Kenneth R. Himes, 2025-05-01 A study of the deep historical roots of Catholic Social Teaching What is often neglected in studies of Catholic Social Teaching CST is the underlying theology that it presumes especially the biblical and patristic roots that have forged a broader tradition of social thought than is found in the more recent writings of the Catholic hierarchy Sacred and Social fills this gap by providing an extended analysis of the Catholic understanding of the human person especially the beliefs in human dignity and humanity's essentially social nature Himes argues that before the documents of the modern papacy a rich tradition already shaped and informed the Catholic lens on social reality He illustrates the theological basis for the ethical commitments of CST with the fundamental theological themes creation incarnation Trinity Body of Christ that gave rise to the Catholic social imagination **Looking to the Future** Mahnoush H. Arsanjani, Jacob Cogan, 2010-10-25 Throughout his career Michael Reisman emphasized law's function in shaping the future In this wide ranging collection of essays major thinkers in the international legal field address the goals of the twenty first century and how international law can address the needs of the world community Prologue Quarterly , 1957 Rightlessness in an Age of Rights Ayten Gündoğdu, 2014-12-09 There have been remarkable developments in the field of human rights in the past few decades Still millions of asylum seekers refugees and undocumented immigrants continue to find it challenging to access human rights In this book Ayten Gündoğdu builds on Hannah Arendt's analysis of statelessness and argues that these challenges reveal the perplexities of human rights Human rights promise equal personhood regardless of citizenship status yet their existing formulations are tied to the principle of territorial sovereignty This situation leaves various categories of migrants in a condition of rightlessness with a very precarious legal political and human standing Gündoğdu examines this problem in the context of immigration detention deportation and refugee camps Critical of the existing system of human rights without seeing it as a dead end she argues for the need to pay closer attention to the political practices of migrants who challenge their condition of rightlessness and propose new understandings of human rights What arises from this critical reflection on human rights is also a novel reading of Arendt one that offers refreshing insights into various dimensions of her political thought including her account of the human condition the social question and the right to have rights Rightlessness

in an Age of Rights is a valuable addition to the literature on Hannah Arendt and a vital way of rethinking human rights as they relate to contemporary issues of immigration A Shining Thread of Hope Darlene Clark Hine, Kathleen Thompson, 2009-10-14 At the greatest moments and in the cruelest times black women have been a crucial part of America's history Now the inspiring history of black women in America is explored in vivid detail by two leaders in the fields of African American and women's history A Shining Thread of Hope chronicles the lives of black women from indentured servitude in the early American colonies to the cruelty of antebellum plantations from the reign of lynch law in the Jim Crow South to the triumphs of the Civil Rights era and it illustrates how the story of black women in America is as much a tale of courage and hope as it is a history of struggle On both an individual and a collective level A Shining Thread of Hope reveals the strength and spirit of black women and brings their stories from the fringes of American history to a central position in our understanding of the forces and events that have shaped this country *Handbook of Global Media Ethics* Stephen J.A. Ward, 2021-09-02 This handbook is one of the first comprehensive research and teaching tools for the developing area of global media ethics The advent of new media that is global in reach and impact has created the need for a journalism ethics that is global in principles and aims For many scholars teachers and journalists the existing journalism ethics e.g. existing codes of ethics is too parochial and national It fails to provide adequate normative guidance for a media that is digital global and practiced by professional and citizen A global media ethics is being constructed to define what responsible public journalism means for a new global media era Currently scholars write texts and codes for global media teach global media ethics analyse how global issues should be covered and gather together at conferences round tables and meetings However the field lacks an authoritative handbook that presents the views of leading thinkers on the most important issues for global media ethics This handbook is a milestone in the field and a major contribution to media ethics The Genesis Factor David R. Helm, Jon M. Dennis, 2001-06-29 Using the Socratic method Helm and Dennis challenge readers to wrestle with Scripture itself rather than with systematic questions This candid look at Genesis is an ideal apologetic against today's postmodern culture *The Autonomy of Labour Law* Alan Bogg, Cathryn Costello, ACL Davies, Jeremias Adams-Prassl, 2015-03-26 To what extent is labour law an autonomous field of study This book is based upon the papers written by a group of leading international scholars on this theme delivered at a conference to mark Professor Mark Freedland's retirement from his teaching fellowship in Oxford The chapters explore the boundaries and connections between labour law and other legal disciplines such as company law competition law contract law and public law labour law and legal methodologies such as reflexive governance and comparative law and labour law and other disciplines such as ethics economics and political philosophy In so doing it represents a cross section of the most sophisticated current work at the cutting edge of labour law theory **Understanding Kant's Ethics** Michael Cholbi, 2016-11-17 A systematic guide to Kant's ethical work and the debates surrounding it accessible to students and specialists alike **The Rhetoric of Pope John Paul II** Joseph R.

