## Projects In History:

**The Silt Project** Toni Rae Linenberger, 1997 *History of the Periyár Project*, 1899 **The Historic Yuma Project**  
Christine Pfaff, Rolla L. Queen, David Clark, 1999 **The Oral History Manual** Barbara W. Sommer, Mary Kay  
Quinlan, 2009-06-16 Guides readers through the process of doing oral history **Exploring Nevada Through**  
**Project-Based Learning** Carole Marsh, 2016-04-01 Exploring Nevada through Project Based Learning includes 50 well  
thought out projects designed for grades 3-5. In assigning your students projects that dig into Nevada's geography, history, government, economy, current events, and famous people, you will deepen their appreciation and understanding of Nevada  
while simultaneously improving their analytical skills and ability to recognize patterns and big picture themes. Project based  
learning today is much different than the craft-heavy classroom activities popular in the past. Inquiry, planning, research,  
collaboration, and analysis are key components of project based learning activities today. However, that doesn't mean  
creativity, individual expression, and fun are out. They definitely aren't. Each project is designed to help students gain  
important knowledge and skills that are derived from standards and key concepts at the heart of academic subject areas.  
Students are asked to analyze and solve problems, to gather and interpret data, to develop and evaluate solutions to support  
their answers with evidence, to think critically in a sustained way, and to use their newfound knowledge to formulate new  
questions worthy of exploring. While some projects are more complex and take longer than others, they all are set up in the  
same structure. Each begins with the central project, driving questions, proceeds through research and supportive questions,  
has the student choose a presentation option, and ends with a broader view inquiry. Rubrics for reflection and assessments  
are included, too. This consistent framework will make it easier for you to assign projects and for your students to follow along  
and consistently meet expectations. Encourage your students to take charge of their projects as much as possible. As a teacher,  
you can act as a facilitator and guide. The projects are structured such that students can often work through the process on  
their own or through cooperation with their classmates. **Exploring California Through Project-Based Learning**
