Sheehan,2012-04-10 An interdisciplinary collection illuminating how fashion shaped concepts and practices of femininity and modernity Kierkegaard, Religion and the Nineteenth-Century Crisis of Culture George Pattison,2002-07-04 Kierkegaard is often viewed in the history of ideas solely within the academic traditions of philosophy and theology The secondary literature generally ignores the fact that he also took an active role in the public debate about the significance of the modern age that was taking shape in the flourishing feuilleton literature during the period of his authorship Through a series of sharply focussed studies George Pattison contextualises Kierkegaard s religious thought in relation to the debates about religion culture and society carried on in the newspapers and journals read by the whole educated stratum of Danish society Pattison brings Kierkegaard into relation to not only high art and literature but also to the ephemera of his contemporary culture This has important implications for our understanding of Kierkegaard s view of the nature of religious communication in modern society **Twelve Views of Manet's Bar** Bradford Collins,2021-01-12 Bradford Collins has assembled here a collection of twelve essays that demonstrates through the interpretation of a single work of art the abundance and complexity of methodological approaches now available to art historians Focusing on Manet s A Bar at the Folies Berg re each contributor applies to it a different methodology ranging from the more traditional to the newer including feminism Marxism Lacanian psychoanalysis and semiotics By demonstrating the ways that individual practitioners actually apply the various methodological insights that inform their research Twelve Views of Manet s Bar serves as an excellent introduction to critical methodology as well as a provocative overview for those already familiar with the current discourse of art history In the process of gaining new insight into Manet s work and into the discourse of methodology one discovers that it is not only the individual painting but art history itself that is under investigation An

introduction by Richard Shiff sets the background with a brief history of Manet scholarship and suggestions as to why today's accounts have taken certain distinct directions. The contributors selected to provide a broad and balanced range of methodological approaches include Carol Armstrong, Albert Boime, David Carrier, Kermit Champa, Bradford R. Collins, Michael Paul Driskel, Jack Flam, Tag Gronberg, James D. Herbert, John House, Steven Z. Levine, and Griselda Pollock.

Feminist Subjects, Multi-media Penny Florence, 1995. Examines a range of media from paintings and family photography through to opera, film, and TV to novels and poetry, and challenges the traditional boundaries between the creative and the critical.

Penn in Ink Samuel Hughes, 2006-04-21. Any institution whose actors have included the likes of Ben Franklin, Noam Chomsky, Ezra Pound, Leon Higginbotham, Zane Grey, Kathleen Hall Jamieson, William Carlos Williams, Alan Kors, Thomas Evans, Martin Seligman, and Robert Strausz Huperto name just a few, has the potential for pretty amazing theater. The lives and times of these and other outsized characters are explored in this rich collection of essays which first appeared in *The Pennsylvania Gazette*, the University of Pennsylvania's alumni magazine.

Painting as an Art Richard Wollheim, 2023-10-17. One of the twentieth century's most influential texts on philosophical aesthetics. Painting as an Art is acclaimed philosopher Richard Wollheim's encompassing vision of how to view art. Transcending the traditional boundaries of art history, Wollheim draws on his three great passions: philosophy, psychology, and art, to present an illuminating theory of the very experience of art. He shows how to unlock the meaning of a painting by retrieving almost reenacting the creative activity that produced it. In order to fully appreciate a work of art, Wollheim argues, critics must bring a much richer conception of human psychology than they have in the past. This classic book points the way to discovering what is most profound and subtle about paintings by major artists such as Titian, Bellini, and de Kooning.

"French Paintings of Childhood and Adolescence, 1848-1886" Anna Green, 2017-07-05. The premise of Anna Green's timely and original book is that nineteenth-century representations of childhood and adolescence in paintings, but also in other forms of visual culture and in diverse written discourses of the period, are critical for understanding modernity. Whilst such well-worn signifiers for modernity as the city, the dandy, and the prostitute have been well-mined, childhood and adolescence have not. Paintings of the young produced in France from 1848 to 1886, Green contends, inform not only our understanding of modern life but also our perception of modernist or avant-garde painting. Figuring largely are Manet and the Impressionists, as well as a gamut of more traditional painters of children who are crucial in providing context for the avant-garde. Because modernity is an essentially urban phenomenon, Green's focus is primarily on the city, usually Parisian child. The painted youth of her study are organized initially by class and gender. Then the chapters are structured according to themes: parent-child relations, modes of discipline, work, education, and play, the spectacle, sexuality, that straddle the congruences among the book's triple trajectory: the young, their modernist representations, and the experience of modernity. Green's interdisciplinary approach ensures that this book will be of interest not only to art historians but to all those concerned with the cultural and social history of

Symbolist Landscapes James Kearns, 1989 Painted Love Hollis Clayson, 2003-10-30 In this engrossing book Hollis Clayson provides the first description and analysis of French artistic interest in women prostitutes examining how the subject was treated in the art of the 1870s and 1880s by such avant garde painters as Cezanne Degas Manet and Renoir as well as by the academic and low brow painters who were their contemporaries Clayson not only illuminates the imagery of prostitution with its contradictory connotations of disgust and fascination but also tackles the issues and problems relevant to women and men in a patriarchal society She discusses the conspicuous sexual commerce during this era and the resulting public panic about the deterioration of social life and civilized mores She describes the system that evolved out of regulating prostitutes and the subsequent rise of clandestine prostitutes who escaped police regulation and who were condemned both for blurring social boundaries and for spreading sexual licentiousness among their moral and social superiors Clayson argues that the

subject of covert prostitution was especially attractive to vanguard painters because it exemplified the commercialization and the ambiguity of modern life **Black Venus 2010** Deborah Willis, 2010-01-08 Analyzing contemporaneous and contemporary works that re imagine the Hottentot Venus **Cézanne** Steven Platzman, 2001 Platzman's accessible and richly illustrated book examines the stylistic development of Cézanne's self portraits in an effort to understand how the artist saw himself and others 111 b w 82 color illustrations
