*Media Events* Daniel DAYAN, Elihu Katz, Daniel Dayan, 2009-06-30 Constituting a new television genre live broadcasts of historic events have become world rituals which according to Daniel Dayan and Elihu Katz have the potential for transforming societies even as they transfix viewers around the globe Analyzing such public spectacles as the Olympic games the wedding of Prince Charles and Lady Diana John F Kennedy's funeral the moon landing and Pope John II's visits to Poland they offer an ethnography of how media events are scripted negotiated performed celebrated shamanized and reviewed

*Media Events* Bianca Mitu, Stamatis Poulakidakos, 2016-05-23 Media Events A Critical Contemporary Approach proposes an interdisciplinary and multicultural approach of Dayan and Katz's theory of media events 1992 by applying it to contemporary situations The contributing authors come from a range of countries UK USA Mexico Germany Finland Italy Greece Portugal Ukraine and analyse the theory of media events from different perspectives incorporating social media and offering a re positioning of Dayan and Katz's theory of media events By bringing new perspectives into this field the proposed volume is an important contribution as it grounds the intervention and rethinking of the theory into further empirical research This volume has the potential to function as a cross generational link between one of the early classics of media and communication studies on the one hand and the present generation of researchers on the other *Hybrid Media Events*

Johanna Sumiala, Katja Valaskivi, Minttu Tikka, Jukka Huhtamäki, 2018-05-18 What are hybrid media events And how do these events shape our lives in the present digital age This book addresses these questions by explaining how terrorist violence makes global events The empirical analyses are based on the case of Charlie Hebdo attacks in 2015 and the global circulation of solidarities and anger connected with the attacks **Media Events in a Global Age** Nick Couldry, Andreas Hepp, Friedrich Krotz, 2009-10-16 The eventization of the media is increasingly important for the marketing and appreciation of popular media texts Media Events gives readers an understanding of the major debates in this high profile area of media and cultural research

Duffy,2003 Organizations such as the Sierra Club and Friends of the Earth are familiar to anyone with an interest in environmental protection As activist groups they played by the same rules for years But in 1994 the rules changed With the Republican takeover of Congress environmental groups faced sweeping changes in federal policies that threatened the enforcement of environmental laws As these organizations intensified their efforts to meet these challenges they also altered their electoral strategies and political spending patterns This book traces those actions and shows what they mean for the future of environmentalism in the political arena While environmental advocacy groups have become bigger and better funded in recent years so have the corporate interests that compete with them for the attention of public and politicians The Green Agenda in American Politics offers a new look at environmental advocacy that focuses on contemporary lobbying electioneering and agenda setting in this new context Drawing on interviews with activists from a wide range of organizations Robert Duffy describes what environmental groups actually do when lobbying officials or the public He examines activity at both national and state levels to emphasize their growing use of websites email and action alert networks to conduct more sophisticated grassroots campaigns and he shows how they are devoting more funds to unregulated forms of spending such as independent expenditure issue advocacy advertising and public education campaigns Duffy also tracks emerging trends in interest group politics and provides an overview of activism through the early 1990s He then documents the emergence of more aggressive action after 1994 such as providing campaign services to candidates and mounting voter registration drives He also shows how state and local groups have begun to play more important roles in the wake of the rollback of federal environmental regulations Brimming with new insights into interest group lobbies in general

Drawing on recently declassified documents that record U.S. psychological operations in some three dozen countries, he tells how U.S. propaganda agencies presented everyday life in America to the world: its citizens living full, happy lives in a classless society where economic bounty was shared by all. Osgood further investigates the ways in which superpower disarmament negotiations were used as propaganda maneuvers in the battle for international public opinion. He also reexamines the early years of the space race, focusing especially on the challenge to American propagandists posed by the Soviet launch of Sputnik      *People v. Hana; People v.
