Project Omega: Eye of the Beast James Ernie Acre, 2023-05-08      **Project Omega** James Ernie Acre, 2023-07-10 This book was published in 1999 and has been out of print for a number of years It is my memoir of my tour with MACV SOG running recon at CCS Command and Control South      **Deception in War** Jon Latimer, 2003-04-29 From the Trojan Horse to Gulf War subterfuge this far reaching military history examines the importance and ingenuity of wartime deception campaigns The art of military deception is as old as the art of war This fascinating account of the practice draws on conflicts from around the world and across millennia The examples stretch from the very beginnings of recorded military history Pharaoh Ramses II s campaign against the Hittites in 1294 B C to modern times when technology has placed a stunning array of devices into the arsenals of military commanders Military historians often underestimate the importance of deception in warfare This book is the first to fully describe its value Jon Latimer demonstrates how simple tricks have been devastatingly effective He also explores how technology has increased the range and subtlety of what is possible including bogus radio traffic virtual images even false smells Deception in War includes examples from land sea and air to show how great commanders have always had as Winston Churchill put it that indispensable element of legerdemain an original and sinister touch which leaves the enemy puzzled as well as beaten      Secret Green Beret Commandos in Cambodia Fred S. Lindsey, 2012 We could call this book Special Operations Recon Mission Impossible A small group of highly trained resourceful US Special Forces SF men is asked to go in teams behind the enemy lines to gather intelligence on the North Vietnamese Army units that had infiltrated through Laos and Cambodia down the Ho Chi Minh trails to their secret bases inside the Cambodian border west of South Vietnam The covert reconnaissance teams of only two or three SF men with four or five experienced indigenous mercenaries each were tasked to go into enemy target areas by foot or helicopter insertion They could be 15 kilometers beyond any other friendly forces with no artillery support In sterile uniforms with no insignia or identification if they were killed or captured their government would deny their military connection The enemy had placed a price on their heads and had spies in their Top Secret headquarters known as SOG SOG had three identical recon ground units along the border areas This book tells the history of Command and Control Detachment South CCS The CCS volunteer warriors and its Air Partners the Army and Air Force helicopter transport and gunship crews who lived and fought together and sometimes died together This is the first published history of CCS as compiled by its last living commander some forty years after they were disbanded It tells of the struggles and intrigue involved in SOG s development as the modern day legacy of our modern Special Operations Commands Forbidden to tell of their experiences for over twenty years their After Action Reports destroyed even before they were declassified surviving veterans team together to tell how Recon men wounded averaged 100 percent and SOG became the most highly decorated unit in Vietnam and all were awarded the Presidential Unit Citation      *Journal of Special Operations Medicine* , 2003      **Subject Guide to Books in Print** , 2001