Blaney, Joseph P. Zompetti, 2009-01-01 Pope John Paul II was clearly one of the most influential persons of the 20th Century. He affected the world of politics, religion, and culture with a rhetorical zeal unmatched by few actors on the international stage. From the downfall of communism in Eastern Europe to his devotion to Mary to his championing of social justice and orthodox theology, this book examines his several moments of persuasive finesse as well as instances when his message could have been crafted more effectively. The essays in this collection examine his persuasive skills from several scholarly points of view. The book also offers analyses of media portrayals of this often controversial figure. With contributions from some of the world's leading communication scholars, clergy, and social activists, this book is must reading for anyone interested in a deeper understanding of religious communication in general and John Paul II's rhetorical papacy in particular. Written by Catholics, Protestants, Mormons, agnostics, and atheists, the chapters approach the Pope with varying degrees of admiration but always with intellectual respect. **Reason Informed by Faith** Richard M. Gula, 1989 Excellent textbook introduction to the basic issues of fundamental moral theology that considers all of today's moral issues. **Eclipse of Justice** George E. McCarthy, Royal W. Rhodes, 2008-12-21 A sociologist and a church historian provide a probing scholarly critique of Economic Justice for All, the American bishops' pastoral letter on Catholicism and the U.S. economy. McCarthy and Rhodes examine the letter's focus on poverty, inequality, and powerlessness in American society. They review classical concepts of social ethics and economic justice as applied by the bishops to analyze the social, political, and economic institutions of America. By examining reactions to the letter from both the political left and right, *Eclipse of Justice* opens up the full range of debate about the nature of social ethics. The first part of *Eclipse of Justice* presents the moral dilemma created by the bishops' critique of liberalism; they pronounced it a social and moral scandal and explore the antecedents, papal, episcopal, and lay, that provided the ideas and vocabulary for the bishops' letter. The second part analyzes the pastoral letter and locates it within the larger context of debates about economic structures in modern liberalism. The third part examines attempts of the bishops to relate Christian social doctrine to international political and economic issues and probes the contributions of liberation theology and dependency theory. Youth Development in Nigeria Emmanuel Njoku, 2021-06-10 Youth development is as a core aspect of human and national progress in Nigeria. The study suggests the development of young people as the means of poverty reduction. It indicates that amidst cultural, ethnic, and religious diversities and in the light of threats to human life and property, the development of the youth is the way to promoting peace and unity, justice and security. The book argues on a two-fold contribution. While the Nigerian Church is to intensify efforts in the active participation of lay Christians in politics, the State is to tackle critical areas to ensure a decent standard of living for all. *Standpoints* Svend Brinkmann, 2018-03-16 Self-help gurus, life coaches, and business consultants love to tell us that we must strive for constant self-improvement to realize our full potential and become truly happy. But it doesn't seem to work for many of us; life still seems hollow and meaningless. So focused are we on personal development and material possessions that we've overlooked the things that make life truly

fulfilling and worthwhile So how do we figure out what s really worth striving for In this compelling follow up to his bestselling book *Stand Firm* Danish philosopher and psychologist Svend Brinkmann shows us that the important things in life are those with intrinsic value like goodness freedom truth and love We should stop asking what s in it for me and turn our attention outwards to our friends families and communities By putting others first and embracing these unconditional principles or standpoints he argues we can find a more meaningful and sustainable way of living
