Project Management in Progress : Tools and Strategies for the 90s ,1986 Project Management in Progress

International Project Management Association,1986 Professional Project Management PM with its well defined concepts and tools is now well established and can be used in the world at large But wherever PM is utilized old problems invariably recur and new problems arise It is this consideration which forms the main theme of this volume The book tackles questions such as are the currently available computerized planning tools user friendly enough for average people to use them effectively where does one find and develop the ideal project manager how can behaviour of people involved in projects be successfully predicted In addition attention is paid to new emerging issues such as PM in the Developing Countries the application of PM to the many non technological processes of change in governmental and private organizations cooperation training and follow up in smaller projects Also discussed is the practical experience gained from successes and failures in actual projects The challenge for the nineties is to meet the growing need for well trained project managers This volume is the international resource which aims to meet this challenge by providing a broad overview of the many facets of PM **Projects as Arenas for Renewal and Learning Processes**

Rolf A. Lundin,Christophe Midler,2012-12-06 There is a growing tendency to organize various aspects of business life by projects and to set up temporary organizations in a competition where speed and adaptability becomes a major necessity Organizing by projects is perceived as a good way to ensure action and to stress the importance of getting work done However there is a need to balance the stress on action so that learning capabilities are not only retained but augmented Projects as Arenas for Renewal and Learning Processes provides examples of how different types of projects function from a learning or renewal perspective taken from a wide variety of real life environments in industrial and public organizations This book illustrates the mistaken habit of assuming too much in the project area for example project notions are in fact culture dependent classical market oriented contracting business relations do not fit with the learning dimension of projects and long term learning on core competencies and product development projects need to be connected The book is also intended to represent many of the research frontiers in the project field Enhancing learning capabilities is or should be of a mutual concern to researchers and managers alike *Applied Decision Support with Soft Computing* Xinghuo Yu,2012-12-06 Soft computing has provided sophisticated methodologies for the development of intelligent decision support systems Fast advances in soft computing technologies such as fuzzy logic and systems artificial neural networks and evolutionary computation have made available powerful problem representation and modelling paradigms and learning and optimisation mechanisms for addressing modern decision making issues This book provides a comprehensive coverage of up to date conceptual frameworks in broadly perceived decision support systems and successful applications Different from other existing books this volume predominately focuses on applied decision support with soft computing Areas covered include planning management finance and administration in both the private and public sectors
