Contested Nation Oliver Zimmer,2003-07-10 This book examines the ways in which the Swiss defined their national identity in the long nineteenth century in the face of a changing domestic and international background Its narrative begins in 1761 when the first Swiss patriotic society of national significance was founded and ends in 1891 when the Swiss celebrated their 600 year existence as a nation in a monumental national festival While conceding that the creation of a nation state in 1848 marked a watershed in the history of Swiss nation formation the author does not focus one sidedly as many others have done on the activities of the nationalizing state Instead he attributes a key role to the competitive and contentious struggles over

the shaping of public institutions and over the symbolic representation of the nation These struggles to which the nation state and civil society contributed in equal measure were framed increasingly along national lines
