New Directions for Organization Theory Jeffrey Pfeffer, 1997 Pfeffer argues that the world of organizations has changed in several important ways including the increasing externalization of employment and the growing use of contingent workers the changing size distribution of organizations with a larger proportion of smaller organizations the increasing influence of external capital markets on organizational decision making and a concomitant decrease in managerial autonomy and increasing salary inequality within organizations in the US compared both to the past

and to other industrialized nations These changes and their public policy implications make it especially important to understand organizations as social entities But Pfeffer questions whether the research literature of organization studies has either addressed these changes and their causes or made much of a contribution to the discussion of public policy

Handbook of Quality-of-Life Research M. Joseph Sirgy, 2013-04-18 This handbook provides students of quality of life QOL research with an understanding of how QOL research can be conducted from an ethical marketing perspective a perspective based on positive social change The handbook covers theoretical philosophical and measurement issues in QOL research The handbook also approaches selected QOL studies in relation to various populations in various life domains The marketing approach is highly pragmatic because it allows social and behavioral scientists from any discipline to apply marketing concepts to plan social change and assess the impact of intervention strategies on the QOL of targeted populations
