

North On The Rails

Augustus Jay Du Bois

North On The Rails:

Spirit of Northern Rails David Goodyear, 2024-04-30 This book endeavours to capture the very essence of the railways in the northern UK exploring in photographs their imprint upon the landscape Railways are illustrated as they traverse the bleak fells pass by traditional cotton mills and industrial heritage stride over iconic viaducts crossing vast windswept valleys and coastal estuaries and as they share the grandeur of iconic cathedrals of both religious and railway station designs while not forgetting the intricate network of canals intertwining with the rails that eventually carried the very traffic that kept these waterways in use Here is a personal selection which I trust helps explore all that characterises and reveals the moods and atmosphere which conjure the heart and Spirit of railways traversing our northern climes Locomotives train designs and liveries past and present will help recall the rails of the 1980 s and 90 s and offer an interesting contrast to the more modern images of the present millennium With a mix of traction and train fleets both in use on passenger and freight consists this selection of images reveals their participation in capturing the heart of railways in the north Readers are invited to share this fascinating adventure and indeed the inherent Northern Spirit which permeates throughout such a journey
