Project Cancelled The Disaster Of Britains Abandoned Aircraft Projects:

Project Cancelled Derek Wood,1990-01-01 Westland and the British Helicopter Industry, 1945-1960 Matthew R.H. Uttley,2014-05-22 This study explains how Westland dominated British helicopter production and why government funding and support failed to generate competitive all British alternatives In doing so the book evaluates broader historiographic assumptions about the purported failure of british aircraft procurement during the early post war period and considers the scope and limitations of licensed production as a government mandated procurement strategy **Project Cancelled** Derek Wood,1986 Om de mange projekter hvoraf adskillige lovende der m tte opgives som f lge af en r kke efter forfatterens mening h jst tvilsomme politiske og kommercielle beslutninger der efter 2 verdenskrig har kostet England dyrt *Britain and Defence 1945-2000* Stuart Croft,Peter Dorman,2014-06-06 This text provides a concise thematic introduction to the evolution of British defence policy since the end of the second world war **The American bomb in Britain** Ken Young,2016-07-22 This study tells the story of the strategic nuclear forces deployed to England by the United States from the late 1940s and details the secret agreement made to launch atomic strikes against the USSR Drawing on more than a decade s research in archives on both sides of the Atlantic hitherto unknown aspects of Cold War history are revealed The book deals with the United States Air Force s USAF relations with their British hosts as well as tensions between the American commands with the continuous struggle to develop and safeguard the expanding base network and with the losing battle to provide the deployed bomber forces with an adequate air defence This challenging analysis based on massive archival sources will provoke and stimulate Cold War historians and air power enthusiasts alike and be read by those many veterans who served in the units of Strategic Air Command and the USAF in Europe during that brief but dangerous period of nuclear history *Secret Wings of World War II* Lance Cole,2015-06-30 There are many myths and legends surrounding the advanced German aeronautical technology of the Second World War There are also facts and proven events Yet within these stories and behind these facts lie conspiracy theories mistaken assumptions and denials that seem to contradict the evidence So what really happened How far ahead were the German scientists And of even greater interest why and how There have been other books about advanced German wartime aeronautics yet few authors have fully examined the detail of the designs and their relevance to the fighter and bomber legends of the 1950s and 60s let alone the current crop of military and civil all wing or blended wing aircraft This book charts the story from it origins through current day innovations and beyond into the all wing future of tomorrow **The British Aircraft Industry and American-led Globalisation** Takeshi Sakade,2021-12-09 Sakade challenges the narrative that the focus of British manufacturing went from Empire to Europe and argues rather that following the Second World War the key relationship was in fact trans Atlantic There is a commonly accepted belief that during the twentieth century British manufacturing declined irreparably that Britain lost its industrial hegemony But this is too simplistic In fact in the decades after 1945 Britain staked out a new role for itself as a key

participant in a US led process of globalisation Far from becoming merely a European player the UK actually managed to preserve a key share in a global market and the British defence industry was to a large extent successfully rehabilitated Sakade returns to the original scholarly parameters of the decline controversy and especially questions around post war decline in the fields of high technology and the national defence industrial base Using the case of the strategically critical military and civil aircraft industry he argues that British industry remained relatively robust A valuable read for historians of British aviation and more widely of 20th century British Industry Nuclear Illusion, Nuclear Reality R. Moore,2010-05-19 A study of the political military and technical aspects of Britain s nuclear weapons programme under the Macmillan government contrasting Britain s perceived political decline with its growth in technological mastery and military nuclear capability Important reading for anyone interested in the history and military technology of the cold war *Fairey Rotodyne* David Gibbings,2011-11-08 The Fairey Rotodyne was a large British compound helicopter designed and built by the Fairey Aviation Company and intended for commercial and military applications It was considered to be one of the iconic aviation projects of the 1950s 60s and a bright future was planned for the aircraft Widely accepted to be a revolutionary design it was economically viable fast and capable of vertical take off and landing from city centre heliports However despite the proven feasibility of this bold concept the Rotodyne project was terminated in 1962 due to escalating development costs and unresolved technical issues This book seeks to fill a gap in aviation literature on the history of the Rotodyne an aircraft ahead of its time Winner of Hampshire Libraries Special Collections Award 2010 Rolling Thunder Ivan Rendall,1999 This first history of jet combat by an ex RAF flier will fascinate students of military history as well as all who thrilled to the rugged hero culture of fighter pilots popularized in the film Top Gun of photos Index *The Little Book of Aviation* Norman Ferguson,2013-05-01 The Little Book of Aviation is a collection of facts figures and interesting stories from the world of flight Sad humorous baffling and astounding stories abound from the pioneering days of the Wright Brothers to the present day and covering everything from great milestones famous names who ve served and the greatest of aircraft icons phantom pilots and aircraft and a glossary of slang the origins of plane spotting and unusual aircraft names great feats and enduring mysteries lucky escapes and great aircraft in the movies the trivia is limitless and will appeal to everyone whether you want help telling your Spitfire from your Messerschmitt or you know a Spitfire I from a Spitfire II *On the Wings of War and Peace* Randall Wakelam,William March,Peter Rayls,2023-11-01 Bringing together leading researchers on Canadian air power On the Wings of War and Peace captures the history of the Royal Canadian Air Force RCAF during the first decades of the Cold War a period which marked the zenith of air force accomplishments in peacetime Canada The volume covers topics that go beyond straightforward flying operations examining policies that drove operational needs and capabilities and the personnel technical and logistical functions that made those operations possible With contributions written by former RCAF members who have both expert and personal knowledge of their topics On the Wings of War and Peace brings new

