New Therapies For Neonatal Respiratory Failure:

New Therapies for Neonatal Respiratory Failure Bruce R. Boynton, Waldemar A. Carlo, Alan H. Jobe, 1994-11-25 The diagnosis and treatment of respiratory problems in the newborn have advanced significantly over recent years although respiratory failure remains an important cause of neonatal mortality and morbidity This book provides a comprehensive overview of respiratory physiology in the newborn and of the mechanism underlying respiratory failure in this age group It goes on to present in detail the techniques both novel and well established for effective ventilatory support In presenting and evaluating the available treatment modalities the authors consider not only clinical indications modes of delivery and monitoring but also complications and outcomes Comprehensive and up to date this is an essential handbook and reference for clinicians in neonatal medicine that will help to optimise their management of respiratory failure in the newborn

Lung Injury Robert H. Notter, Jacob Finkelstein, Bruce Holm, 2005-04-20 Progressing from general scientific principles and concepts to in depth topical discussions of current research and treatment methods this comprehensive reference defines the cellular and molecular mechanisms contributing to inflammatory lung injury and repair Extensive coverage is provided on key mediators and pathways important in acute and chronic lung injury
