World and How to Get Out Alive is rapidly being acknowledged as a classic with profound implications for the destiny of the human race With painstakingly researched facts and figures the author overturns long held conventional ideas on religion philosophy Grail legends science and alchemy presenting a cohesive narrative pointing to the existence of an ancient technospirituality of the Golden Age which included a mastery of space and time the Holy Grail the Philosopher's Stone the True Process of Ascension Laura provides the evidence for the advanced level of scientific and metaphysical wisdom possessed by the greatest of lost ancient civilizations a culture so advanced that none of the trappings of civilization as we know it were needed explaining why there is no evidence of civilization as we know it left to testify to its existence The author's consummate synthesis reveals the Message in a Bottle reserved for humanity including the Cosmology and Mysticism of mankind Before the Fall when as the ancient texts tell us man walked and talked with the gods Laura shows us that the upcoming shift is that point in the vast cosmological cycle when mankind or at least a portion of mankind has the opportunity to regain his standing as The Child of the King in the Golden Age If ever there was a book that can answer the questions of those who are seeking Truth in the spiritual wilderness of this world then surely The Secret History of the World and How to Get Out Alive is it *Keeping Faith* Fenton Johnson,2004-11 Recounts the author's spiritual journey from the abbey of Gethsemane to the San Francisco Zen Center during which he explored world religions and considered his role as a faithful skeptic *A Brief History of Misogyny* Jack Holland,2012-06-07 In this compelling powerful book highly respected writer and commentator Jack Holland sets out to answer a daunting question how do you explain the oppression and brutalization of half the world's population by the other half throughout history The result takes the reader on an eye opening journey through centuries continents and civilizations as it looks at both historical and contemporary attitudes to women Encompassing the Church witch hunts sexual theory Nazism and pro life campaigners we arrive at today's developing world where women are increasingly and disproportionately at risk because of radicalised religious belief famine war and disease Well informed and researched highly readable and thought provoking this is a refreshingly straightforward investigation into an ancient pervasive and enduring injustice It deals with the fundamentals of human existence sex love violence that have shaped the lives of humans throughout history The answer It's time to recognize that the treatment of women amounts to nothing less than an abuse of human rights on an unthinkable scale *A Brief History of Misogyny* is an important and timely book that will make a long lasting contribution to the efforts to improve those rights throughout the world *Sea of Faith* Stephen O'Shea,2009-05-26 In *Sea of Faith* O'Shea chronicles both the meeting of minds and the collisions of armies that marked the interaction of Cross and Crescent in the Middle Ages the better to understand their apparently intractable conflict today For all the great and everlasting moments of cultural interchange and tolerance in Cordoba Palermo Constantinople the ultimate geography of belief was decided on the battlefield O'Shea vividly recounts seven pivotal battles between the forces of Christianity and Islam that shaped the Mediterranean world from the loss of the Christian Middle East

to the Muslims at Yarmuk Turkey in 636 to the stemming of the seemingly unstoppable Ottoman tide at Malta in 1565 In between the battles raged round the Mediterranean from Poitiers in France and Hattin in the Holy Land during the height of the Crusades to the famed contest for Constantinople in 1453 that signaled the end of Byzantium As much as the armies were motivated by belief their exploits were inspired by leaders such as Charles Martel Saladin and Mehmet II whose stirring feats were sometimes accompanied by unexpected changes of heart *Understanding New Religious Movements* John A Saliba,2004-09-08 Discussions of any religion can easily raise passions But arguments tend to become even more heated when the religion under discussion is characterized as new Divisions around the study of new religious movements NRMs or cults or nontraditional or alternative or emergent religions are so acute that there is even controversy over what to call them John Saliba strives to bring balance to these discussions by offering perspectives on new religions from different academic perspectives history psychology sociology law theology and counseling This approach provides rich descriptions of a broad range of movements while demonstrating how the differing aims of the disciplines can create much of the controversy around NRMs The new second edition has been updated and revised throughout and includes a new foreword by noted historian of religion J Gordon Melton For classes in religion or the social sciences or for interested individuals *Understanding New Religious Movements* offers the most objective introduction possible
