Hembras Lucy Cooke, 2025-01-29 Un deslumbrante mazazo al sexismo en la ciencia Lucy Cooke echa por tierra una concepción errónea y obsoleta sobre la feminidad animal La teoría de la selección sexual de Darwin se incubó en un contexto de misoginia por lo que no tiene nada de extraño que la hembra animal saliera deformada tan marginada e incomprendida como una ama de casa victoriana En las últimas décadas la zoología y la biología evolutiva han revolucionado nuestra percepción de lo que significa ser una hembra Este libro habla de esa revolución Lucy Cooke se embarca en una vasta aventura para conocer de primera mano los estudios que están ayudando a reescribir una visión patriarcal y obsoleta de la evolución de las especies y a redefinir el papel de las féminas en ese largo camino De los límites de Madagascar a los urogallos de las montañas nevadas de California los albatros de Hawái o las orcas del mar de Salish Cooke explora las historias que se esconden en los matices de la feminidad animal para comprender hasta qué punto pueden hablarnos de la concepción de la mujer en nuestra propia especie Qué papel tienen las hembras en el mundo animal Madres entregadas Fieles compañeras El paradigma del sexo dual y pasivo Lucy Cooke nos revela en este apasionante ejercicio de desmitificación hasta qué punto durante siglos gran parte del espectro de la feminidad animal ha sido ignorado por la ciencia El resultado es un retrato excepcionalmente diverso no solo de las hembras sino también de la enredada mecánica de la evolución humana y del lugar que las mujeres han ocupado históricamente en ese relato Con inteligencia y una prosa gil Cooke nos lleva de la mano en cada uno de sus viajes alrededor del planeta para hacernos partícipes de los últimos avances de la biología evolutiva y brindarnos las armas definitivas para rebatir las mentiras sobre las que se ha afianzado la matriz patriarcal de la ciencia

El tema que recorre desde distintos puntos de vista el presente libro es la canción lírica a partir de su unidad fundamental que es la copla. El punto de partida de todas estas reflexiones es el Cancionero folklórico de México, obra de extraordinaria envergadura por la cantidad del material recopilado así como por su sistematización. En realidad estos estudios no hubieran sido posibles sin que existiera este trabajo que si bien no agota las posibilidades de un corpus lírico ni cubre todas las necesidades del investigador el material que ofrece es de una riqueza extraordinaria y claramente representativo de lo que es la lírica tradicional en México y es la fuente básica para cualquier estudio.
