New Politics Of The Welfare State:

The New Politics of the Welfare State Paul Pierson, 2001-04-05 The welfare states of the affluent democracies now stand at the centre of political discussion and social conflict In these path breaking essays an international team of leading analysts rejects simplistic claims about the impact of economic globalization Economic demographic and social pressures on the welfare state are very real but many of the most fundamental challenges have little to do with globalization Nor do the authors detect signs of a convergence of national social policies towards an American style lowest common denominator The contemporary politics of the welfare state takes shape against a backdrop of both intense pressures for austerity and enduring popularity Thus in most of the affluent democracies the politics of social policy centre on the renegotiation restructuring and modernization of the post war social contract rather than its dismantling The authors examine a wide range of countries and public policies arenas including health care pensions and labour markets They demonstrate how different national settings affect whether and on what terms centrist efforts to restructure the welfare state can succeed **The New Politics of the Welfare State [electronic Resource.]** Paul Pierson, 2001 **The New Politics of the Welfare State** Paul Pierson, 1995 *The Welfare State Reader* Christopher Pierson, Francis G. Castles, 2006-11-28 Includes 20 selections reflecting the thinking and research in welfare state studies these readings are organized around a series of debates on welfare regimes globalization Europeanization demographic change and political challenges **A Handbook of Comparative Social Policy** Patricia Kennett, 2006-01-01 Kennett has made a major contribution to the comparative study of social policy The book will undoubtedly serve as a major resource for social policy scholars and the editor is to be commended for taking on what must have been a Herculean task It is to be hoped that the book will be available in many university libraries It deserves to be widely consulted not only by those interested in international issues but by anyone concerned with the challenges facing the academic field of social policy today *Journal of Sociology and Social Welfare* This volume makes a heroic effort to transform the abstractions floating around in the literature on comparative social policy research into a more grounded discussion of what the policy controversies are all about The contributions in the book climb down the ladder of abstraction which asserts that context institutions and globalization all count and that the public private discourse has changed The book attempts to specifically show how these abstractions matter in recent social policy practice and research Martin Rein Massachusetts Institute of Technology US The current context of social policy is one in which many of the old certainties of the past have been eroded The predominantly inward looking domestic preoccupation of social policy has made way for a more integrated international and outward approach to analysis which looks beyond the boundaries of the state It is in this context that this Handbook brings together the work of key commentators in the field of comparative analysis in order to provide comprehensive coverage of contemporary debates and issues in cross national social policy research Organized around five themes this impressive volume explores the contextual conceptual analytical and processual

aspects of undertaking comparative social research In the first part the authors are concerned with de centring the state and extending the epistemological framework through which cross national analysis is explored In Parts II and III the focus is on the conceptual and theoretical frameworks for analysing social policy cross nationally while Part IV examines the day to day reality of preparing for and carrying out cross national analysis In the final section the authors highlight continuing and emerging themes and issues which are of particular relevance to understanding the contemporary social world International in scope this authoritative Handbook presents original cutting edge research from leading specialists and will become an indispensable source of reference for anyone interested in comparative social research It will also prove a valuable study aid for undergraduate and postgraduate students from a range of disciplines including social policy sociology politics urban studies and public policy

Dismantling Public Policy Michael W. Bauer, 2012-12-13 Dismantling does not even merit a mention in most public policy textbooks

Inequality and the Fading of Redistributive Politics Keith Banting, John Myles, 2013-09-01 All advanced democracies have faced the pressures of globalization technological change and new family forms which have generated higher levels of inequality in market incomes But countries have responded differently reflecting differences in their domestic politics The politics of who gets what and why is at the core of this volume the first to examine this question in an explicitly Canadian context In *Inequality and the Fading of Redistributive Politics* leading political scientists sociologists and economists point to the failure of public policy to contain surging income inequality Government programs are no longer offsetting the growth in inequality generated by the market and Canadian society has become more unequal The redistributive state is fading due to powerful forces that have reshaped the politics of social policy including global economic pressures ideological change shifts in the influence of business and labour changes in the party system and the decline of equality seeking civil society organizations This volume demonstrates conclusively that action and inaction policy change and policy drift are at the heart of growing inequality calling into question Canada's record as a kinder gentler nation

Ageing Populations in Post-Industrial Democracies Pieter Vanhuyse, Achim Goerres, 2013-06-17 Most advanced democracies are currently experiencing accelerated population ageing which fundamentally changes not just their demographic composition it can also be expected to have far reaching political and policy consequences This volume brings together an expert set of scholars from Europe and North America to investigate generational politics and public policies within an approach explicitly focusing on comparative political science This theoretically unified text examines changing electoral policy demands due to demographic ageing and features analysis of USA UK Japan Germany Italy and all major EU countries As the first sustained political science analysis of population ageing this monograph examines both sides of the debate It examines the actions of the state against the interests of a growing elderly voting bloc to safeguard fiscal viability

and looks at highly topical responses such as pension cuts and increasing retirement age It also examines the rise of grey parties and asks what if anything makes such pensioner parties persist over time in the first ever analysis of the emergence of pensioner parties in Europe Ageing Populations in Post Industrial Democracies will be of interest to students and scholars of European politics and to those studying electoral and social policy reform Official publication date 1st January 2012

Transatlantic Policymaking in an Age of Austerity Flor Aarts,2004-11-11 Transatlantic Policymaking in an Age of Austerity integrates the study of politics and public policy across a broad spectrum of regulatory and social welfare policies in the United States and several nations of Western Europe The editors and a sterling list of contributors look at policymaking in the 1990s through the present providing a comparative politics framework stressing both parallel development and the differences between and among the nations Similar prevailing ideas and political factors can be identified and transatlantic comparisons made providing for a clearer understanding of the policymaking process Faith in regulated markets and the burden of rising welfare costs are concerns found on both sides of the Atlantic Western democracies also share political climates colored by economic austerity low trust in government pressures from interest groups and a sharply divided electorate Because of differing political processes and differing policy starting points a variety of disparate policy decisions have resulted Real world policymaking in the areas of welfare health labor immigration reform disability rights consumer and environmental regulation administrative reforms and corporate governance are compared Ultimately the last decade is best characterized as one of drift sluggish changes with little real innovation and much default to the private sector In general policymakers on both sides of the ocean constrained by economic necessity have been unable to produce policy outcomes that satisfy the key segments of the electorate The contributors examine the United States Great Britain France and Germany as well as a number of other European countries and study the European Union itself as a policymaking institution Transatlantic Policymaking in an Age of Austerity distills the prominent issues politics and roles played by governmental institutions into a new understanding of the dynamics of policymaking in and among transatlantic nations
