, 2012-10-10 The author traces the phenomenon of ascribing sentimental meaning to floral imagery from its beginnings in Napoleonic France through its later transformations in England and America At the heart of the book is a depiction of what the three most important flower books from each of the countries divulge about the period and the respective cultures Seaton shows that the language of flowers was not a single and universally understood correlation of flowers to meanings that men and women used to communicate in matters of love and romance The language differs from book to book country to country To place the language of flowers in social and literary perspective the author examines the nineteenth century uses of flowers in everyday life and in ceremonies and rituals and provides a brief history of floral symbolism She also discusses the sentimental flower book a genre especially intended for female readers Two especially valuable features of the book are its table of correlations of flowers and their meanings from different sourcebooks and its complete bibliography of language of flower titles This book will appeal not only to scholars in Victorian studies and women s studies but also to art historians book collectors museum curators historians of horticulture and anyone interested in nineteenth century popular culture

 Illinois State Horticultural Society,1886 **Room of One's Own**,1998 *Emblematic Strategies in Pre-Raphaelite Literature* Heather McAlpine,2019-10-14 In this book Heather McAlpine argues that emblematic strategies play a more central role in Pre Raphaelite poetics than has been acknowledged and that reading Pre Raphaelite works with an awareness of these strategies permits a new understanding of the movement s engagements with ontology religion representation and politics The emblem is a discursive practice that promises to stabilize language in the face of doubt making it especially interesting as a site of conflicting responses to Victorian crises of representation Through analyses of works by the Pre Raphaelite Brotherhood Christina Rossetti Dante Gabriel Rossetti Gerard Manley Hopkins A C Swinburne and William Morris *Emblematic Strategies* examines the Pre Raphaelite movement s common goal of conveying truth while highlighting differences in its adherents approaches to that task *Transactions* Illinois State Horticultural Society,1886 **Man, Myth & Magic** Richard Cavendish,1970 **Transfiguring America** Jeffrey Steele,2001 *Transfiguring America* is the product of more than ten years of research and numerous published articles on Margaret Fuller arguably America s first feminist theorist and one of the most important woman writers in the nineteenth century Focusing on Fuller s development of a powerful language that paired cultural critique with mythmaking Steele shows why her writing had such a vital impact on the woman s rights movement and modern conceptions of gender This groundbreaking study pays special attention to the ways in which Fuller s feminist consciousness and social theory emerged out of her mourning for herself and others her dialogue with Emersonian Transcendentalism and her eclectic reading in occult and mythical sources *Transfiguring America* is the first book to provide detailed analyses of all of Fuller s major texts including her mystical Dial essays correspondence with Emerson *Summer on the Lakes* 1844 poetry *Woman in the Nineteenth Century* and New York Tribune essays written both in New York and Europe Starting from her own profound sense of loss as a marginalized woman Fuller eventually recognized the ways in which the foundational myths of American society buttressed by conservative religious ideologies replicated dysfunctional images of manhood and womanhood With *Woman in the Nineteenth Century* after exploring the roots of

oppression in her essays and poetry Fuller advanced the cause of woman s rights by conceptualizing a more fluid and equitable model of gender founded upon the mythical reconfiguration of human potential But as her horizons expanded Fuller demanded not only political equality for women but also emotional intellectual and spiritual freedom for all victims of social oppression By the end of her career Steele shows Fuller had blended personal experience and cultural critique into the imaginative reconstruction of American society Beginning with a fervent belief in personal reform she ended her career with the apocalyptic conviction that the dominant myths both of selfhood and national identity must be transfigured Out of the ashes of personal turmoil and political revolution she looked for the phoenix of a revitalized society founded upon the ideal of political justice
