Programs for People in Crisis Lee Ann Hoff,Nina Miller,1987 **Crisis Education and Service Program Designs**

Miracle R. Hoff, Lee Ann Hoff, 2012-04-27 Crisis Education and Service Program Designs is a guide for educators administrators and clinical trainers who may otherwise feel ill prepared for the complex tasks of teaching program development supervision and consultation in the crisis care arena The book provides a framework for more systematic inclusion of crisis content in health and human service programs Readers will find that this book fills the current gaps in knowledge and training and fosters a more holistic practice by all human service professionals It shows how effective leadership training and timely support contribute to crisis workers effective practice with people in crisis *Battered Women as Survivors* Lee Ann Hoff, 2016-05-12 First published in 1990 this book is based on a field study of domestic abuse victims and their social network members In a life history perspective using values and network analysis it uncovers the social context of a secret crime against women and reveals the relationship between personal crisis and traditional attitudes toward women marriage the family and violence This book breaks new ground by redirecting attention beyond victim blaming and the medicalization of violence to understanding domestic abuse victims as survivors who manage multiple crises despite public inattention to their plight From analysis of the women s struggles with violence and its aftermath this book proposes a new crisis paradigm which underscores the sociocultural aspects of crisis originating from violence This book will be of interest to those studying social sciences women s studies social work health and mental health professions

Domestic Abuse Various, 2021-03-11 This set of 7 volumes originally published between 1984 and 1998 provides illuminating and practical information on Domestic Abuse Aimed at both students and practitioners across a range of disciplines the volumes explore topics including provision of services for domestic abuse victims the law homelessness advice for those coming into contact with violence and victims of abuse public policy and the experience of domestic abuse victims themselves *Annual Meeting of the American Public Health Association and Related Organizations* American Public Health Association, 1988 *Social Work*, 1988 *Resources in Education*, 1997 *Feminist Perspectives on Wife Abuse* Kersti Yllo, Michele Bograd, 1988-04 Why do men batter their wives How do women define their experiences of violence Does a relationship exist between wife abuse and child abuse What responses do medical authorities have toward wife abuse A first of its kind this provocative volume brings together a well known group of academicians activists and clinicians from a variety of disciplines who approach these questions from a distinctly feminist perspective Their research is based upon the premise that gender inequality is the source of violence against women and that the social institutions of marriage and family are special contexts that may promote maintain and even support men s use of physical force against women In addition they

critically analyze lay and academic theories of wife abuse in order to develop theories that more accurately reflect the experiences of women Feminist Perspectives on Wife Abuse has a number of strengths It challenges most explicitly the ideology of the safe home offers excellent critiques of the methodology of family violence research and considers the politics of research It is the only book under review that gives as much attention to the question of why men assault as it does to how women respond It also emphasizes methods clinical practice and how to bridge research and practice I especially recommend Feminist Perspectives on Wife Abuse for courses on methods I have used it there with great success Gender Society Must be on the bookshelf of every serious thinker in the family violence area Richard J Gelles University of Rhode Island Neatly balanced between research and practice this volume addresses the challenge of how we can maintain a feminist perspective in our work with battered women The major strength of this book is its self reflective nature The book goes beyond critiques by addressing the complexity of bringing feminism into research and practice and presenting ways in which it can be dealt with It also demonstrates the great rewards that result from addressing this complexity rather than trying to manage it or ignore it AFFILIA All researchers clinicians and advocates concerned with wife abuse should consider the questions and issues raised by this volume Violence and Victims This is a well written book Many of the contributors are well known researchers in the area of family violence The volume is also amazingly coherent for an edited book Each of the chapters complements the others and there is little overlap of material Feminist Perspectives on Wife Abuse is highly recommended Contemporary Psychology For clinicians this book offers strong messages with an emphasis on empowerment of women suggesting that women are not simply helpless victims but are able to make their own decisions with appropriate intervention strategies Furthermore this book has shown the integration between feminist theories and practice The current trend toward the battered women s shelter movement and various domestic abuse intervention programs is demonstrated as a result of strong advocates whose interests correspond with feminist philosophies and beliefs This book delivers strong messages to everyone who is concerned about and involved in wife abuse and challenges current perspectives on wife abuse Sociological Inquiry Valuable resource for teaching and research It would be appropriate for courses in research methods feminist theory criminology social work or upper level courses on family violence National Women s Studies Association This book shows how good an anthology can be Isis Feminist Perspectives on Wife Abuse is a thought provoking and valuable anthology of feminist research and activism as they relate to the study and eradication of wife abuse As the title implies this book does not join in the current movement of tiptoeing around the issue of wife abuse by erroneously referring to it as spouse abuse domestic violence or family violence On the contrary this is a collection of fifteen excellent contributions by feminist women and pro feminist men who are not afraid to offer truly feminist perspectives on male violence against their intimate partners The two chapters most relevant to community psychologists address how psychological test can misdiagnose and or misrepresent the experiences of women with abusive partners In short Feminist Perspectives on Wife

Abuse is thought provoking and challenges the reader to examine her or his motives and biases to put theories into practice to create lasting social change and to work collaboratively with grassroots activists who bring their own expertise and skills to the task of ending male violence against women *The Community Psychologist* **Research in Education** ,1974
