Painting The Century:

Flemish Painting: The century of Van Eyck Jacques Lassaigue, 1957 **The Mass Market for History Paintings in Seventeenth-Century Amsterdam** Angela Jager, 2025-10-01 Millions of paintings were produced in the Dutch Republic The works that we know and see in museums today constitute only the tip of the iceberg the top quality part But what else was painted This book explores the low quality end of the seventeenth century art market and outlines the significance of that production in the genre of history paintings which in traditional art historical studies is usually linked to high prices famous painters and elite buyers Angela Jager analyses the producers suppliers and consumers active in this segment to gain insight into this enormous market for cheap history paintings What did the supply consist of in terms of quantity quality price and subject Who produced all these works and which production methods did these painters employ Who distributed these paintings to whom and which strategies were used to market them Who bought these paintings and why The British Country House in the Eighteenth Century Christopher Christie, 2000 This work explores the British country house between 1700 1830 and looks at the lives of the noblemen and the servants who inhabited them Reference is made to the whole of the British Isles and there is a discussion of their political significance **The Ashgate Research Companion to Dutch Art of the Seventeenth Century** Wayne Franits, 2017-07-05 Despite the tremendous number of studies produced annually in the field of Dutch art over the last 30 years or so and the strong contemporary market for works by Dutch masters of the period as well as the public s ongoing fascination with some of its most beloved painters until now there has been no comprehensive study assessing the state of research in the field As the first study of its kind this book is a useful resource for scholars and advanced students of seventeenth century Dutch art and also serves as a springboard for further research Its 19 chapters divided into three sections and written by a team of internationally renowned art historians address a wide variety of topics ranging from those that might be considered traditional to others that have only drawn scholarly attention comparatively recently *Art and Artists of Twentieth-century China* Michael Sullivan, 1996 This visually stunning book focuses on the rebirth of Chinese art in the twentieth century under the influence of Western art and culture Sullivan discusses artists and their work against China s background of oppression and relaxation despair and hope **Seventeenth-century Art & Architecture** Ann Sutherland Harris, 2005 Encompassing the socio political cultural background of the period this title takes a look at the careers of the Old Masters and many lesser known artists The book covers artistic developments across six countries and examines in detail many of the artworks on display *Art and Identity in Thirteenth-Century Byzantium* Antony Eastmond, 2017-03-02 The church of Hagia Sophia in Trebizond built by the emperor Manuel I Grand Komnenos 1238 63 in the aftermath of the fall of Constantinople to the Fourth Crusade is the finest surviving Byzantine imperial monument of its period Art and Identity in Thirteenth Century Byzantium is the first investigation of the church in more than thirty years and is extensively illustrated in colour and black and white with many images that have never previously been published

Antony Eastmond examines the architectural sculptural and painted decorations of the church placing them in the context of contemporary developments elsewhere in the Byzantine world in Seljuq Anatolia and among the Caucasian neighbours of Trebizond Knowledge of this area has been transformed in the last twenty years following the collapse of the Soviet Union The new evidence that has emerged enables a radically different interpretation of the church to be reached and raises questions of cultural interchange on the borders of the Christian and Muslim worlds of eastern Anatolia the Caucasus and Persia This study uses the church and its decoration to examine questions of Byzantine identity and imperial ideology in the thirteenth century This is central to any understanding of the period as the fall of Constantinople in 1204 divided the Byzantine empire and forced the successor states in Nicaea Epiros and Trebizond to redefine their concepts of empire in exile Art is here exploited as significant historical evidence for the nature of imperial power in a contested empire It is suggested that imperial identity was determined as much by craftsmen and expectations of imperial power as by the emperor's decree and that this was a credible alternative Byzantine identity to that developed in the empire of Nicaea

20th Century Korean Art 권영나, Yŏng-na Kim, 2005 In recent years the increase in interest in Asian art has led to a number of books being published about Japanese and Chinese artists However the exciting Korean scene is still largely undocumented Now Kim YoungNa reveals Korean modern and contemporary artists to the West Twentieth Century Korean Art provides a comprehensive engaging survey that places emphasis on art historical narratives It draws on primary sources

and historical artefacts as well as on new interpretations of issues such as the identity of Korean art and the cultural ramifications of Japanese colonialism Covering over one hundred year from the late 19th century through to the 1990s the essays in this book examine how both external influences and wills to change within Korean society itself generated an artistic vitality against a shifting political social and cultural backdrop and how this necessarily involved East Asia at large and the West

Primitivism and Twentieth-century Art Jack D. Flam, Miriam Deutch, 2003 This is a much needed important collection a goldmine of sources for scholars and students The texts articulate the key Primitivist aesthetic discourses of the period offering crucial insight into the complex and always changing nexus between culture politics and representation Because of the breadth of the materials covered and the controversies they raise this anthology is one of the all too rare volumes that not only will provide reference materials for years to come but also will feature centrally in classroom discussions

Suzanne Preston Blier author of *African Vodun Art Psychology and Power* For almost a century art historians have fretted about the notion of primitivism in the arts This comprehensive in both senses of the word anthology is a peerless source of the history of responses to works categorized as primitive In its range the book touches upon all the troubling questions formal anthropological political historical that have bedeviled the study of the arts of Oceania Africa and North and South America and provides the grounds at last for intelligent pursuit of keener distinctions I regard this book as a superb contribution to the study of Modern art in fact indispensable

Dore Ashton author of *Noguchi East and West* An extraordinarily useful and complete collection of primary documents many translated for the first time into English and almost all unlikely to be encountered elsewhere without serious effort Its five sections each with a lively and scholarly introduction reveal the diverse views of artists and writers on primitive art from Matisse Picasso and Fry to many far less known and sometimes surprising figures The book also uncovers the politics and aesthetics of the major museum exhibitions that gained acceptance for art that had been both reviled and mythologized Recent texts included are all germane This book will be invaluable for any college course on the topic

Shelly Errington author of *The Death of Authentic Primitive Art and Other Tales of Progress* An exceptionally valuable anthology of seventy documents most heretofore unavailable in English on the ongoing controversies surrounding Primitivism and Modern art Insightfully chosen and annotated the collection is brilliantly introduced by Jack Flam s essay on the historical progression contexts and cultural complexities of more than one hundred years ideas about Primitivism

Rich timely illuminating Herbert M Cole author of *Icons Ideals and Power in the Art of Africa*
