The Failure of Grassroots Pan-Africanism Opoku Agyeman, 2003-01-01 A work of masterful scholarship and powerful feeling The Failure of Grassroots Pan Africanism traces the political history of a Pan Africanist inspired non aligned trade union federation the All African Trade Union Federation AATUF Set up in 1961 this federation s mission was to provide organizational impetus to the cause of the political unification of Africa s multitude of artificial nonviable states This thoroughly researched analysis establishes the multiple causes of the AATUF s tragic failure and author Opoku Agyeman examines key players such as the sponsoring radical nationalist African political leaderships the World Federation of Trade Unions the American AFL CIO and the CIA At the dawn of the twenty first century few scholarly tasks are as urgent as exploring the creative options that exist for Africa s regeneration Agyeman furthers this task in his examination of the appropriate modalities for forging collaboration between African states No other book on Africa combines such strong scholarship with an uncompromising Pan Africanist outlook

Peasants and Proletarians Robin Cohen, Peter C. W. Gutkind, Phyllis Brazier, 2023-07-07 Originally published in 1979 this book examines differing forms of international interracial working class action and the relationship between workers struggles in the periphery and those in advanced capitalist countries It analyses the nature of class alliances forged in the countryside and the urban sprawls of the developing world among workers students and the unemployed The volume draws on theoretical debates and detailed empirical studies dealing with a wide range of countries in Asia Latin America Africa and the Caribbean Each of the sections is preceded by a linking editorial comment and the editors also provide an introductory overview Reviews of the original edition of Peasants and Proletarians This is an important book both for historians and for social scientists It draws attention to a previously underestimated labour force that has grown into a significant indeed indispensable part of the international economic structure Lynda Shaffer Journal of Asian Studies 39 4 1980 This book offers a truly impressive and solid compilation of material on labour in the Third World The sheer range of scholarship concerning many different types of workers over a timescale of nearly 100 years in countries and political situations as various for example as Lagos in the 1890s Jamaica in the 1930s and socialist Algeria or Chile under Allende is sometimes bewildering but never fails to stimulate and absorb the reader Paul Kennedy Journal of Modern African Studies 19 4 1981 Peasants and Proletarians is a very major contribution The editors introduction though brief successfully raises many of these issues and outlines an approach to them The twenty one readings concerned with early forms of resistance rural workers strategies of working class action migrant workers in

advanced capitalist states and contemporary struggles offer geographical and intellectual breadth in their exploration of the diversity of Third World experience Joel Samoff ASA Review of Books Vol 6 1980 *Kenya and the Politics of a Postcolony* Wanjala S. Nasong'o, 2024-08-06 This book sets out to probe explore and evaluate the betrayal of anticolonial nationalism in Kenya Contemporary Kenya's emergence is rooted in the colonial enterprise its deleterious effects and the subsequent decolonization spearheaded by a fierce anti colonial nationalism that was embodied in freedom struggles at the cultural political and military levels As a settler colony the colonial settlers hived off millions of hectares of the best land in the highland areas of Kenya and appropriated them for themselves thereby generating a large mass of the landless This land alienation constituted one of the most deeply felt grievances which together with the exclusivist exploitative and oppressive colonial system inflamed anti colonial nationalism that undergirded the struggle for independence The expectation on the part of the masses was that independence would bring about social justice restitution of the stolen lands and a government based on the will and aspirations of the governed Political developments soon after independence however demonstrated the extent of betrayal of the cause of anti colonial nationalism which has remained the reality to date This book covers the extent of this sense of betrayal from the time of independence to the present It begins by locating contemporary Kenya within the colonial context then proceeds to thematic issues of betrayal including the fall out between President Kenyatta and Vice President Odinga over ideology and issues of development which constituted the first betrayal the scourge of bureaucratic corruption and rent seeking the question of land and associated historical injustices and electoral malpractice since the return of multiparty politics in 1992 to the most recent elections of 2022 The implications of these dynamics for the future of the Kenyan polity are delineated and discussed *Class and Economic Change in Kenya* G. N. Kitching, 1980-01-01 This historical analysis is followed by a theoretical discussion of its implications for such issues as the mode of production operative in Kenya the type of class analysis which is appropriate for the country the role of the state in capital accumulation and class formation and the possible relevance of Marxist value theory to the analysis of exploitation in Kenya This book sets new standards for the study of the process of drift into dependency and of the role of the state in the direction of a political economy It will be invaluable not only to Africanists but to all those involved in the study of the social political and economic structure of Third World countries *Labor in Colonial Kenya after the Forced Labor Convention, 1930-1963* Opolot Okia, 2019-08-23 This book advances research into the government forced labor used widely in colonial Kenya from 1930 to 1963 after the passage of the International Labor Organization's Forced Labour Convention While the 1930 Convention intended to mark the suppression of forced labor practices various exemptions meant that many coercive labor practices continued in colonial territories Focusing on East Africa and the Kenya Colony this book shows how the colonial administration was able to exploit the exemption clause for communal labor thus ensuring the mobilization of African labor for infrastructure development As an exemption communal labor was not defined as forced labor but instead justified as a

continuation of traditional African and community labor practices Despite this ideological justification the book shows that communal labor was indeed an intensification of coercive labor practices and one that penalized Africans for non compliance with fines or imprisonment The use of forced labor before and after the passage of the Convention is examined with a focus on its use during World War II as well as in efforts to combat soil erosion in the rural African reserve areas in Kenya The exploitation of female labor the Mau Mau war of the 1950s civilian protests and the regeneration of communal labor as harambee after independence are also discussed

Davis, David de Vries, Lex Heerma van Voss, Lidewij Hesselink, Klaus Weinbauer, 2017-09-29 Workers who loaded and unloaded ships have formed a distinctive occupational group over the past two centuries As trade expanded so the numbers of dock labourers increased and became concentrated in the major ports of the world This ambitious two volume project goes beyond existing individual studies of dock workers to develop a genuinely comparative international perspective over a long historical period Volume 1 contains studies of 22 major ports worldwide Built around an agreed framework of issues these port studies examine the type of workers who dominated dock labour their race class and ethnicity the working conditions of dockers and the role of government as employer arbitrator and supporter The studies also detail how dockers organized their labour patterns of strike action and involvement in political organizations The structure of the port city is also outlined and descriptions given of the waterside environment These areas of investigation form the basis for a series of 11 thematic studies which comprise Volume 2 Drawing on the information provided in the port studies these essays identify important aspects and recurring themes and explain how and why particular cases diverge from the rest The final chapter of the book synthesizes the various approaches taken to offer a model which suggests several configurations of dock labour and presents suggestions for future research This major scholarly achievement represents the most sustained attempt to date to provide a comparative international history of dock labour An annotated bibliography completes this essential reference work

Decolonization and African Society Frederick Cooper,1996-08-28 This detailed and authoritative volume changes our conceptions of imperial and African history Frederick Cooper gathers a vast range of archival sources in French and English to achieve a truly comparative study of colonial policy toward the recruitment control and institutionalization of African labor forces from the mid 1930s when the labor question was first posed to the late 1950s when decolonization was well under way Professor Cooper explores colonial conceptions of the African worker and shows how African trade union and political leaders used the new language of social change to claim equality and a share of power This helped to persuade European officials that the modern Africa they imagined was unaffordable Britain and France could not reshape African society As they left the continent the question was how they had affected the ways in which Africans could reorganize society themselves
