## **Promise And Peril The Paradox Of Religion As Resource And Threat:**

*Promise and Peril* Anna Lännström, 2003 *Promise and Peril* delivers current analysis of the major religious conflicts in the world

The Huston Smith Reader Huston Smith, 2012-03-26 I read Huston Smith's *The World's Religions* as a teenager. It was the most influential event in my life. He has shaped my thinking, my lifelong quest, and guided me to where I am today. The *Huston Smith Reader* will enlighten you, delight you, and expand your awareness. I intend to carry this book with me wherever I go. Deepak Chopra, author of *War of the Worldviews*, says Huston Smith approaches religion with the wisdom of a philosopher and the wonder of a child. He looks for similarities that unite, not differences that divide. He comes armed with knowledge and blessed with understanding. Don Lattin, author of *The Harvard Psychedelic Club*, says this remarkable book by the beloved scholar-practitioner Huston Smith has the depth and breadth of no other. It is wise and full of insight, at times funny, at times poignant. Manifesting both lived and living wisdom, the book's power, beauty, and courage will take the reader into the heart of the world's religions. Joan Halifax, Founding Abbot, Upaya Zen Center, says: "No one in our time, neither Martin Buber nor Elie Wiesel, neither Karen Armstrong nor Simone Weil, has made a greater contribution to our understanding of religion and spirituality than Huston Smith. We are privileged to live in his era, not only for his books and films but for his emphasis on gleaning the wisdom from ancient traditions and the example he has afforded the rest of us in practicing what he preaches, thus illuminating for us what it means to have a lived-in philosophy of the religious life." In turn, this book affords us the widest and most penetrating range of insights yet published into the mind and heart of this great teacher. Phil Cousineau, editor of *The Way Things Are*, says: "Huston Smith, on the spiritual life and author of *The Art of Pilgrimage*, Huston Smith's words serve me well in traversing my spiritual path." Ram Dass, author of *Be Here Now*.

**The Oxford Handbook of Religion, Conflict, and Peacebuilding** Atalia Omer, R. Scott Appleby, David Little, 2015-03-02 This volume provides a comprehensive and interdisciplinary account of the scholarship on religion, conflict, and peacebuilding. Looking far beyond the traditional parameters of the field, the contributors engage deeply with the legacies of colonialism, missionary activism, secularism, orientalism, and liberalism as they relate to the discussion of religion, violence, and nonviolent transformation and resistance. Featuring numerous case studies from various contexts and traditions, the volume is organized thematically into five different parts. It begins with an up-to-date mapping of scholarship on religion and violence and religion and peace. The second part explores the challenges related to developing secularist theories on peace and nationalism, broadening the discussion of violence to include an analysis of cultural and structural forms. In the third section, the chapters explore controversial topics such as religion and development, religious militancy, and the freedom of religion as a keystone of peacebuilding. The fourth part locates notions of peacebuilding in spiritual practice by focusing on constructive resources within various traditions, the transformative role of rituals, youth, and interfaith activism in American university campuses, religion and solidarity activism, scriptural reasoning as a peacebuilding practice, and an extended reflection on the history and legacy of missionary

peacebuilding The volume concludes by looking to the future of peacebuilding scholarship and the possibilities for new growth and progress Bringing together a diverse array of scholars this innovative handbook grapples with the tension between theory and practice cultural theory and the legacy of the liberal peace paradigm offering provocative elastic and context specific insights for strategic peacebuilding processes

The Just War And Jihad R. Joseph Hoffmann,2010-05 The articles collected in this volume represent the independent and considered thinking of internationally known scholars from a variety of disciplines concerning the relationship between religion and violence with special reference to the theories of just war and jihad technical terms that arise in connection with the theology of early medieval Christianity and early Islam respectively The contributors include Hector Avalos Charles K Bellinger Bahar Davary Carol Delaney J Harold Ellens Reuven Firestone R Joseph Hoffmann Judith Lichtenberg Pauletta Otis Gabriel Palmer Fernandez Laura Purdy Joyce E Salisbury Regina M Schwartz and Robert B Tapp In the present global and political climate the significant conversation about why religions provoke conflict and whether any religion is truly harmless cannot be ignored

