Geoff Mayer

Projecting Paranoia Conspiratorial Visions In American Film:

Projecting Paranoia Ray Pratt, 2001 A wide ranging and idiosyncratic look at sixty years of politics and film that uncovers how American movies have mirrored and even challenged anxieties and paranoid perceptions embedded in American society since the start of the Cold War The first book to take a sweeping look at 60 years of film and analyze them thematically

Projecting the End of the American Dream Gordon B. Arnold, 2013-04-09 This provocative book reveals how Hollywood films reflect our deepest fears and anxieties as a country often recording our political beliefs and cultural conditions while underscoring the darker side of the American way of life Long before the war in Iraq and the economic crises of the early 21st century Hollywood has depicted a grim view of life in the United States one that belies the prosperity and abundance of the so called American Dream While the country emerged from World War II as a world power collectively our sense of security had been threatened The result is a cinematic body of work that has America's decline and ruin as a central theme The author draws from popular films across all genres and six decades to illustrate how the political climate of the times influenced their creation Projecting the End of the American Dream Hollywood's Visions of U S Decline combines film history social history and political history to reveal important themes in the unfolding American narrative Discussions focus on a wide variety of films including Rambo Planet of the Apes and Easy Rider

Haig and Kitchener in Twentieth-Century Britain Stephen Heathorn, 2016-04-22 Lord Kitchener and Lord Haig are two monumental figures of the First World War Their reputations both in their lifetimes and after their deaths have been attacked and defended scrutinized and contested They have been depicted in film print and public memorials in Britain and the wider world and new biographies of both men appear to this day The material representations of Haig and Kitchener were shaped used and manipulated for official and popular ends by a variety of groups at different times during the twentieth century The purpose of this study is not to discover the real individual nor to attack or defend their reputations rather it is an exploration of how both men have been depicted since their deaths and to consider what this tells us about the nature and meaning of First World War commemoration While Haig's representation was more contested before the Second World War than was Kitchener's with several constituencies trying to fashion and use Haig's memory the Government the British Legion ex servicemen themselves and bereaved families it was probably less contested but overwhelmingly more negative than Kitchener's after the Second World War The book sheds light on the notion of heroic masculinity questioning in particular the degree to which the image of the common soldier replaced that of the high commander in the popular imagination and explores how the military heritage in the twentieth century came into collision with the culture of modernity It also contributes to ongoing debates in British historiography and to the larger debates over the social construction of memory the problematic relation between what is considered heritage and history and the need for historians to be sensitive and attentive to the interconnections between heritage and history and their contexts

Thomas Pynchon Simon Malpas, Andrew

Taylor,2015-08-01 Now available in paperback this is a comprehensive study of the most influential figure in postwar American literature Over a writing career spanning more than fifty years Thomas Pynchon has been at the forefront of America s engagement with postmodern literary possibilities In chapters that address the full range of Pynchon s career from his earliest short stories and first novel *V* to his most recent work this book offers highly accessible and detailed readings of a writer whose work is indispensable to understanding how the American novel has met the challenges of postmodernity The authors discuss Pynchon s relationship to literary history his engagement with discourses of science and utopianism his interrogation of imperialism and his preoccupation with the paranoid sensibility Invaluable to Pynchon scholars and to everyone working in the field of contemporary American fiction this study explores how Pynchon s complex narratives work both as exuberant examples of formal experimentation and as serious interventions in the political health of the nation

Affect Poetics of the New Hollywood Hauke Lehmann,2019-12-02 How is affective experience produced in the cinema And how can we write a history of this experience By asking these questions this study by Hauke Lehmann aims at rethinking our conception of a critical period in US film history the New Hollywood as a moment of crisis that can neither be reduced to economic processes of adaption nor to a collection of masterpieces Rather the fine grained analysis of core films reveals the power of cinematic images to affect their audiences to confront them with the new The films of the New Hollywood redefine the divisions of the classical genre system in a radical way and thereby transform the way spectators are addressed affectively in the cinema The study describes a complex interplay between three modes of affectivity suspense paranoia and melancholy All three each in their own way implicate spectators in the deep seated contradictions of their own feelings and their ways of being in the world their relations to history to society and to cultural fantasy On this basis *Affect Poetics of the New Hollywood* projects an original conception of film history as an affective history which can be re written up to the present day

