Theofanis George Stavrou, Editors*

Russian Orthodoxy Under The Old Regime

Jiyuan Zhang

Russian Orthodoxy Under The Old Regime:

Russian Orthodoxy Under the Old Regime Robert Lewis Nichols, Theofanis George Stavrou, 1978 **Biblical Interpretation in the Russian Orthodox Church** Alexander I. Negrov, 2008 Alexander Negrov surveys the history of biblical interpretation within the history of the Russian Orthodox church from the Kiev period tenth to thirteenth centuries until the Synodal period 1721 1917 He presents a coherent analysis of the essential elements of Orthodox biblical hermeneutics as it developed over a period of several centuries critical to the defining of the Orthodox church BOOK JACKET

The Orthodox Church John Meyendorff, 1996 The Orthodox Church presented here in a newly revised edition has become an indispensable classic on the history of the Orthodox Church and the unique position it holds in today's world Fr Meyendorff reviews the great events and the principle stages in a history of nearly two thousand years its diversity not only in Eastern and far Eastern countries but also in the West and in the whole world He also presents the culture and spiritual tradition of Orthodoxy its connection to other Christian churches its religious activities in various communities and its position and actions in former Eastern Communist countries The postscript describes the new post Communist situation of Orthodoxy BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Theology in the Russian Diaspora** Aidan Nichols, 1989 The author at the centre of this study Russian priest theologian Nikolai Nikolaevich Afanas ev was perhaps the most influential thinker about the Church Russia has produced In Aidan Nichols's careful evaluation he emerges as a key figure in the rapprochement of Christian East and West and most notably of the Orthodox and Catholic churches Nichols illustrates how Afanas ev has been influential in two key respects first of all in his conviction that the Eucharist constitutes the foundation of the whole Church and secondly in his contribution to an Orthodox understanding of the role of the Roman Church and bishop in the context of a united Church Afanas ev's achievements are seen to have continuing relevance in view of the inauguration of the Orthodox Catholic dialogue at the monastery of St John on Patmos in 1980 and the importance of his thinking in terms of contemporary ecumenism becomes clear It is to such a reappraisal that this book concerned as it is with how Russian orthodoxy understands the Church is devoted in the hope of an eventual restoration of unity between the Orthodox of all the Russias and the see of Rome The Making of Russian Absolutism 1613-1801 Paul Dukes, 2014-01-14 Revised and expanded the second edition of this fascinating study surveys the first two centuries of Romanov rule from the foundation of the dynasty by Michael Romanov in 1613 to the accession of Alexander I in 1801 The central theme of the book is the growth of absolutism in Russia throughout these years and it traces in detail how the Russian variety of what was a contemporary European phenomenon came fully into being **Slavophile Empire** Laura Engelstein, 2011-03-15 Twentieth century Russia in all its political incarnations lacked the basic features of the Western liberal model the rule of law civil society and an uncensored public sphere In Slavophile Empire the leading historian Laura Engelstein pays particular attention to the Slavophiles and their heirs whose aversion to the secular

individualism of the West and embrace of an idealized version of the native past established a pattern of thinking that had an enduring impact on Russian political life Imperial Russia did not lack for partisans of Western style liberalism but they were outnumbered to the right and to the left by those who favored illiberal options In the book s rigorously argued chapters Engelstein asks how Russia s identity as a cultural nation at the core of an imperial state came to be defined in terms of this antiliberal consensus She examines debates on religion and secularism on the role of culture and the law under a traditional regime presiding over a modernizing society on the status of the empire s ethnic peripheries and on the spirit needed to mobilize a multinational empire in times of war These debates she argues did not predetermine the kind of system that emerged after 1917 but they foreshadowed elements of a political culture that are still in evidence today Religion and Politics in Russia: A Reader Marjorie Mandelstam Balzer,2015-01-28 Russia is not only vast it is also culturally diverse the core of an empire that spanned Eurasia In addition to the majority Russian Orthodox and various other Christian groups the Russian Federation includes large communities of Muslims Jews Buddhists and members of other religious groups some with ancient historical roots All are in a state of ferment and securing formal state recognition for specific communities is often daunting This collection provides entry into the diversity of Russia s religious communities Marjorie Mandelstam Balzer s introduction to the volume illuminates major political social and cultural anthropological trends The book is organized by religious tradition or identity with further thematic perspectives on each set of readings The authors include ethnologists sociologists political analysts and religious leaders from many regions of the Federation They analyze the changing dynamics of religion and politics within each community and in the context of the current drive to recentralize both political and religious authority in Moscow Topical coverage extends from reassertions of Russian Orthodoxy to activities of Christian and Muslim missionaries to the revival of many other religions including indigenous shamanic ones **The Oxford Handbook of Russian Religious Thought** Caryl Emerson,George Pattison,Randall A. Poole,2020 A comprehensive collection exploring the role of ideas institutions and movements in the evolution of Russian religious thought Contains cutting edge scholarship that expands understanding of one of the richest aspects of Russian cultural and intellectual life Considers the influence of Russian religious thought in the West and the role of religion in aesthetics music poetry art film and the novel An authoritative reference for students and scholars Book jacket Religion and the Muse , **From Peasants to Labourers** Vadim Kukushkin,2007-10-18 Written from the migration systems perspective From Peasants to Labourers places the migration of Ukrainian and Belarusan peasant workers within the context of Old and New World economic structures and state policies Through painstaking analysis of thousands of personal migrant files in the archives of the Russian consulates in Canada Kukushkin fills a void in our knowledge of the geographic origins spatial trajectories and ethnic composition of early twentieth century Canadian immigration from Eastern Europe From Peasants to Labourers also provides important insights into the nature of ethnic identity formation through an exploration of the meaning of Russianness in early twentieth century
