Projecting The Shadow The Cyborg Hero In American Film:

Projecting the Shadow Janice Hocker Rushing, Thomas S. Frentz, 1995-12-01 Part human part machine the cyborg is the hero of an increasingly popular genre of American film and as Janice H. Rushing and Thomas S. Frentz so provocatively suggest a cultural icon emblematic of an emergent postmodern mythology Using the cyborg film as a point of departure Rushing and Frentz examine how we rework Western myths and initiation rites in the face of new technologies Through in depth examinations of six representative films *Jaws* *The Deer Hunter* *The Manchurian Candidate* *Blade Runner* *The Terminator* and *Terminator 2* Rushing and Frentz track the narrative's thread from the hunter to his technological nemesis demonstrating how each film represents an unfolding hunter myth For each movie Rushing and Frentz show how uninitiated male hunters slowly lose control over their weapons In *Jaws* a soft man dominated by technology can reacquire the heroic hunter qualities he needs by teaming up with a savage man and a technological man In doing so he can still conquer the prey *The Manchurian Candidate* charts how technology can turn a human into a weapon *Blade Runner* perfects the artificial human with its manufactured replicants who are more than human and *The Terminator* introduces a female hunter who leads humanity in its struggle against technology

Remaking the Frankenstein Myth on Film Caroline Joan S. Picart, 2012-02-01 Focusing on films outside the horror genre this book offers a unique account of the Frankenstein myth's popularity and endurance Although the Frankenstein narrative has been a staple in horror films it has also crossed over into other genres particularly comedy and science fiction resulting in such films as *Abbott and Costello Meet Frankenstein* *Young Frankenstein* *The Rocky Horror Picture Show* *Bladerunner* and the *Alien* and *Terminator* film series In addition to addressing horror's relationship to comedy and science fiction the book also explores the versatility and power of the Frankenstein narrative as a contemporary myth through which our deepest attitudes concerning gender masculine versus feminine race Same versus Other and technology natural versus artificial are both revealed and concealed The book not only examines the films themselves but also explores early drafts of film scripts scenes that were cut from the final releases publicity materials and reviews in order to consider more fully how and why the Frankenstein myth continues to resonate in the popular imagination

Men in Color Josep M. Armengol, 2011-01-18 Comprising seven different chapters the collection *Men in Color* attempts to analyze and revisit the representation of ethnic masculinities both white and non white in and through contemporary U.S. literature and cinema If most of the existing studies on masculinity and race have centered on one specific model of racialized masculinities *Men in Color* attempts to provide an introductory perspective on different racialized masculinities simultaneously including African American Asian American Chicano Arab American and also white masculinity which is analyzed as another ethnic and gendered construct rather than as a paradigm of normalcy and universality By exploring several ethnic masculinities in relation to each other the present volume aims to highlight both the differences and the similarities between different patterns of masculinity showing how even as gender is inflected by race certain aspects or

features of masculinity remain unchanged across the ethnic board Ultimately the volume as a whole illustrates both the changing nature of masculinities as well as the recurrence of certain stereotypes such as the hypersexualization and or the feminization of ethnic males which recur in and across several ethnicities The constant tension and intersection between gender and race is the subject of this book which hopes to contribute some notes and reflections on ethnic masculinities to the much more complex and larger discussion about gender and racial identities in our increasingly multicultural and globalized 21st century world

Resisting Rape Culture through Pop Culture Kelly Wilz,2019-12-09 Resisting Rape Culture through Pop Culture Sex After MeToo provides audiences with constructive models of affirmative consent tender masculinity and pleasure in popular culture that work to challenge toxic dominant and hegemonic constructions While numerous scholars have illustrated the many ways mediated culture shape social understandings of sexual violence this book analyzes texts that might serve to resist rape culture This project locates how these texts manufacture cinematic or televisual narratives and in turn work to create new realities that encourage cultural and social change Kelly Wilz analyzes the ways in which we as a culture tend to understand sex through visual media and dominant cultural myths while highlighting productive texts which might serve as a possible corrective to the ways in which sex is ritualized by rules that legitimize violence Through the lens of productive criticism Wilz examines how language and dominant ideologies around rape culture and rape myths reinforce systemic violence and how visual texts might work to reimagine how we might disrupt those ideologies and create new ways to engage in conversations around intimacy and violence By centering the voices within the MeToo movement who actively work to de normalize sexual assault and abuse these models provide a useful counter to the deluge of dehumanizing narratives about survivors and sexualized violence Scholars of pop culture women s studies media studies and social justice will find this book particularly useful

American Political Scandal David R. Dewberry,2015-08-13 In this holistic examination of political scandal in the United States David Dewberry argues convincingly that such scandals follow a consistent narrative centered largely on media coverage and politician performance rather than the actual corruption or ethics violation committed In making this argument

he also provides an analytical framework for understanding the patterns underlying scandals regardless of their unique political contexts Dewberry dissects four major examples Teapot Dome Watergate Iran Contra and Clinton Lewinsky and explores the roles of various constituencies involved in creating reacting to and mediating the scandal What is the true role of journalism within the context of scandal What persuasive techniques do politicians employ to develop and perpetuate scandals What motives and values bring scandals to a close In addition to the core cases Dewberry incorporates briefer examples from contemporary and ongoing controversies including Anthony Weiner s sexting scandal money and sex in Congress how cover ups have gone digital and Chris Christie s Bridgegate The result is a fascinating and thoughtful look at the relationships among political discourse free speech and democracy **Monsters in and Among Us** Caroline Joan Picart,Cecil E.
