Power Politics Margaret Atwood, 1996 Margaret Atwood's *Power Politics* first appeared in 1971 startling its audience with its vital dance of woman and man Thirty years later it still startles and is just as iconoclastic as ever These poems occupy all at once the intimate the political and the mythic Here Atwood makes us realize that we may think our own personal dichotomies are unique but really they are multiple universal Clear direct wry unrelenting Atwood's poetic powers are honed to perfection in this important early work Margaret Atwood and Social Justice Theodore F.

Sheckels, 2022-11-25 Margaret Atwood and *Social Justice* eventually presents a loose ideology evident in the author's major works of prose fiction It insists however that Atwood is a writer not an ideologue and that therefore this ideology evolves over her career always secondary to her presenting stories and characters and through them ideas Throughout her career Atwood has been concerned about the social injustice experienced by women After expressing concern for the plight of the environment in *Surfacing* and workers in *Life Before Man* Atwood turned quite political in *Bodily Harm* and *The Handmaid's Tale* blending her concern for justice for women with criticism of present day Third World and future right wing governments Atwood then turned inward looking at how those denied justice often do the same to others and turned to history looking at injustice tied to social class She later brought many of her concerns together in *The Blind Assassin* and especially the three books that comprise the *MaddAddam* trilogy Later works such as *The Heart Goes Last* *Hag Seed* and *The Testaments* add to the picture most fully articulated in *The Blind Assassin* which looks back at the 1930s and the *MaddAddam* books which look ahead to a future marked by global warming corporate oppression and pandemic As argued here these later books

strengthen her indictment of corporations which oppress for the sake of profit and offer her most straightforward recognition that race plays a major role in whether social justice is served or not

L. den Toonder, Bettina van Hoven, 2012 A variety of productions and representations of Canadian identities are the central theme that runs through this book The different contributions explore imagined spaces by considering Canadian music poetry and novels they engage with political space by addressing various ways in which the people of Canada have made claims to different regions in the distant and recent past and they address lived spaces and their actual and symbolic meanings It is an unusual book as it encompasses the writings by those studying the arts and literature as well as writings by social scientists and it includes both English and French speaking scholars The richness that can be found in this multitude of perspectives and approaches to exploring Canadian space is characteristic of the way in which Canadian Studies is practiced nowadays It is therefore an appropriate volume to celebrate 20 years of Canadian Studies in the Netherlands