perspectives to the RCAF's role in shaping the modern Canadian nation *The Anglosphere Challenge* James C. Bennett, 2004-10-07 Despite repeated predictions of the demise of America and the English speaking nations as the world's predominant culture James C Bennett believes that this gap will widen in the coming decades Coining the term anglosphere to describe a loose coalition based on a common language and heritage Bennett believes that traits common to these countries a particularly strong and independent civil society openness and receptivity to the world its people and ideas and a dynamic economy have uniquely positioned them to prosper in a time of dramatic technological and scientific change In a wide ranging exploration back to the Industrial Revolution and into the future The Anglosphere Challenge gives voice to a growing movement on both sides of the Atlantic **In Turbulent Skies** Peter Reese, 2020-01-24 In 1945 confidence in British aviation was sky high Yet decades later the industry had not lived up to its potential What happened The years that followed the war saw the Brabazon Committee issue flawed proposals for civil aviation planning Enforced cancellations restricted the advancement of military aircraft compounded later on by Defence Minister Duncan Sandys abandoning aircraft to fixate solely on missiles Commercially Britain's small and neglected domestic market hindered the development of civilian airliners In the production of notorious aircraft the inauspicious Comet came from de Havilland's attempts to gain an edge over its American competitors The iconic Harrier jump jet and an indigenous crop of helicopters were squandered while unrealistic performance requirements brought about the cancellation of TSR2 Peter Reese explores how repeated financial crises a lack of rigour and fatal self satisfaction led British aviation to miss vital opportunities across this turbulent period in Britain's skies Fighter Wing Tom Clancy, John Gresham, 2007-09-04 Now for the first time an insider's look at an Air Force combat wing the planes the technology and the people with Tom Clancy as your guide Tom Clancy's previous explorations of America's armed forces Submarine and Armored Cav revealed exclusive never before seen information on the people and technology that protect our nation Now the acclaimed author of Clear and Present Danger and Debt of Honor takes to the skies with the U S Air Force's elite the Fighter Wing With his compelling style and unerring eye for detail Clancy captures the thrill of takeoff the drama of the dogfight and the relentless dangers our fighter pilots face every day of their lives showing readers what it really means to be the best of the best Fighter Wing includes Detailed analyses of the Air Force's premier fighter planes including the F 15 Eagle Exclusive photographs illustrations and diagrams An insider's look at the people behind the planes and weapons Combat strategies and training techniques used by the U S Air Force **From Airbus to Zeppelin** Norman Ferguson, 2016-10-06 A must have A Z guide with fascinating facts figures quotes and statistics from the high flying world of aviation From Airbus to Zeppelin has it all D is for Desert Island Discs just what would Dambuster Guy Gibson have liked while marooned on his desert island E is for Everest did you know that two Scotsmen were the first to fly over the magnificent mountain F is for Faster than the sun which aircraft was the first to fly faster than the Earth's rotation A must read for anyone interested in the world of aviation and may win the reader a pub quiz or two
