Raising a Handicapped Child Charlotte E. Thompson, 1987 This book should be a great help for parents of a child with any handicap Dr Benjamin Spock I think parenting is probably the hardest job there is if it is done well and parenting a handicapped child takes immense dedication energy and self knowledge If even one of my suggestions makes your life easier or improves your child s life then the time and energy I have put into this book will be rewarded many times over Most of the parents of handicapped children seem to me extraordinary people and the care and love they show their children are among the highest tributes to the human spirit Charlotte E Thompson MD Practical complete reassuring advice on Coping with tragedy How to handle the sorrow anger and guilt of a devastating diagnosis or a progressive disease Health care How to find the best professional help keep up with new treatments medications and research and cope with the costs Education and development How to select educational programs that are geared to specific disabilities and designed to fulfill your child s greatest potential in adolescence Family and friends How parents can help themselves and each other how to help siblings adjust and what to tell well meaning friends and relatives Fun for handicapped kids A comprehensive guide to places that are accessible to handicapped children An accessible and sensitively written handbook Boston Herald

Parents' Guide to Special Needs Schooling Ruth F. Cantor, Jeffrey A. Cantor, 1995-12-11 This book is written to help parents of special needs children understand and navigate the educational system The book describes the various ways parents can be involved in planning and delivering a special education program for their child Communication between school medical practitioner and parents is the key ingredient to success in these endeavors This is the central theme of the book Topics covered include proper diagnosis of the disability confirmation of perceived problems parental coping strategies assessment educational program identification IEP program planning processes interfacing with school system organizations finding support groups and information and due process As important as parental involvement in a child s education is for a healthy child it is even more essential for the special needs child The authors have found that the school system is not always a friendly organization when it comes to parental involvement Yet a parent s involvement in diagnostic and placement procedures and overseeing and measuring progress is a right This book will guide parents in exercising these rights to total involvement in the process
