Performing Culture John Tulloch,1999-10-27 Performing Culture presents a detailed and probing account of cultural studies changing fixations with theory method policy text production audience and the micro politics of the everyday John Tulloch encourages academics and students to take seriously the need to break down the separation between high and low cultural studies Tulloch s case studies show that the performance of cultural meanings occurs in forms as diverse as The Royal Shakespeare Company s Shakespeare and Chekhov productions and our everyday work and leisure encounters Drawing upon anthropological and dramatic studies of performance the book emphasizes that academic research also performs cultural meaning A central feature of the book is its reflexive consideration of the representations of culture constructed by academic experts Narrative State of the Art Michael Bamberg,2007-03-14 Narrative State of the Art which was originally published as a Special Issue of Narrative Inquiry 16 1 2006 is edited by Michael Bamberg and contains 24 chapters with a brief introduction by the editor that look back and take stock of developments in narrative theorizing and empirical work with narratives The attempt has been made to bring together researchers from different disciplines with very different concerns and have them express their conceptions of the current state of the art from their perspectives Looking back and taking stock this volume further attempts to begin to deliver answers to the questions i What was it that made the original turn to narrative so successful ii What has been accomplished over the last 40 years of narrative inquiry iii What are the future directions for narrative inquiry The contributions to this volume are deliberately kept short so that the readers can browse through them and get a feel about the diversity of current narrative theorizing and emerging new trends in narrative research It is the ultimate aim of this edited volume to stir up discussions and dialogue among narrative researchers across these disciplines and to widen and open up the territory of narrative inquiry to new and innovative work *Shakespeare and Chekhov in Production and Reception* John Tulloch,2009-05 With a focus on the canonical institutions of Shakespeare and Chekhov John Tulloch brings together for the first time new concepts of the theatrical event with live audience analysis Using mainstream theatre productions from across the globe that were highly successful according to both critics and audiences this book of case studies ethnographies of production and reception offers a combined cultural and media studies approach to analyzing theatre history production and audience Tulloch positions these concepts and methodologies within a broader current theatrical debate between postmodernity and risk modernity He also describes the continuing history of Shakespeare and Chekhov as a series of stories currently and locally told in the context of a blurring of academic genres that frames the two writers Drawn from research conducted over nearly a decade in Australia Britain and the U S Shakespeare and Chekhov in Production and Reception will be of interest to students and scholars of theatre studies media studies and audience
