Hepatobiliary and Pancreatic Surgery Historical Perspective *Hepatobiliary Cancer* Paul H. Sugarbaker, 2013-03-09 When

one deals with cancer the hepatobiliary malignancies present a challenge to the oncologists that can be characterized as a series of unsolved clinical and biological dilemmas Liver metastases from colorectal and other gastrointestinal malignancies hepatocellular carcinoma cholangiocarcinoma and gall bladder cancer present an array of problems but have two features in common These are high morbidity and mortality with an overall poor result from treatment Why is it that hepatobiliary cancer carries with it such a dismal prognosis First of all these diseases present for the most part in an advanced state To this point in time the oncologist has had no help from early diagnosis or screening Only the occasional patient followed by ultrasound or a tumor marker has the disease diagnosed in an asymptomatic state By the time these diseases become symptomatic curative treatment options have usually disappeared Evolution has placed the liver in a protected position in order to avoid injury to the soft parenchyma As with many other internal organs the nerve supply is extremely limited These two anatomic features result in a great lack of early warning signs of cancer [Current Catalog](#) National Library of

**an Option!** Tim Layman, 2012-05-15 On December 18 2009 Marcy Layman woke up to excruciating abdominal pain and I rushed her to Swedish Emergency in Issaquah Washington After an hour of blood tests and ultrasound treatments I was instructed to take her to a Swedish hospital in downtown Seattle Three hours of testing later we were given the news that Marcy had contracted stage IV inoperable pancreatic cancer and had three to six months to live This journal will take you on a two year spiritual medical nutritional emotional and in some cases humorous journey while we were finding stronger love and friendship between ourselves and the search for a cure for this insidious disease Marcys courageous fight against this apocalyptic disease and casting away the Grim Reapers shadow that crossed our doorstep on seven different occasions have inspired a plethora of people Some people walk through the world and never see it Marcy was not one of those people She was interesting and always curious to learn new things She was funny loving and truly creative the most cherished and giving friend that God for some reason saw fit to bless us with We always question why we were so lucky and she was absolutely devoted to her family Marcy didn't just talk her religion she lived it For the next twenty five months there were fifty chemo

treatments different drugs both pharmaceutical and naturopathic and natural remedies from the Middle East including teas mushroom and spices No rock was left unturned no treatment or drug was not explored as an option we educated ourselves about the disease and all the cures and contacted the top cancer institutes in the country exploring any and all options possible In the two plus years that I was Marcys caregiver there were a lot of rhetorical questions that I asked and had in my mind as I found out there were answers some of which I liked and some I didnt like I immediately started to look for answers for what this disease was and why it contracted my lovely bride I looked for cures over and beyond what the doctors told us and tried to explore every option possible There is a multitude of questions about cancer and in this book you will find many answers We knew one thing though death was not an option