*Violence and Peace in Sacred Texts* Maria Power,Helen Paynter,2023-01-31 This volume brings together 11 experts from a range of religious backgrounds to consider how each tradition has interpreted matters of violence and peace in relation to its sacred text The traditions covered are Hinduism Buddhism Judaism Christianity Islam and Sikhism The role of religion in conflict war and the creation of peaceful settlements has attracted much academic attention including considerations of the interpretation of violence in sacred texts This collection breaks new ground by bringing multiple faiths into conversation with one another with specific regard to the handling of violence and peace in sacred texts This combination of close attention to text and expansive scope of religious inclusion is the first of its kind

**A Political Theology of Vulnerability** Sturla J. Stålsett,2023-06-26 Vulnerability is at the core of the political drama of our time Countering conventional approaches this book presents human vulnerability as a source of political community and a potential for political agency in precarity Analyzing Christian celebrations of Christmas and Easter in contexts of struggle it shows how religious resources inspire precarious politics Combining critical political theory liberation theology and lived religion Sturla J St lsett sees in such celebrations a political sacralization of vulnerability and a dispossession of divinity

**Philosophy** Jorge J. E. Gracia, 2013-11-14 Mel Gibson's The Passion of the Christ has become one of the most controversial films ever made and it is already a blockbuster of cinematography Its defenders passionately regard it as one of the most moving and influential pieces of religious art ever created But its detractors argue with comparable vehemence that the violence and gore it contains its alleged anti-Semitism a particular take on the Christian message and the lack of historical and Biblical accuracy make it nothing more than a kind of political propaganda Father Thomas Rosica hailed as one of the great masterpieces of religious art but the secular humanist Paul Kurtz thinks of it as a political weapon in the hands of the religious right Film critics are divided in their judgment giving the film anywhere from no stars to five stars Regardless of what one thinks of the film however its impact both personal and social is beyond question      **Religion among People**

Kees W. Bolle, 2017-10-23 At the deepest level religious traditions determine what goes on between one human being and another between one community and another and between human beings and whoever holds power over them Kees Bolle's original passionate scholarship veered away from things handed down and standard in our thought about religions In this his final book he explores how religious paradigms have given rise to particular structures of power and how religious myths compel particular human actions the possibility of interpretation the necessity for recognizing religious forms where they appear the relationship of secularization and sacredness And at every turn Bolle examines the notion that Western intellectuals are nonreligious He confronts the responsibility mere scholarship bears for events sometimes terrible events in the real world We move from David and Nathan to Antigone from Brahmanism and Buddhism to the familial struggle between Christianity and Islam The book concludes with Bolle's striking reflections on how modern man has become inherently religious in concurrence with modern manifestations of power Bolle is a fascinating figure He loved the immediacy of lessons found in Hasidic stories and his own thought may be said to approach the wholeness the immediacy of religion

Buddhist teachings these essays demonstrate that while selfhood is an illusion there is still a conventional self that must be held responsible This book finds the underlying distinctions between ultimate and conventional understandings of selfhood which lead to variations on the role of responsibility in the community and government With essays from CEOs to historical theologians Responsibility offers a variety of perspectives that will captivate the interest of philosophers and scholars of ethnics and religion **Journal of Ritual Studies** ,2003 **American Book Publishing Record** ,2003 Believers in the Battlespace Peter Harvey Denton,2011 Beginning with the idea that the battlefield has irrevocably become the battlespace this book explores the relation between religion and modern warfare in a variety of historical and contemporary contexts Solely blaming religion for creating conflict does not survive contact with the evidence Religious factors are at least equal to social cultural and psychological ones in understanding the sources of conflict and the motivations of the combatants

that courage is a habit we can practice      Loving the Fine Anna Lännström, 2006 Lännström probes Aristotle's view that desire is crucial to decision making and to the formation of moral habits.