Film Blackness Michael Boyce Gillespie,2016-08-25 In *Film Blackness* Michael Boyce Gillespie shifts the ways we think about black film treating it not as a category a genre or strictly a representation of the black experience but as a visual negotiation between film as art and the discursivity of race Gillespie challenges expectations that black film can or should represent the reality of black life or provide answers to social problems Instead he frames black film alongside literature music art photography and new media treating it as an interdisciplinary form that enacts black visual and expressive culture Gillespie discusses the racial grotesque in Ralph Bakshi s *Coonskin* 1975 black performativity in Wendell B Harris Jr s *Chameleon Street* 1989 blackness and noir in Bill Duke s *Deep Cover* 1992 and how place and desire impact blackness in Barry Jenkins s *Medicine for Melancholy* 2008 Considering how each film represents a distinct conception of the relationship between race and cinema Gillespie recasts the idea of black film and poses new paradigms for genre narrative aesthetics historiography and intertextuality

Madness in Cold War America Alexander Dunst,2016-08-19 This book tells the story of how madness came to play a prominent part in America s political and cultural debates It argues that metaphors

that storytelling can take place in a variety of media and often combines signs belonging to different semiotic categories visual auditory linguistic and perhaps even tactile The essays gathered in this volume apply the newly gained awareness of the expressive power of media to particular texts demonstrating the productivity of a medium aware analysis Through the examination of a wide variety of different media ranging from widely studied such as literature and film to new neglected or non standard ones such as graphic novels photography television musicals computer games and advertising they address some of the most fundamental questions raised by the medial turn in narratology how can narrative meaning be created in media other than language how do different types of signs collaborate with each other in so called multi modal works and what new forms of narrativity are made possible by the emergence of digital media **Selling the CIA** David S.

McCarthy, 2018-06-14 Dubbed the Year of Intelligence 1975 was not a good year for the Central Intelligence Agency CIA Caught spying on American citizens the agency was under investigation indicted in shocking headlines its future covert operations at risk Like so many others caught up in public scandal the CIA turned to public relations This book tells what happened next In the mid 1970s CIA officials developed a public relations strategy to fend off the agency's critics In *Selling the CIA* David Shamus McCarthy describes a PR campaign that proceeded with remarkable continuity and effectiveness through the decades and regimes that followed He deftly chronicles the agency's efforts to project an image of openness and accountability even as it did its best to put a positive spin on secrecy more openness with greater secrecy in the Orwellian words of one director of public affairs A tale of machinations and manipulation worthy of Hollywood McCarthy's work exposes a culture of secrecy unwittingly sustained by the forces of popular culture a public relations offensive working on all fronts to perpetuate the CIA's mystique as the heroic guardian of national security Our failures are known our successes are not has been the guiding mantra of this initiative *Selling the CIA* spotlights how the agency's success in outmaneuvering Congress and avoiding public scrutiny stands as a direct threat to American democracy *Surveillance on Screen* Sébastien Lefait, 2013 The theme of surveillance has become an increasingly common element in movies and television shows perhaps as a response to the sense that the world is now virtually under watch But the recent surge of this filmic device calls for an explanation that transcends the basic assumption that media illustrates the changes of society The persistent and growing presence of surveillance in cinematic productions is not merely a reflection of the advent of surveillance societies but rather an aesthetic adaptation to the evolution of watching patterns In *Surveillance on Screen* Monitoring Contemporary Films and Television Programs Sébastien Lefait examines this ever increasing phenomenon Drawing on the rapidly developing field of surveillance studies Lefait offers an in depth analysis of television shows and films which complement current theoretical approaches to those subjects This unique combination of surveillance theories with the latest concepts of film television and Internet studies is based on a large and diversified range of popular series and films including the shows *24* *Lost* and *Survivor* as well as such films as *Minority Report* *Paranormal Activity* *The Truman Show* and the on screen version of George

Orwell's Nineteen Eighty Four Written from a perspective that does not limit itself to a reflection of society approach this book explores both how cinema shapes our experience of surveillance and how surveillance influences our viewing of cinema Lefait follows the various identifiable stages in cinema's experimental use of surveillance studying the impact of technology on both the watcher and the watched In addition to film and media studies this book will be of interest to those engaged in information technology sociology and of course surveillance studies **Politics in Popular Movies** John S.
